Introduction

This document sets out the draft Equality Impact Assessments which have been prepared for those proposals which have been assessed as having a material impact on service users. It should be read alongside the proposals for service change, income generation and efficiencies which are included in the draft Revenue Budget Digest.

An Equality Impact Assessment is a mechanism which helps the council to determine the impact of its proposals. It is particularly useful for determining how proposals will affect groups or communities who experience inequality, discrimination, social exclusion or disadvantage.

Although the Equality Act 2010 does not impose a specific requirement to undertake paper based Equality Impact Assessments, the Council believes this is important to demonstrate that equality consequences of proposals have been considered and ensure that where possible, impacts are eliminated, minimised or counter balanced by other measures.

These will be updated once the consultation process is completed and before any final decision on the proposal is made.

An eight week consultation on the budget proposals, both for the public and partner organisations, will be undertaken between 23 October and 15 December 2017 so as much feedback as possible can be gathered. The consultation questionnaire will be available at www.torbay.gov.uk/consultation by 30 October 2017. Paper copies are available at all Torbay Libraries and the Harbour offices. Focussed consultation will take place on proposals where individual service users or organisations are expected to be significantly affected.

In addition, the Mayor will be a budget event on Thursday 16 December 2017 at the Riviera International Conference Centre, Torquay. It will provide an opportunity to hear about the Mayor's proposals, to ask questions and make comments. The event will start at 4.00 p.m.

Draft - Supporting Information and Impact Assessment

Budget Proposal:	Youth Grants
Executive Lead:	Julian Parrott
Director / Assistant Director:	Andy Dempsey

Version: 1	Date:	October 2017	Author:	Gail Rogers
	0	· · ·		

Section 1: Background Information

1. What is the proposal / issue?

The proposal is to reduce the youth services budget from £330,000 to £300,000 in 2018/19 which would see the withdrawal of the neighbourhood funding grants, the value of which was £30,000 in 2017/18.

Youth grant funding has been in place for six years, but with a clear message year on year that it would not be guaranteed into the future, and that small organisations receiving the grant need to develop their own sustainability strategies. This element of the service is non-statutory.

2. What is the current situation?

There is an annual grant cycle inviting organisations to bid for funding as long as they meet set criteria, and limiting the maximum amount of the bid. Bids are scored against the outcomes required and a panel of community youth sector organisations and of young people evaluates the bids to determine which should be funded and the value of the award.

Organisations have been expected to complete mid-term and end evaluations and have been supported by a senior youth worker. Until this year, funded projects had been enrolled on a national quality assurance programme to support the quality of their provision for young people.

In 2017/18 the grant funding was £30,000 with a maximum of £3,000 to any single organisation or individual. There were 12 organisations who were successful in their bids, representing areas of need across the Bay. All are delivering diversionary activities out of school time.

The provision of these grants is not a statutory requirement of the council and the remaining funding of £300,000 is sufficient to maintain the staffing of the emerging Youth Trust. The Youth Trust will continue to support outcomes for vulnerable Young Carers which is mandated through the Children and Families Act 2014. The service will also continue provide services for young people on the edge of care or within the safeguarding

3.	services to prevent both further expenditure on expensive care placements and poor outcomes generally for children within Torbay. The Youth Trust will also act as a conduit in supporting the development of services through alternative funding streams not available to the Local Authority. What options have been considered?
	The provision of grants to youth organisations is not a statutory requirement of the council and therefore no further options have been considered.
4.	How does this proposal support the ambitions and principles of the Corporate Plan 2015-19? The proposal aims for a prosperous and healthy Torbay by focusing the council's limited resources on those vulnerable groups who are at greater risk of poor outcomes. This proposal supports the principle of `using resources to best effect'.
5.	Who will be affected by this proposal and who do you need to consult with? Those affected are the community and voluntary groups who have been eligible for grant funding to support their delivery of neighbourhood youth provision. Young people using these services may also be impacted if the provision becomes unviable or is put at risk due to the withdrawal of the grant funding. Consultation will take place with all the groups currently receiving the grants and the young people attending the provision which is funded by the grants.
6.	 How will you propose to consult? Consultation on the proposal will be conducted in the following ways: We will contact all recipients of the current grant funding outlining the proposals and asking what the impact will be and whether they have any means of mitigating the loss of future grant funding. Should any groups indicate the service they provide will become unsustainable as a result of this proposal, we will consult with young people to ask them what impact the potential loss of provision will have on them. This proposal will also be included in the general budget consultation.

Section	n 2: Implications and Impact Assessment
7.	What are the financial and legal implications?
	Youth policy has not provided more than an aspirational set of standards for sufficiency which has been subjective and non-specific. No Local Authority has been successfully challenged around the reduction in services, and the national picture evidences a 15% budget reduction on average across the country, this proposal represents a 10% reduction.
8.	What are the risks?
	There is the risk the removal of this funding will mean that some of the services provided by community groups are not viable to continue.
	There is a risk that if the proposal is not implemented that funding will need to be found which is allocated for statutory services, meaning that the council would be providing a lower level of support to vulnerable young people.
9.	Public Services Value (Social Value) Act 2012 N/A
	IV/A
10.	What evidence / data / research have you gathered in relation to this proposal?
	For organisations who have not received concurrent year's funding, their ability to continue to deliver the service/activity without grant funding is assumed because this is either a pilot project or they have sourced alternative funding. There is a core of eight organisations who have received funding on consecutive years, albeit at a reduced rate year on year, and these (and the young people using them) are the groups which could be most impacted by the decision.
	The continuation of grant funding does not provide a sustainable solution to good quality youth provision across Torbay; such grants have been removed in many other local authorities for this reason. Young people do have access to a range of services as is evidenced through the Community Directory,

compiled monthly by the Youth Service and published in the Family Information Service and across schools and the voluntary sector.

