459. Street Trading Re-designations. The Committee received Report 339/2008 that set out the proposals to change the Street Trading designations as presented in Annex 1 to Report 339/2008. Members were informed that the Street Trading Working Party was established to consider streets that at present were designated Prohibited Streets and Consent Streets.

The Committee noted that extensive consultation had been undertaken and the Street Trading Policy had been agreed by the Licensing Committee on 2 October 2008 (minute 352 refers). Members were advised that a public notice had been placed in the newspaper advertising the streets to be re-designated. Members noted that one representation was received which requested that only part of Rowley Road be re-designated as presented in Annex 2 to Report 339/2008.

Resolved: (i) that Street Trading designation for those streets set out in annex 1 to Report 339/2008 be re-designated from Part A of the Street Trading Schedule (Prohibited Streets) to a Part B (Consent Street – Council permission required to occupy the land); and

(ii) that the Street Trading Policy be reviewed in April 2010.
