

Email from Julie Smart, Police Licensing Officer, to Tim Northway, Torbay Council Highways Team.

At about midday on Thursday 2 October 2014 myself and Mandy Guy of Torbay Council Licensing Department, were walking along Vaughan Parade when we noticed, yet again, that Shiraz and Vaughans both had their tables and chairs well beyond the yellow markers on the pavement.

We went into both premises and advised them that they need to comply with the requirements of their Pavement Cafe Permits, and asked them to move their furniture to within the area as soon as customers had left the relevant tables.

I also took photographs of the area in which the yellow markers can be seen, which are attached for your information.

18th June 2015

A – boards and tables and chairs outside the cafe permit area.

Dear Mr Walker

RE: Nuisance noise from Shiraz cafe / bar reference number SRU211332

Further to our telephone conversation I started to record the titles of the songs, as you can see the songs being performed are clearly audible. The music has been getting increasingly louder since the summer months, to the point where I can hear it above the sound of the television; this is the loudest disturbance I have heard coming from the harbour side, considerably louder than on Friday and Saturday nights in the mid-season summer nights.

Please find enclosed the completed diary sheets from 19th November to 4th December 2014.

I hope this matter can be addressed with Shiraz as soon as possible, as I am sure you will understand the noise is very disrupting to family life.

I look forward to hearing from you soon.

Kind regards
Yours sincerely,