Nationally, youth funding has reduced by 15% from 2015/16 to 2016/17 as the increase in demand in safeguarding and child protection rises and budgets fall. Those authorities who are maintaining strong youth services are doing it through innovative partnership arrangements and alternative operating models such as that proposed by Torbay with the emerging Youth Trust. The emerging Youth Trust is now developing links and partnerships with a view to building services for the future.

Torbay Council has also started a local lottery and organisations are encouraged to generate funding by selling tickets, by doing this they will receive 50% of the sale proceeds of the tickets they sell.

11. What are key findings from the consultation you have carried out?

The budget for this grant was reduced in 2016/17 and there were many representations made from the community and voluntary sector who have told us that they rely on the funding. At this time, we proposed that the Community Development Trust support these organisations in seeking grant funding and alternative sustainable funding streams and that those organisations receiving funding sought help from them as the sector umbrella organisation.

To be updated following consultation.

12. Amendments to Proposal / Mitigating Actions

We have not made amendments to the initial proposals, since those Community Voluntary Sector (CVS) organisations in receipt of grants were informed last year that there was unlikely to be a further round in 2017/18. There is no alternative than to focus limited resources on those areas of need or those particularly vulnerable young people such as Care Leavers.

There will be investment provided to the sector through the emerging Youth Trust, and the umbrella support of the Community Development Trust which should support organisations in developing alternative funding streams should they wish to continue delivering provision.

Organisations will also be advised about the Torbay Lottery and will be encouraged to generate income in this way if they are not already aware of this.

	Positive Impact	Negative Impact & Mitigating Actions	Neutral Impact
Older or younger people		Potential cessation of neighbourhood provision for youth aged 13-19. Directory of existing provision available and work through the emerging Youth Trust to develop services across the Bay in Partnership.	
People with caring Responsibilities	No differential impact		
People with a disability		There is an organisation receiving funding which is aimed at young people with disabilities. It is proposed that this organisation seek support from the CDT to source alternative funding, and that it may apply for other local grants or funding specifically for those with disabilities.	
Women or men	No differential impact		
People who are black or from a minority ethnic background (BME) (Please note Gypsies / Roma are within this community)	No differential impact		
Religion or belief (including lack of belief)	No differential impact		

	People who are lesbian, gay or bisexual	No differential impact		
	People who are transgendered	No differential impact		
	People who are in a marriage or civil partnership	No differential impact		
	Women who are pregnant / on maternity leave	No differential impact		
	Socio-economic impacts (Including impact on child poverty issues and deprivation)	Funded provision takes place in target areas of deprivation primarily. If services become unsustainable then young people in these deprived areas may no longer receive this provision.		
	Public Health impacts (How will your proposal impact on the general health of the population of Torbay)	Potential for young people to engage in risk taking behaviour where they are not engaged in supported youth provision.		
14	Cumulative Impacts – Council wide (proposed changes elsewhere which might worsen the impacts identified above)	The tapered funding to the Community Development Trust is due to end in this financial year and it is unclear whether they have generated the capacity and resource to provide the level of infrastructure support that they have promised. The support of the CDT will be important for CVS organisations seeking help with funding.		
15	Cumulative Impacts – Other public services (proposed changes elsewhere which might worsen the impacts identified above)	The reduction in community policing has already had an impact within our target neighbourhoods and reducing the youth provision within those areas may result in an increase in anti-social behaviour by young people who are not engaged and not subject to oversight and sanction.		

DRAFT - Supporting Information and Impact Assessment

Proposal:	Healthwatch
Executive Lead:	Cllr Julien Parrott, Lead for Adults and Children
Director / Assistant Director:	Caroline Taylor, Director Adult Services

Version:	1	Date:	October 2017	Author:	Fran Mason/Chris Lethbridge
----------	---	-------	--------------	---------	-----------------------------

Section 1: Background Information

1. What is the proposal/issue?

The proposal is to further reduce the level of funding provided by the council to Healthwatch Torbay as follows:

• £11,000 in 18/19 which includes £5,000 agreed in a previous variation to the contract.

Healthwatch additionally receives some ad-hoc income from other sources, some of which is derived from undertaking work on behalf of organisations such as the South Devon and Torbay Clinical Commissioning Group (CCG). However, this funding is not part of the main contract with the council and is not guaranteed.

2. What is the current situation?

Healthwatch England is a national consumer champion in health and care, with statutory powers to ensure the voice of the consumer is strengthened and heard by those who commission, deliver and regulate health and care services. Through part of a national network, each local Healthwatch (as in Torbay) is an independent organisation dealing with local concerns about health and care services. Healthwatch Torbay supports local people in influencing and challenging how health and social care services are provided within their area. They also provide or signpost people to information to help them make choices about health and care services.

The Health and Social Care Act 2012 stated that local authorities would have a local Healthwatch organisation in their area from April 2013, but have the flexibility to choose how they commission it to achieve best value for money for their communities. Torbay Council chose to set up Healthwatch Torbay as an independent (free-standing as opposed to hosted) organisation, able to employ its own staff and involve volunteers.

The original contract started on the 1 April 2013, with an initial length of one year. However, the contract did include an option to extend and therefore the current contract runs up until 31 March 2019. The Health and Social Care Act 2012 states that local authorities fund their local Healthwatch. The council receives a Local Reform and Community Voices Grant and Healthwatch Torbay is part-funded from this money, with the council making an additional contribution. The current budget for 2017/18 is £125,000. Healthwatch additionally receives some income from other sources, some of which is derived from undertaking work on behalf of organisations such as the South Devon and Torbay Clinical Commissioning Group (CCG). However, this funding is not part of the main contract with the council and is not guaranteed.

