Summary of recommended Further Additional Modifications to the Submission Plan – Text

[Derived from Examination Library Document TCRM0D/18 – see Council Report Background Document B.4)

## **Explanatory note**

This document summarises the Council's Recommended Further Modifications to the Submission Version of the Torbay Local Plan, in response to representations it has received on the Proposed Replacement Additional Modifications (RAMs) to the Local Plan. Each Recommended Further Modification is of a minor nature and has been classified as an Additional, rather than Main Modification. No Further Main Modifications are proposed to the Proposed Replacement Main Modifications (RMMs).

The majority of the Recommended Further Modifications are minor editorial matters that clarify the strategy set out in the Proposed Submission Version of the Local Plan and are amplified by the Proposed Replacement Main and Additional Modifications.

Because the Recommended Further Additional Modifications largely amend text of Replacement Additional Modifications (RAMs), the reference number has been kept the same where possible. So, for example the subject matter of FAM5 relates to the text previously modified as part of RAM5. Recommended Further Additional Modifications are highlighted in yellow below.
