Pensinula Neighbourhood Plan - TDA Amendments Dec 2017.pdf

Dear Neighbourhood Planning Team

Please find attached on behalf of Torbay Council, TDA's response to the Neighbourhood Plans Local Green Space Designations.

There are two documents for each Neighbourhood Plan a Schedule and Commentary.

Kind Regards

Paul Palmer MRICS (Registered Valuer)

Estates Manager

Response to the designation of Green Spaces in the Neighbourhood Plans TDA on behalf of Torbay Council (acting as a landowner) – 15th December 2017

Torquay Neighbourhood Plan

As a summary the Council, in its capacity as a landowner, issued its first representation on the Torquay Neighbourhood Plan, via the TDA, on the 15th September 2017. TDA on behalf of Torbay Council issued a robust approach adopting a more overarching principle than that adopted in both Brixham and Paignton Neighbourhood Plans. The Council, through the TDA, did object to all Local Green Space Designations. Subsequently the TDA has revisited the Torquay Neighbourhood Plan Local Green Space Designation and their view on behalf of Torbay Council is as follows;

To create a more uniformed position across each Neighbourhood Plan, Torbay Council, through its agent, the TDA, recognises that the National Planning Policy Framework does set out the opportunity for Neighbourhood Plans to identify Local Green Spaces. TDA agrees that local communities through local and neighbourhood plans should be able to identify for consideration green areas of particular importance to them for protection. However it is not always appropriate to simply identify land as Local Green Space. The designation should only be used if, for example, the land in question is demonstrably special and has local significance. When identifying land as Local Green Space it is important to be consistent with the local planning aims of sustainable development and should complement investment in sufficient homes, jobs and other essential services.

It is reasonable for the TDA on behalf of Torbay Council to continue to object to any designation where it is believed that any of the criteria that should be applied when identifying Local Green Spaces has not been met. This should include the need to complement the need for investment in homes, jobs and services and that its designation must be capable of continuing beyond the plan period (2030), i.e. that the criteria will continue to be relevant. Many of the identified sites have the benefit of significant Local Plan protective designations either wholly or in part, for example Nightingale Park which in part forms a Conservation Area or Walls Hill which is an SSSi. This therefore already offers a significant degree of protection. Furthermore, Central Government through its One Public Estate programme continues to direct local authorities to generate efficiencies, through capital receipts and reduced running costs from land holdings. In addition, the Local Government Association has specifically identified the use and income from Council assets to support core services. For this reason and also taking into account the Council's Corporate Asset Management Plan, a key policy framework document which states the Council should not restrict or reduce the current or future value of its assets through the use of covenants and other restrictions the Council continues to strongly objects to all proposed Local Green Space designations as set out in Torquay's Neighbourhood Plan in the attached schedule. TDA recognises the Community Partnership has relaxed or amended boundaries to try and facilitate future development such as at Hollicombe Park. However, TDA on behalf of the Torbay Council is still of the opinion that overarching designations would still hinder future development. There are a number of specific proposals for a number of the sites identified and any such designation would prevent the Council in bringing forward these proposals.
