

# A Market Position Statement for Torbay 2016 +

Information and analysis of benefit to providers of care and support services in Torbay

Identify future demand for care and support on the basis of what we know now about our local population, services and funding

Share information on demand and supply, as well as local and national strategies with new and existing service providers

# Group Discussion

We would like you all to look at the following questions in your groups:

1. What parts of the Market Position Statement do you find useful?
2. Do you think anything is missing?
3. How do you think this document could be improved?
4. How can the style, content and layout be improved to make it easier to read and understand?
5. Other thoughts and suggestions?

Please could you write responses onto the post-it notes provided; we will then collate all the information to consider when developing future Market Position Statements.

At the end of the discussions we would like each group to briefly summarise and feedback to the other groups your thoughts and ideas and answer any further questions you might have on this topic.
