2. Introduction

- 2.1 Torbay Council, under their responsibilities as a Harbour Authority, have implemented the Port Marine Safety Code as issued by the DETR in March 2000. The code is designed as a standard, to be achieved by Harbour Authorities in carrying out their duties and powers and to promote best practice.

- 2.2 The Port Marine Safety Code serves as a framework for the preparation of policies and plans relevant to the issues of concern in the code. In essence the code requires Harbour Authorities to ensure they maintain corporate governance over the activities entailed in the powers and duties they discharge.
- 2.3 The Code states that “it is fundamental to an effective safety management system that each harbour authority should assign the functions of a ‘designated person’ to provide independent assurance to the ‘duty holder’ that the safety management system is working effectively and to audit the authority’s compliance with the Code”.
- 2.4 Nicholsons Risk Management Ltd has been appointed the Designated Person to review the Tor Bay Harbour Safety Management System and annually report on compliance with the Port Marine Safety Code.
- 2.5 The last Port Marine Safety Code Compliance Audit Report was dated 23 November 2007 and was presented to the Harbour Committee on 3 December 2007.
