2 July 2010

Introduction

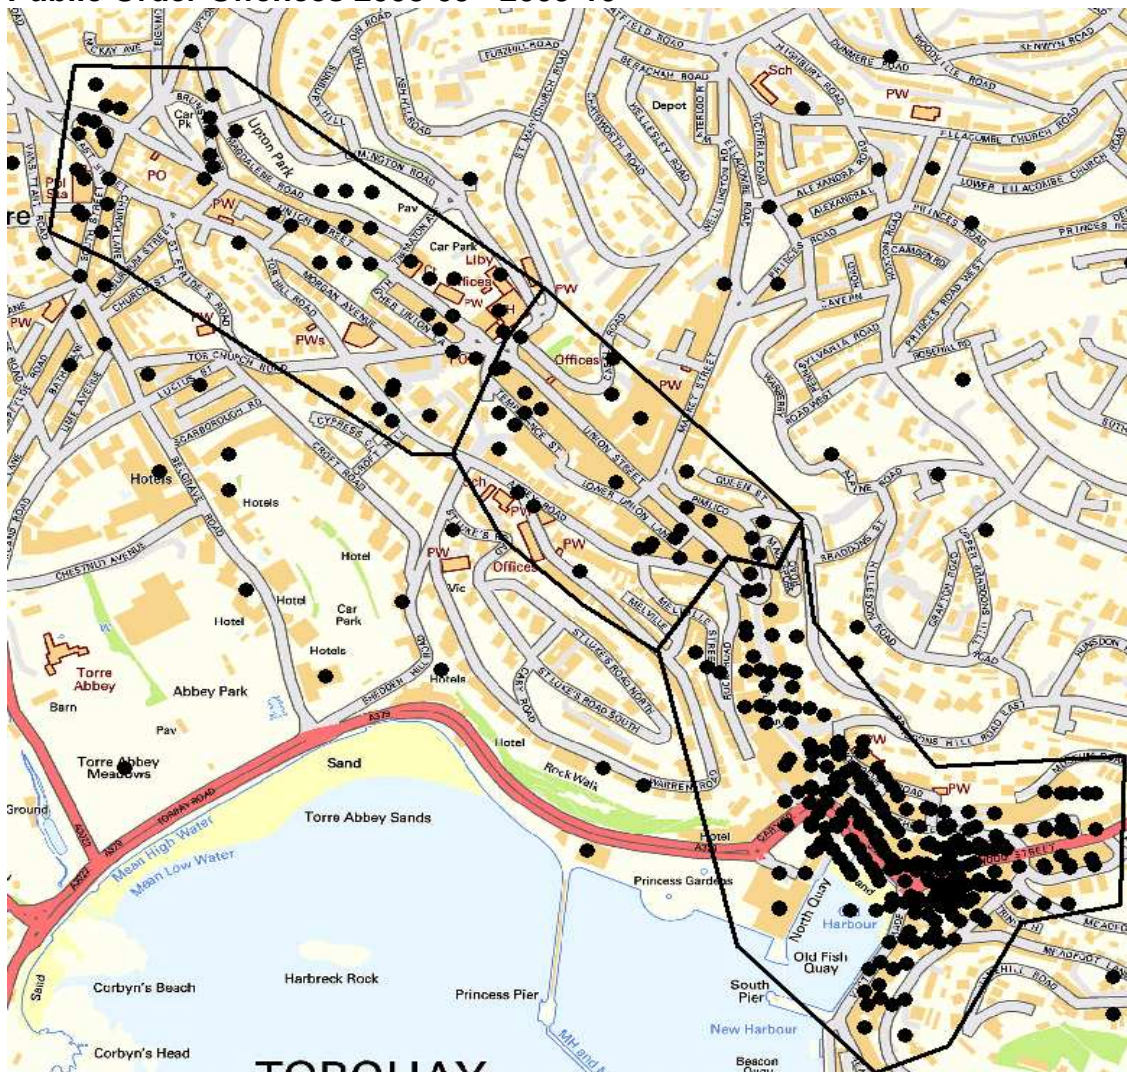

- Analysis of Public Order offences and criminal damage offences for 2008/09 and 2009/10. This was to supplement previous analysis on night time assaults.
- Data supplied by Performance and Analysis Department at Middlemoor.
- Town centre split into three areas with the harbourside from Torwood Street to bottom of Union Street (called Harbour below), the next section from this point to Town Hall (called Lower Union Street below) and the next section from this point to the Police Station (called Torre below).
- Public order offences with a start time between 9pm and 4 am were analysed.
- For criminal damage there is often a big gap between start and end times so this can be more approximate at times. Late night offences with a start time or end time between 9pm and 4am – on same day or overnight offences between 2 consecutive dates were analysed.
- In both cases data was first mapped and then counted so analysis assumes accurate geocoding.

Key points

- For public order offences the Harbour area was the hotspot with 318 offences in past 2 years. Particular hotspot in Strand and Torwood Street. There was a small rise in offences in 2009/10, from 149 to 169, this was due to a rise in drunk and disorderly offences from 61 to 81. The Lower Union Street and Torre areas had far fewer offences, 29 and 57 respectively over the two years and both recorded small falls in 2009/10.
- Criminal damage showed a fall in 2009/10 from 157 to 118 and all three areas experienced falls. The differences between areas were not that great in either year, Torre was the area with most offences in both years.

Public Order Offences

Public Order Offences 2008-09 - 2009-10

Harbour Area

OffenceText	2008-09	2009-10	Total
