G08 – Informal advice given	G13 – Verbal advice given	B – Revisit
G07 – Warning letter sent	M20 – Report Form only	C – Other visit (advice)

* Re-visit following inspection & renewed in Feb 2013.
 Licenced used to operators & both Paignton Zoo
 and living coats.

- New sign appeared to be displaying correct information as required by SSMZP. Photograph taken.
- Lemur walk thro was looked at in some detail during the V&S visit in Feb. ~~Re~~ Recommended to review risk assessment at regular intervals.
- Visited and met with the Health and Safety officer during the walk round and discussed risk assessment procedures. Down core of lateral P.A for the lemurs.
- (A separate Health and Safety inspection undertaken in the afternoon).
- During walk around Neil showed off the new hand dryer facilities in the pottery area. The hand dryer was exactly what and to the ~~the~~ specification as required by the Depta regs. New Signage also complies with HSE guidance for Pottery Retiring areas and the risk of scoli.
- Discussed a wide range of Health and Safety topics ahead of meeting with the Health and Safety officer.
- Discussed arrangements for informal inspection in 2014.
- Conclusions and recommendations completed with. No further action at this time, *
- + No letters required.
- All documents belonging to the Zoo from the main inspection returned.

Licence Displayed in Public Area .. Existing licence on display - Handled ..
Copy of new licence ~~waited~~ during meeting ..

Details of licence conditions and outstanding items checked/problems identified:

- * No additional conditions were attached to the licence ..
during the Feb 2016 inspection - Except Hand dryer (P.T.O)
- * Talked through mandatory conditions. Neil gave
additional information regarding range of work
coming in conservation projects ..
- * Discussed recommendations of the DEFRA's ~~inspector~~
report including:-
 - More information to be provided regarding
conservation projects. Neil discussed new
signage is has already been made and
is in place. Doing a walk around the site
gives down several examples of the new signs,
including the field mice project and a rare bird
programme (though most of the work is completed on site).
