

## TORBAY COUNCIL

Report No: **Env/37/04**

Title: Community Planning Proposals for Torre

To: Executive on 13 July 2004

---

### **1. Purpose**

- 1.1 The purpose of this report is, firstly, to inform the Executive on the results of the 'Torre's Future is Your Future' Community Planning Day, and secondly, to outline the recommended next steps to ensure that the money earmarked for Torre is spent in this financial year.
- 1.2 The report's recommendations follow consideration at the meeting of the Torre Action group [TAG] on 14 June 2004. Officers advised the TAG meeting that their views would be forwarded to the Council for approval, prior to scheme implementation.
- 1.3 A suggested timetable of implementation is also included in this report.

### **2. Relationship to Corporate Priorities**

- 2.1 The proposals relate to Jobs and Industry, Road Safety and Congestion, Social Services and Affordable Housing.

### **3. Recommendation**

- 3.1 That the recommendations of the Torre Action Group, as set out in section 6.2 of Report Env/37/04, be endorsed and the Director of Environment Services be requested to progress the matter in accordance with stages set out in section 7.1 of that report.

### **4. Reason for Recommendation**

- 4.1 The community planning project is supported by the Torre Action Group and presents a unique opportunity to achieve real improvements in the quality of life for Torre residents and business people.
- 4.2 The timing is also important, as there is no guarantee that the sources of finance currently available will be there for Torre next year. This means that there is a limited window of opportunity to spend the money and decisions need to be made quickly.

### **5. Background**

- 5.1 The Torre Action Group [TAG], comprising local residents and traders, in partnership with the Safer Communities Partnership and Torbay Council, has highlighted the need for a community planning project for Torre. This would include environmental and community enhancement, improvements to traffic circulation and parking, and the establishment of a framework to assist businesses and prosperity in Torre. Torbay Officers identified around £250,000, which is available from at least five separate sources, which has to be spent in the current financial year.

- 5.2 The partnership organised a Community Planning Day in Brunswick Square, Torre, on Saturday 5 June 2004, from 10.00 am to 4.00 pm.
- 5.3 At the event a set of five large-scale plans was displayed, with space next to each plan for people to stick their comments – both on problems and ideas – on post-its. The five large-scale area plans covered:
- Newton Road Area
  - Brunswick Square Area
  - Union Street Area from Laburnum Avenue to Trematon Avenue
  - Union Street Area from Trematon Avenue to Castle Circus
  - Church Street Area
- 5.4 In addition to targeting comments in relation to the five plans, the public was encouraged to use different colour post-its, depending on the subject matter, as follows:
- Red – Safety from crime and road users [ref. SA on the tables below]
  - Yellow – Streetscape, e.g. pavements, lighting, etc [ref. ST on the tables below]
  - Green – Amenities, including toilets, rubbish bins and facilities for leisure and recreation [ref. AM on the tables below]
  - Blue – Access to and within Torre by foot, cycle, bus and car [ref. AC on the tables below]
  - Pink – Economic and housing issues, such as shops and businesses and housing developments [ref. EC on the tables below]
  - In addition to the above categories, a sixth category of Communication has been added, [ref. CO on the tables below] to reflect comments about how the community should engage in future communication with its members and the Council
- 5.5 Council staff and community representatives were on hand throughout the day to discuss issues and answer questions.
- 5.6 There was a steady throughput of people at the event during the day. Our recording machine tallied 186 people visiting the Community Planning Day, and it is quite likely that this figure was exceeded. The first two hours were the busiest.
- 5.7 In addition to the general public, two Councillors visited the event – Ian Doggett and Gill Hayman
- 5.8 Several local business people turned up to discuss the issues, including representatives from J&K News, Richard Oliver, Cavanna Homes, Torre Delights, Torre E-Bay, Central Perks, CAD Workshop and others.
- 5.9 The local press took photographs and interviewed Council Officers and community representatives
- 5.10 Three additional representatives of the local business community also participated in the same exercise on Tuesday 8 June in the Council Offices at Roebuck House, and their views were added to those which were obtained at the Saturday event. [They were representatives from Bill White and Son, Robert Excell Photograph CTT and Torre Motor Cycles Ltd]
- 5.11 The number of post-it and other written comments received during the exercise were as follows:
- Newton Road: Problems 39; Ideas 87
  - Brunswick Square: Problems 27; Ideas 143

- ❑ Union Street 1: Problems 9; Ideas 23.5
- ❑ Union Street 2: Problems 9; Ideas 13.5
- ❑ Church Street: Problems 27; Ideas 71
- ❑ **Totals: Problems 111: Ideas 338**

- 5.12 Many people discussed the same issues with the Council and TAG representatives, but it became clear that some people were not adding their views if the issues were already posted on the display boards. For example, there was a lot of verbal support for enhancing Brunswick Square by extending the paved areas for pedestrians and giving the area a facelift.
- 5.13 The detailed analysis of the comments made is set out, on an area and subject basis, in Appendix 1 to this report.