Torbay Council are proposing to further reduce the level of funding provided by the authority, whilst still providing financial assistance to Healthwatch Torbay to support them in delivering services to the community.

Savings of £10,000 were made in 2017/18 and a further £11,000 (including £5,000 agreed in a previous variation to the contract) is proposed.

No significant implementation costs are associated with this proposal, though potential costs to the wider community are reflected in section 2. of this Impact Assessment.

3. What options have been considered?

The provision of a local Healthwatch is a statutory requirement for the council and therefore termination of this service is not an option. The function plays an important role in providing a voice to the local public and helping to hold to account commissioners and providers of health and care services in Torbay.

As noted above the council has some discretion in terms of how it commissions this service. In parallel to this proposal, future options are being developed with regards to how we commission and procure information, advice and advocacy services and encourage providers to build on their partnerships with each other, to achieve a more integrated offer to the public.

4. How does this proposal support the ambitions, principles and delivery of the Corporate Plan 2015-19?

Ambitions: Prosperous and Healthy Torbay

Principles:

- Use reducing resources to best effect
- Integrated and joined up approach

Targeted actions:

Protecting and supporting vulnerable adults

5. Who will be affected by this proposal and who do you need to consult with?

The proposal directly affects Healthwatch Torbay, together with potential users of their services.

Consultation will take place with the following:

- Healthwatch Torbay;
- Service Users (via Healthwatch);
- South Devon and Torbay Clinical Commissioning Group (CCG); and
- The general population.

6. How will you propose to consult?

Consultation on this proposal will take place as part of the general consultation on the budget proposals and via the service provider. The stakeholders identified above will also be contacted in relation to this proposal and asked to feedback as part of the consultation exercise.

Section 2: Expected Implications and Impact Assessment

(These sections will be updated and expanded following the consultation period.)

7. What are the <u>expected</u> financial and legal implications?

The proposal would achieve a financial saving of £11,000 (including £5,000 agreed in a previous variation to the contract).

There are limited direct cost implications to the council. However, there may be potential indirect financial and legal costs to the wider health and care system if the provider has to reduce their service e.g. an increase in the level of complaints or enquiries being dealt with by the council and other providers or missed opportunities to learn from service failure in the health and care system, to improve how we support the public.

8. What are the expected risks?

As we are not proposing to discontinue funding to this statutory service the expected risks are partially minimised. However, the impact on the provider is likely to be that they may have to reduce their service further. As Healthwatch currently do not have any other guaranteed funding sources the short to medium-term financial viability of the organisation might not be sustainable within the lifetime of the existing contract.

Potentially a reduced level of service might therefore risk:

- health and care service user's views not being heard;
- fewer opportunities to have a positive impact on the behaviour and knowledge of health and care professionals;
- the quality of service provision might not improve, due to lost opportunities to learn from service user's experiences (good and bad) of the health and care system;
- Healthwatch Torbay possibly not being able to perform (in part or whole) some of their statutory functions, to the point that the existing financial model might not be able to support delivery of the existing contract up until March 2019;
- this decision could create a level of political and media scrutiny, including the potential for interest from Public Health England; and
- if the proposal is not accepted, savings will need to be found elsewhere.

Section 2	Section 2: Implications and Impact Assessment		
9.	Public Services Value (Social Value) Act 2012 Not Applicable		
10.	What evidence / data / research have you gathered in relation to this proposal?		
	Healthwatch Torbay's Annual Report 2015/16 highlights the activity the organisation undertook in that year and similar work has continued during this financial year. This included:		
	 gathering people's experiences and views through the 'rate & review' system; 		
	 taking part in engagement activities; conducting consultations; providing advice and information; escalating concerns and complaints; 		
	 visiting service providers e.g. care homes as part of the 'enter & view' role; undertaking bespoke projects to identify specific issues; and producing reports on various topics (based on the activity highlighted above). 		
	As part of the budget consultation council colleagues will meet with the Chairman and Chief Executive of Healthwatch Torbay and the proposal will also be included in the questionnaire available to the general public.		
11.	What are key findings from the consultation you have carried out?		
	To be completed following consultation.		
12.	Amendments to Proposal / Mitigating Actions		
	To be completed following consultation.		

Equality Impacts

	Positive Impact	Negative Impact & Mitigating Actions	Neutral Impact
Older or younger people		No differential impact.	
People with caring		Healthwatch Torbay are partly co-	
Responsibilities		located with Torbay Carers'	
•		Service and share some	
		resources. There is the potential	
		that a reduction in Healthwatch	
		funding might impact on the	
		effectiveness of this relationship,	
		which in turn might impact on the	
		ability of the Carers' Service to	
		support people with caring	
		responsibilities.	
		However as we are not proposing	
		to discontinue funding to this	
		statutory service and the expected	
		risks are partially minimised (but	
		see above).	
People with a disability		Healthwatch is the local consumer	
		champion of users of health and	
		care services. There is the	
		potential that as some users of the	
		existing service may have long-	
		term conditions or disabilities, any	
		reduction in funding might impact	
		upon this client group.	

