Torbay Council **text4bus** service

You may have seen luminous posters in bus stop timetable cases advertising the "text4bus" service.

The scheme allows you to find out the times of the next three buses at that stop by texting the 7 or 8 digit sms code to 84268 from your mobile phone. If the stop is a busy one and you just want the times for your bus you can enter the code followed by the bus number which gives the times of the next 3 buses. Each bus stop has a unique sms code.

Of course, you do not need to be at the bus stop in order to use this service. You can text from the comfort of your own home to avoid waiting out in the cold for too long. If you use more than one bus stop on a regular basis, simply make a note of the sms code for each bus stop. Why not store them on your mobile phone. These codes will not change.

If you do not know the sms code for the other bus stops, but have access to the internet, you can find the code for any local bus stop by accessing the traveline South West website www.travelinesw.com and going to the Text Service.

You can find all the stops you require either by place or bus route, once you have found your stop the sms code will be shown e.g tbyajpj

What is the cost?

Messages are charged at your normal network rate. Returning text's are charged at 25p each.

What is sms?

Sms stands for Short Message System.