## 6. Key comments and recommendations

- 6.1 The key messages from the Community Planning day can be summarised as follows:

- ❑ **Brunswick Square:** There was support for extending /improving the paved area at Brunswick Square [top end of Union Street], perhaps into a pedestrian or semi-pedestrian precinct, with better paving, seating and lighting. Specific ideas for a central feature included a fountain/ archway, public art, etc. There is clearly potential for external seating/café areas with local businesses.
- ❑ **Torre Centre Shops:** There was support for making the shop fronts in Torre Centre more attractive, with the recognition that the best way to regenerate the centre of Torre is to make it more environmentally attractive. Themed events could be introduced, e.g. Victorian Evening.
- ❑ **Reversal of traffic flow along Union Street:** Conversely, there was little support for reversal of traffic flow along Union Street from Torre to Torquay town centre; some members of the business community stated that the retention of on-street parking on Union Street outweighed the value of reversing the traffic flow, if it came to a straight choice. There is potential for environmental improvements, including widening pavements, safer crossing points and better lighting.
- ❑ **Bus links:** There was, however, some support for a bus-only access from Torre to Torquay town centre along the length of Union Street [i.e. reverse flow for buses only]
- ❑ **Signing:** There was strong support for better traffic signs to make vehicular access to Torre much more obvious than at present.
- ❑ **CCTV Cameras:** There was strong support for more CCTV cameras in all parts of Torre, both in commercial and residential areas.
- ❑ **Car parking:** There was widespread criticism of the current parking regime and the unattractiveness of the Brunswick Car Park. There was strong support for enhancing the look of Brunswick Square, and introducing short-stay shoppers' parking, perhaps with free/ inexpensive shoppers' car parking for one hour and permit parking for traders
- ❑ **Residents' parking:** This was also supported, especially in the Church Street area

- ❑ **Anti-social behaviour:** Anti-social behaviour, often linked to alcohol or drugs, is seen as a major problem and disincentive to investment in Torre. Several suggestions for tackling the problem were made, including clearing shrubbery, more open design, tougher policing and refusing licences to known corner shops that provide alcohol to under age drinkers. There were requests for street wardens, following the success achieved in Hele.
- ❑ **South Devon College/ Social Housing:** There were big concerns raised over the scale of development envisaged for the South Devon College site, and also over perceived over-development in general and of social housing in particular. Some people supported limited social housing and the idea of a more balanced development programme [including some up-market housing] for Torre was supported.
- ❑ **Policing:** More police patrols on foot were requested, and although there was praise for individual police officers, there was a widespread perception that Torre was a forgotten community as far as policing on the ground was concerned.
- ❑ **Traffic management:** In the Church Street area, there was support for reversing the flow of Church Lane to prevent it being used as a rat-run to avoid the traffic lights at the East Street/South Street junction. There was also some support for other one-way reversals in the Church Street area. Improved pedestrian facilities were recommended in Union Street and as well as restricting illegal parking.
- ❑ **Traffic calming:** There was support for traffic calming on several streets, as a response to the traffic dangers arising from drivers speeding through neighbourhoods.

## 6.2 TAG made the following recommendations to the Council:

- (i) Scheme for the **environmental enhancement of Brunswick Square**, including increasing the paved areas for pedestrians, improved seating and a central feature/gateway to enhance the townscape and make the square more attractive for shoppers and visitors, as well as for local residents
- (ii) Scheme for **enhancing the Torre Shopfronts**, e.g. through grant aiding repainting/ redecorating.
- (iii) **Improve access to Torre from Castle Circus** including carriageway and footway reconstruction, improved pedestrian facilities, restricting illegal parking and gateway features.
- (iv) **Improved signage to the Torre shops** for both drivers and pedestrians
- (v) Scheme for **improvement of Brunswick Square Car Park** including making it more attractive to short-stay parking and measures to assist traders' parking.
- (vi) Scheme for investigating the potential for **residents' parking**, subject to residents' consultation.
- (vii) **Traffic Management Scheme** including possible one way systems and some traffic calming for the residential area of Torre, subject to residents' consultation.
- (viii) **Improved street lighting** in areas of poor lighting.