Jage 1

	However as we are not proposing to discontinue funding to this statutory service and the expected risks are partially minimised (but see above).
Women or men	No differential impact.
People who are black or from a minority ethnic background (BME) (Please note Gypsies / Roma are within this community)	No differential impact.
Religion or belief (including lack of belief)	No differential impact.
People who are lesbian, gay or bisexual	No differential impact.

		the general health of the population of Torbay)	in funding has the potential to reduce their effectiveness in this role. However as we are not proposing to discontinue funding to this statutory service and the expected risks are partially minimised (but see above).	
	14	Cumulative Impacts – Council wide (proposed changes elsewhere which might worsen the impacts identified above)	The proposed funding reductions to CAB might have cumulative impacts on Healthwatch and vice versa, in terms of their ability to work together.	
Page 15	15	Cumulative Impacts – Other public services (proposed changes elsewhere which might worsen the impacts identified above)	There is the potential that this proposal could impact upon health and social care commissioners (council and CCG and providers (public, voluntary and private). For example, Healthwatch Torbay might not be able to undertake as many public consultations and might not be able to perform some of their statutory functions. Proposed funding reductions across the health and care system may generate increased demand on Healthwatch Torbay, at a time when we are also proposing to reduce their funding.	

Draft - Supporting Information and Impact Assessment

Proposal:	Citizens' Advice Bureau (CAB)
Executive Lead:	Cllr Julien Parrott, Lead for Adults and Children
Director / Assistant Director:	Caroline Taylor, Director Adult Services

Version: 1 Date: October 2017 Author: Fran Mason/Chris Lethbridge

Section 1: Background Information			
1.	What is the proposal/issue?		
	The proposal is to further reduce the funding given to the Torbay Citizens Advice Bureau (CAB).		
	The proposal is to reduce the funding by £6k.		
2.	What is the current situation?		
	Torbay CAB provides free, impartial, confidential and independent advice, information and assistance to the public. The issues covered range from life events through all aspects of benefits, debt, disabilities, employment law and relationships.		
	As a charity Torbay CAB receives no direct funding from government and is dependent on grants and donations from a variety of sources. Torbay Council provides a grant that equates to approximately 30% of Torbay CAB's funding. This is not a statutory service.		
	The current Service Level Agreement (SLA) between Torbay Council and Torbay CAB is renewable on a yearly rolling basis unless parties choose to terminate by agreement.		
	The proposal is to reduce the level of funding provided by the authority, whilst still providing financial assistance to the CAB to support them in delivering services to the community. Torbay CAB actively seeks to secure resources from other areas, whilst at the same time exploring opportunities to deliver their services more effectively and efficiently. However, this additional funding is not guaranteed and any potential reductions in alternative financial support would have a cumulative impact, when combined with the council's savings proposals.		
	No significant implementation costs are associated with this proposal, though potential costs to the wider community are reflected in section 2. of this Impact Assessment.		

3. What options have been considered?

As there is no statutory requirement for the council to support the local CAB, one option could be to cease funding completely (this has occurred in at least one other local authority and maybe in others).

However, given the nature of Torbay's economy and the underlying deprivation present in some of our communities, it is not felt appropriate at present to cease funding completely. The proposal offers a balance between achieving savings for the council (which will be partly balanced by the CAB itself exploring options to work more efficiently) and still providing an independent advice and information service to the people of Torbay. However, potential reductions in the funding that the CAB receives from other sources would have a cumulative impact, when combined with the council's savings proposals.

In parallel to this, future options will be developed with regards to how we commission and procure information, advice and advocacy services and encourage providers to build on their partnerships with each other, to achieve a more integrated offer to the public.

4. How does this proposal support the ambitions, principles and delivery of the Corporate Plan 2015-19?

Ambitions: Prosperous and Healthy Torbay

Principles:

- Use reducing resources to best effect
- Integrated and joined up approach

Targeted actions:

Protecting and supporting vulnerable adults

5. Who will be affected by this proposal and who do you need to consult with?

The proposal directly affects Torbay CAB, together with potential users of their services.

Consultation will take place with the following:

- Torbay CAB; and
- general public.

6. How will you propose to consult?

Consultation on this proposal will commence following the announcement of the Mayor's draft budget proposals in October 2017. This will include direct consultation with Torbay CAB.

To ensure that all potential future users of this service are given the opportunity to have their say, information along with a survey will be made available online and in paper as part of the wider consultation on the Mayor's budget.

Section 2: Expected Implications and Impact Assessment

(These sections will be updated and expanded following the consultation period.)

7. What are the <u>expected</u> financial and legal implications?

The proposal would achieve a financial saving of £6k.

There are limited direct cost implications though the proposed reduction in funding to the CAB might lead to an increase in presentations to Torbay Council information and advice services (see below).

There are no legal implications as we are not proposing to terminate the contract at this stage, which is renewable on a yearly rolling basis. The funding is not statutory.

8. What are the expected risks?

As we are not proposing to discontinue funding to Torbay CAB the expected risks are partially minimised. The CAB does access monies from other funding streams but this is not guaranteed and there might be a cumulative impact, if other funders also reduce/cease their financial support to the organisation, on top of the reductions proposed by the council. The impact on the service provider might require them to reduce their service and case-load. A reduced level of information and advice might therefore risk:

- the CAB may not be able to deliver as many advice sessions to their client base, which may have a negative impact on individuals (including reduced incomes);
- there may be an increase in demand across other functions e.g. the council's Connections service (face-to-face and telephone enquiries), GPs, etc:
- any reduction in the level of advice provided could lead to higher costs in the wider system e.g. loss of preventative interventions; and
- if the proposal is not accepted, savings will need to be found elsewhere.

