Subject: St . Marychurch District

I fully support the Neighbourhood Plan which so many of us have worked hard to include all aspects of our community . It not only allows for areas of development , and the retention of obvious green spaces but retains the character of each district in an attempt to satisfy the needs of locals and visitors to this beautiful area.

As a resident of Maidencombe , Torquay , I should like to give my whole hearted support to the Neighbourhood Plan .

Many years of work by many enthusiasts have included all aspects of life in Torbay . It allows for areas of development , the retention of important green spaces , whist taking into account the needs of locals and visitors to this wonderful coastline . It has also attempted to retain the character of different areas , an important aspect in a holiday area.