(ix) **Street Warden Scheme**, in response to the large number of complaints of anti-social behaviour from residents and traders

6.3 It is recommended that officers prepare detailed plans and costings for the improvement of Brunswick Square and for the improvement of traffic and environmental conditions within Torre, which will be displayed in the Central Library and Connections Office

6.4 It is also suggested that the Police, Safer Communities and Torbay Council continue to work with the Torre Action Group, and others, to further improve community safety and reduce anti-social behaviour, etc.

## **7. Next Steps**

7.1 Subject to the approval of the Executive, the next stages are planned as:

(i) Secure funding from the Single Regeneration Budget and European Regional Development Fund to maximise the amount and quality of the improvements that can be implemented

(ii) **Phase 1: Highways improvements** [Recommendations iii), v), vii) and viii) above]

- Presentation to TAG in August 2004
- Council approval in September 2004
- Implementation in October – November 2004

(iii) **Phase 2: Improvements to Brunswick Square** [Recommendations i) and ii)]

- Presentation to TAG in November 2004
- Council approval in December 2004
- Implementation in January - February 2005

(iv) **Other work**

- Street Warden Scheme [Recommendation ix)], subject to availability of funding, for possible implementation in Spring 2005.
- Carryout signing review to Torquay Central Area (Recommendation iv) for drivers and pedestrians now traffic directions agreed with a view to implementation 05/06.
- Residents' Parking [Recommendation vi)] to be actioned after implementation of Decriminalised Parking Enforcement (April 2005), subject to carrying out detailed consultation for controlled parking areas (Residents parking)

## **8. Alternative Options (if any)**

8.1 The alternative option is not to spend money on improving Torre, and the consequent problems of continuing economic and environmental decline. A golden opportunity would have been lost to secure real improvements, which could benefit not only existing residents and traders, but also benefit future occupants of the nearby redeveloped South Devon College site.

**Michael Yeo**  
**Director of Environment Services**

Contact Officer: Mike Fox

## **IMPLICATIONS, CONSULTATION AND OTHER INFORMATION**

### Part 1

Does the proposal have implications for the following issues?

Insert name of  
responsible officer

Legal (including Human Rights)	As detailed in report	Bill Norman
Financial – Revenue	As detailed in report	Richard Thorpe
Financial – Capital Plan	As detailed in report	Richard Thorpe
Human resources (including equal opportunities)		Claire Armour
Property	Any implications of the proposals for the Councils landholdings in the vicinity will be brought to the attention of the Corporate Asset Management team by the Environment Directorate representative	Sam Partridge

### Part 2

Does the proposal have implications for the following issues?

Please give details as appropriate

Sustainability	Yes	The proposals will set a framework for environmental enhancement, traffic and parking improvements, and overall improvements to the quality of life for one of Torbay's most pressured communities.
Crime and Disorder	Yes	The proposals have been supported by Safer Communities and should lead to containment and possibly reduction of crime and a reduction of road accidents.
*OfSTED Post Inspection Action Plan	No	
*Social Services Action Plan	No	
*Change Management Plan	No	

\* not applicable to reports to Licensing, Development Control and Area Development Committees

### Part 3

Does the proposal have implications for the following Directorates? If so, please inform the relevant Director.

Please give details as appropriate

Chief Executive/Corporate Services	Yes	Links with Strategic Plan and Safer communities
Education Services	No	
Environment Services	Yes	Scheme preparation, consultation, design and contract preparation
Social Services	No	
Strategic Services	Yes or No	Not Applicable

#### Part 4

Is the proposal contrary to or does it propose amendment to the Policy Framework or contrary to (or not wholly in accordance with) the Council's budget?	Yes	Fill in Box 1	No	✓	Fill in Box 2
<p>1. Details of the nature and extent of consultation with stakeholders and relevant select committees.</p> <p>There has been extensive consultation with the community</p>					
<p>2. Details and outcome of consultation, as appropriate.</p> <p>The details are set out in this report</p>					

#### Part 5

Is the proposal a Key Decision in relation to an Executive function?	Yes	✓	Reference Number X30/2004	
--	-----	---	------------------------------	--

#### Part 6

**Wards** Tormohun Ward

#### **Appendices**

Appendix 1 Analysis of Detailed Comments

#### **Documents available in Members' Room**

#### **Background Papers:**

The following documents/files were used to compile this report:

## Analysis of Detailed Comments

## Area 1 Newton Road Area - Problems