Section 2: Implications and Impact Assessment		
9.	Public Services Value (Social Value) Act 2012	
	Not applicable.	
10.	What evidence / data / research have you gathered in relation to this proposal?	
	There are high levels of deprivation with Torbay falling within the top 14% of most deprived districts in England and Wales in the rank of average scores (Source: Deprivation Indices 2015).	
	Torbay's total individual insolvency rate was ranked first out of 348 districts, boroughs and unitary authorities in 2015 (Source: The Insolvency Service).	
	As part of the budget consultation council officers will meet with the manager of Torbay CAB and the proposal will also be included in the questionnaire available to the general public.	
11.	What are key findings from the consultation you have carried out?	
	To be completed following consultation.	
12.	Amendments to Proposal / Mitigating Actions	
	To be completed following consultation.	

Page 20

Identify the potential positive and negative impacts on specific groups			
	Positive Impact	Negative Impact & Mitigating Actions	Neutral Impact
Older or younger peopl		According to Advice Trends: Quarterly client statistics of the Citizens Advice services in England and Wales (July – Sep 2016) CAB proportionally sees more clients in the 'working age' bracket (25 – 64 years of age). Any decrease in funding and potential subsequent reductions in service might therefore impact more on this population group in Torbay.	
People with caring Responsibilities		No differential impact.	
People with a disability		According to Advice Trends: Quarterly client statistics of the Citizens Advice services in England and Wales (July – Sep 2016) CAB proportionally sees more clients with a disability. Any decrease in funding and potential subsequent reductions in service might therefore impact more on this population group in Torbay.	
Women or men		According to Advice Trends: Quarterly client statistics of the Citizens Advice services in	

	England and Wales (July – Sep 2016) CAB proportionally sees slightly more female clients than men. Any decrease in funding and potential subsequent reductions in service might therefore impact more on this population group in

Draft -Supporting Information and Impact Assessment

Proposal:	Torbay Community Development Trust (TCDT)
Executive Lead:	Councillor Derek Mills
Director / Assistant Director:	Caroline Dimond

Version: 1	Date:	October 2017	Author:	Sue Mills
	_ ~		,	040 111110

1. What is the proposal / issue? It is proposed that there will be a reduction in funding allocated to the TCDT by

Torbay Council of £60,000, reducing the Council funding down to nil. It is therefore proposed that the TCDT will become self sufficient by 31 March 2018.

2. What is the current situation?

TCDT was formed to empower communities by building on strengths and skills through asset-based community development. The overall aim of TCDT is to create better communication across Torbay, actively encouraging local involvement and decision making in improving the region, as well as developing and supporting volunteering opportunities of the highest standards. Torbay Council's commitment to this was to award a grant of £300,000 for three years (2014/15 - 2016/17) and to TUPE transfer two members of Torbay Council staff to the new Trust.

Torbay Council's financial commitment in relation to the TUPE transferred staff was agreed on a diminishing financial basis, with the expectation that the TCDT will become self sufficient by 31 March 2018. It was therefore stipulated by Torbay Council that the final funding allocation would be £60,000 for the financial period 2017-2018.

The TCDT supports Torbay Council in its overall approach to working with the community and voluntary sector by forging new partnerships; whilst finding creative and innovative ways for delivering services that will sustain a thriving voluntary and community sector in Torbay. The development of the community and voluntary sector in Torbay is key to the future strategic plans of Torbay Council, South Devon and Torbay Clinical Commissioning Group (CCG) and Torbay & South Devon NHS Foundation Trust.

TCDT is currently commissioned to deliver the following core objectives:

- To promote community regeneration and collaboration by enabling communities / voluntary sectors to thrive, using strength based approaches.
- To ensure that the necessary support for the development and delivery of TSDFT's care model can be provided by the community and voluntary sector.

	 To encourage and promote volunteering, enabling community action and positive social change. To provide support to the community associations running the authority owned community centres.
3.	What options have been considered?
	No other options are available as this funding stream exclusively relates to Torbay Council's contribution to those staff who have been TUPE transferred to TCDT.
4.	How does this proposal support the ambitions, principles and delivery of the Corporate Plan 2015-19?
	These proposals support the following principles of the Corporate Plan:
	 Integrated and joined up approach Use reducing resources to best effect
5.	Who will be affected by this proposal and who do you need to consult with?
	 There is the potential for the following to be affected by this proposal: TCDT staff The (VCSE) in Torbay who benefit from the support of TCDT The general population Torbay and South Devon NHS Foundation Trust (as a partner and service provider) South Devon and Torbay Clinical Commissioning Group (CCG)
6.	How will you propose to consult?
	Consultation took place as part of the general consultation on the budget proposals 2017/18 and the results are set out in section 11. Further consultation will take place with the TCDT to assess whether circumstances have changed since the previous consultation. This proposal will form of the general budget consultation.
Section 2	2: Expected Implications and Impact Assessment
7.	What are the expected financial and legal implications?
	It was an expectation that this funding would cease in 2018, therefore not delivering this proposal would create a budget pressure if the Council was required to provide funding beyong the agreed timescales.
8.	What are the expected risks?
	The expectation is that the TCDT would become self sufficient by 31 March 2018, however the cessation of funding may impact on the TCDT's capacity to:

- Develop collaboration and partnerships within the community
- Improve the scope, quantity, quality and diversity of volunteering in Torbay
- Build community capacity and resilience at a neighbourhood level
- Develop the required community assets that will provide alternative support opportunities for people who have traditionally sought support from statutory services.
- Continue to build on existing community asset development which is a
 cornerstone of Torbay and South Devon NHS Foundation Trust's new
 model of care and core to future strategic health and social care plans for
 Torbay (the Torbay and South Devon Prevention Strategy and the Devonwide Sustainability and Transformation Partnerships
 http://www.devonstp.org.uk/

9. Public Services Value (Social Value) Act 2012

The (re)procurement of services is not relevant for this report.

