

Dust Safe Working Practices

Dusts and fumes that are likely to prove injurious or offensive to persons must be controlled. The control of Dust and Fumes is now subject to the Control of Substances Hazardous to Health (COSHH) Regulations 1999.

“Dust in Air Limits” are subject to Maximum Exposure Limited (MEL’s). Guidance is contained in HSE Guidance Note EH40 (Occupational Exposure Limits).

For further information refer to the sections on COSHH and ASBESTOS.