10. What evidence / data / research have you gathered in relation to this proposal?

There is a significant volume of guidance, research and recommendations regarding community development and VCSE organisations:-

Federation for Community Development Learning Community Development National Occupational Standards

National Institute for Health and Care Excellence (NICE) <u>Community</u> engagement:improving health and wellbeing and reducing health inequalities

National Voices: People shaping Health and Social Care What is the role of VCSEorganisation in care and support planning

11. What are key findings from the consultation you have carried out?

The 2018/19 proposal was included as part of the general consultation on the budget proposals for 2017/18.

Feedback from the general budget consultation and the public health budget questionnaire demonstrated support for the proposals, combined results are shown below:

Q11) Community Development Trust:

Do you support this proposal?	Number	Percent
Yes	359	73.4%
No	105	21.5%
No answer	25	5.1%
Total	489	100.0%

The public health budget questionnaire also identified that:

- 54 (75%) people/organisations responding would not be affected by the proposal
- 40 (23.6%) people/organisations responding would be affected by the proposal
- 1 (1.4%) person did not respond to whether they would be affected by the proposal

The concerns raised included:

- Cost pressures in the future including for the NHS
- The use of volunteers in both community and recovery programmes could be affected including capacity building
- The most vulnerable could be affected
- Viability of CDT if not funded

An alternative suggestion was made that reductions could be phased over three years rather than two.

12. Amendments to Proposal / Mitigating Actions

No amendments proposed as this reduction is expected as part of the funding arrangements for 2018/19 and has been consulted on previously.

	ecific groups			
		Positive Impact	Negative Impact & Mitigating Actions	Neutral Impact
	Older or younger people		Over the next 50 years Torbay will experience an unprecedented change in the composition of its population. As life expectancy increases and the birth rate remains low, the proportion of the population aged over 50 will increase	
			dramatically. 43.1% of Torbay's population are aged over 50 compared with 33.5% nationally. By 2018 for when this impact assessment is based upon, this	
			sector of Torbay's population will represent 51.2% compared with 40.1% nationally. The removal of funding for this service may see negative impacts on particular service models that cater for older people with health and care needs and also those living with an illness or a disability.	
			TCDT are facilitating a partnership process to bring organisations together who work with children, families and young	

		people, linking closely with the emerging Youth Trust to secure resources to deliver a range of activities that support early help, youth work and wider prevention and innovation. A reduction in funding may see impacts on the TCDT's capacity to continue partnership working at a continued level.	
People with caring Responsibilities		The carer's pathway currently in development provides access to support for carers to prevent breakdown of carer arrangements, this may be affected as a result of the service cuts.	
People with a disability	The principles of the TCDT includes equality of opportunity, being committed to creating an equal and inclusive society, identifying anomalies in volunteering landscape across Torbay and taking steps to address these. The TDCT are working with groups and agencies to mitigate the impacts of spending cuts, with a particular focus on supporting vulnerable people.	The current development of services aimed at keeping people well and preventing or delaying the onset of disability and illness may be affected and have impacts upon the older population's ability to live independently at home for as long as possible. There is currently a professional independent advice and support service for parents and young people with disabilities which	

		may see a negative impact if funding is no longer available to support this service.		
Women or men	No differential impact			
People who are black or from a minority ethnic background (BME) (Please note Gypsies / Roma are within this community)	No differential impact

	15	Cumulative Impacts – Other public services (proposed changes elsewhere which might worsen the impacts identified above)	The new models of care in the health system locally, plus the Sustainability and Transformation Plan http://www.devonstp.org.uk/ putting prevention first, is expecting more from local public health services when capacity in the system is decreasing.		

Draft - Supporting Information and Impact Assessment

	Proposal:	Adult Substance Misuse Services
•		Councillor Derek Mills
	Director / Assistant Director:	Caroline Dimond

Version:	1	Date:	October 2017	Author: Ian Tyson	
	-			· · · · · · · · · · · · · · · · · · ·	

Section 1: Background Information

1. What is the proposal / issue?

The proposal is to reduce the budget for the substance misuse services by £62,000 in 2018/19 and a further £100,000 in 2019/20, this would be further to the budget reduction of £100,000 in 2016/17 and £156,000 in 2017/18.

It is also anticipated that the Police and Crime Commissioner will cease its contribution of income to criminal justice treatment pathways from 2018/19. This income is currently c£60,000 and will be in addition to the reduction on 2018/19 proposed above.

The 2017/18 budget for all substance misuse services (inclusive of NHS, private and pharmacy-based provisions) is c£2.53m which means the above proposals result in a 2.4% reduction in expenditure in 2018/19 (budget total of £2.47m) and 4% in 2019/20 (budget total of £2.37m).

For 2018/19 the savings will comprise of:

- 1. The budget for pharmacy-based services in 2018/19 has been increased by £15,000 due to increases in demand for the services; Needle Exchange and Supervised Consumption of controlled medications.
- 2. The NHS provider (Torbay and South Devon NHS Foundation Trust) is expected to find savings of £77,000.

The overall outcome of these two components is a total budget saving of £62,000.

For 2019/20 the savings are expected to be found by the NHS provider.

To assist with the delivery of these savings the Public Health team are undergoing a systematic review of current drug and alcohol services in Torbay in September 2017, alongside an external partner in Public Health England, with the aim to:

- Scrutinise the services plans for finding budget savings
- Critically appraise the service (both now and with regards to the future model) in terms of meetings its statutory obligations and being compliant with recently released new guidance and Government Drug Strategy,
- Identify current system costs and benchmark these against national comparators to identify areas where spend and/or expected outcomes are mismatched
- Consider how the service meets the wider objectives with regards to

families and vulnerable adults

However it is anticipated that the savings in 2018/19 could be found through the following:

- Further streamlining of the management structure
- Deleting of enhanced pathways, such as for criminal justice referrals into treatment, where service users receive an enhanced level of service and the criminal justice system receives regular attendance at management meetings and specialist reports for sight of the Court.
- Reduced 'patient-facing' time, which has the potential to impact on practitioner roles.
- Considering the ability to deliver a further reduction in medical sessions for the prescribing of opiate substitute therapy
- Consider whether certain populations can be offered safe and effective services which do not require regular or frequent contact with the treatment service.

2. What is the current situation?

Drug use occurs in Torbay, as it does everywhere. Public Health England states the impact of drug use nationally is:

- £26,000 of crime is committed by each heroin or crack user not in treatment
- The annual cost of looking after children of a drug using parent is £42.5m
- 29% of all serious case reviews have drug use as a risk factor
- Every £1 spent on drug treatment saves £2.50 to society.

Alcohol use also places significant burden on local public services. Public Health England state the impact of alcohol use nationally as:

- 27% of all serious case reviews mention alcohol misuse
- Deaths from liver disease have increased 15% between 2011 and 2013
- £7 billion pounds is lost due to reduced productivity.

The NHS substance misuse service in Torbay is currently commissioned from Torbay and South Devon NHS Foundation Trust. Substance misuse services are not specifically mandated however there is a specific condition of the public health grant that states that the local authority must:

'...have regard to the need to improve the take up of, and outcomes from, its drug and alcohol misuse treatment services.'

Source: Public health ring-fenced grant determination 2016/17: no 31/2719, page 6.

The current NHS substance misuse service provides:

 Community alcohol service – an open access service where people can be referred/self-refer for treatment for their alcohol consumption. Treatment includes group work, one to one work and prescribing where clinically

- appropriate, and signposting into recovery and peer support groups. In addition there is support for carers and families.
- Hospital Alcohol Liaison service a specialist hospital team designed to screen and refer patients into community treatment for their alcohol use, and increase identification of people in Torbay Hospital whose drinking is above recommended levels and detrimental to their long-term health
- Drug service an open access service where people can come into the
 community team for treatment for their drug use, including use of
 prescription drugs, illegal drugs and novel psychoactive substances (aka
 'legal highs'). Treatment includes group work (including high intensity), one
 to one work and prescribing where clinically appropriate and signposting
 into recovery and peer support groups. In addition there is support for
 carers and families.
- Specialist detoxification from alcohol or drug use.
- Testing for blood borne viruses e.g. HIV and vaccination against Hepatitis B.

The current pharmacy-based substance misuse services provide:

- Needle Exchange this service directly reduced harm to injecting drug
 users by providing of sterile identifiable injecting equipment and sharps
 bins. The service aims to reduce the incidence and transmission of blood
 borne viruses such as hepatitis in the population.
- Supervised Consumption of controlled medications this service is key in supporting drug users to comply with their prescribing regime, ensuring medication is taken as required and reducing the misdirection of medications into the community.

The current commissioning and contract arrangements with the NHS provider have opened up the possibility of safely reconfiguring the delivery of the service. The re-commissioning of the three previous contracted providers into one contract means that there is current potential to streamline medical provision, management, staffing and service delivery; the 2018/19 reductions will almost certainly have an impact on patient facing time and therefore will impact on staff involved with direct care.

The impacts of this proposal could be greater for families due to proposed significant reductions in other areas of public health work such as public health nursing which are proposed to take effect over the following couple of years.

3. What options have been considered?

The deletion of entire elements of this contract has been considered. However, for substance misuse services to be effective, each needs to work as an integral part of the wider 'system'.

The re-contracting arrangements in 2015/16 have paved the way for commissioners to further reduce the financial value of this service by bringing three Substance Misuse Services for adults under one Local Authority contract.

This service will form part of the emerging vulnerable and complex adult service;

scoping currently being undertaken within the local authority and involving key strategic partners (Health, Police and Probation for example).

Recommissioning of services through an open tender have been considered and remains a viable option. However with three significant re-procurements either imminent or currently in-train (sexual health services, public health nursing with children's centres and needle and syringe provider) officer capacity to undertake a further procurement exercise (in respect to both public health and procurement teams) is significantly impacted and likely to be unachievable in 2018/19.

4. How does this proposal support the ambitions, principles and delivery of the Corporate Plan 2015-19?

This proposal supports the following principles of the Corporate Plan:

- Use reducing resources to best effect
- Reduce demand through prevention and innovation

5. Who will be affected by this proposal and who do you need to consult with?

There is the potential for the following to be potentially affected by this proposal:

- Service users
- Staff in the service
- Other commissioners, for example Office of Police and Crime Commissioner (OPCC) and South Devon and Torbay Clinical Commissioning Group (SDTCCG)
- Primary care colleagues in GP Practices
- Torbay and South Devon NHS Foundation Trust
- The general public.
- Pharmacies?

6. How will you propose to consult?

Substance misuse services were consulted on as part of the budget processes for 2017/18. The public will be consulted as part of the corporate budget consultation process for 2018/19 in relation to the proposed savings for 2019/20.

In addition to this, we will consult with the current services and Public Health England though the aforementioned systematic review of substance misuse services in Torbay.

Section 2: Expected Implications and Impact Assessment

7. What are the expected financial and legal implications?

- Will create financial savings for contract years 2018/19 and 2019/20
- May create redundancy liabilities, if affected post holders cannot be redeployed into wider Torbay and South Devon NHS Foundation Trust services

8. What are the expected risks?

As the services reduce the intensity of support and/or the enhanced provisions for specific client groups (e.g. criminal justice clients) there will be a potential impact on other services which these service users often use. These include Primary Care GP Practices, Accident and Emergency Department, Police, emergency accommodation provision, and the community and voluntary sector. There may be increased use of these services, should people wishing to access Substance Misuse Services not be able to get an appointment. However, at present, there are no waiting lists to access Substance Misuse Services.

The following potential risks have been identified at this stage:

- Service models will describe a less-intense provision of support for example, one-to-one support being replaced by group support, or less frequent appointments/reduced specialist clinics and sub-services.
- Services are likely to report reduced numbers of people successfully completing treatment – meaning people get 'stuck' in the system, with sustained periods of dependence on services provided in Torbay, such as housing, Safeguarding (Children's and Adult's), Children's Services, opiate substitute therapy prescribing etc.
- Reduced successful recovery rates for those in treatment, which could lead to poorer outcomes for individuals in terms of employability, independence and economic activity. Increased periods of prescribing of opiate substitute therapy (such as methadone *etc*) for people, as they take longer to journey through recovery, to the point of successful drug-free discharge.
- Increased risk of prolonged criminality for people using drugs, relating to both acquisitive crime and vulnerability offences like domestic abuse.
- Decreased responsiveness between Substance Misuse Services and other services, like criminal justice agencies, Job Centre Plus etc.
- Potentially a reduced ability of the service to maintain existing levels of service user monitoring of treatment compliance and capacity to address concerns. This in turn could lead to an increased risk of a serious event occurring e.g. children or vulnerable adult safeguarding or death in treatment.
- Existing health inequalities across Torbay could widen and could lead to early mortality in this vulnerable and complex service user group.

While the risks are balanced by the fact that the numbers of people using this specialist service represent a small proportion of people in Torbay, the potential risks and impacts described above could create greater demand and cost pressures for partner agencies.

9. Public Services Value (Social Value) Act 2012

The (re)procurement of services is not relevant for this report.

10. What evidence / data / research have you gathered in relation to this proposal?

	The Torbay LA Public Health Team used a prioritisation matrix as an assurance that services were commissioned based on evidence, impact and effective efficiency.
	There are a range of guidance, recommendations and supporting documentation that underpins drug and alcohol commissioning and provision. These are summarised on the following websites:
	Public Health England: http://www.nta.nhs.uk/who-healthcare.aspx
	National Institute of Health and Clinical Excellence (drugs): https://www.nice.org.uk/guidance/lifestyle-and-wellbeing/drug-misuse
	National Institute of Health and Clinical Excellence (alcohol): https://www.nice.org.uk/guidance/lifestyle-and-wellbeing/alcohol
11.	What are key findings from the consultation you have carried out? To be update following consultation.
12.	Amendments to Proposal / Mitigating Actions
	To be update following consultation.

13	Identify the potential posi	tive and negative impacts on specif	ic groups	
		Positive Impact	Negative Impact & Mitigating Actions	Neutral Impact
	Older or younger people	Those engaged with the service who have contact with children and young people and present a risk to these will be more actively engaged with to ensure young people are safeguarded.	Services will not specifically target older people and these could be affected, but the level of impact is not expected to be disproportionate compared to all other ages. Of the drug using population who are engaged with treatment services, young adults are underrepresented only 7% aged under-25. With the services being demand-led and not specifically targeting age groups, young adults could be affected. Older adults form the majority of people in drug treatment with 72% of the treatment population being 35 or over. It is possible that the reducing service capacity will impact this group predominantly as a consequence of being the most prevalent age group. Pathways currently in place for the transition of young people into adult services could be impacted due to the capacity of the workforce but this should be mitigated by the assertive engagement of young people transitioning to adult services	The service is not applicable for under 18s and therefore these are not directly affected by this proposal.

		remaining in place.	
		It is possible that there is some unmet treatment need in people aged 60 and over. 55.8% of alcohol attributable admissions to hospital were in people of that age group (2012 South West Public Health Observatory Report, Alcohol Attributable Admissions in Torbay) whereas only 14% of those in alcohol treatment were aged 60 and over.	
People with caring Responsibilities	A service for carers of substance misusers to support them whilst their care/for/loved one is in treatment will remain. Carers will continue to be involved in the design and development of the local services.	With an increasing number of older people with a history of long-term Opiate use, carers may be affected due to a shrinking workforce; the capacity to identify and refer those with caring responsibility to the carers service may be impacted. It will remain a specific strand of the contract which will be monitored for its effectiveness.	
People with a disability	The service will continue to make themselves accessible to customers with disabilities including wheelchairs etc. and other impairments such as sign language. The service provision is in part delivered by a mental health service provider due to the high rates of mental health problems in among the substance misuse population.		It is not anticipated that those with a disability will be adversely impacted.
Women or men	The services will continue to	Men are predominant in treatment	

	provide access to treatment services on a basis of need not gender.	services locally, as they are throughout the country; however the proportion of women in treatment in Torbay (c36%) is slightly higher than the national average (c30%). Nationally there has been a slight increase in the proportion of females accessing the service. Services will continue to make themselves open and accessible to women although there might be less opportunities for seeing their keyworker and/or prescriber at convenient times as service capacity shrinks.	
People who are black or from a minority ethnic background (BME) (Please note Gypsies / Roma are within this community)	Substance misuse services will continue to work with people who are black or from a minority ethnic background (BME). There are currently no known access issues to treatment in Torbay.	The treatment population reflects the ethnic mix of Torbay's wider population. However, language and cultural barriers and lack of knowledge of an unknown system can inhibit people who are black and from a minority ethnic background (BME) from accessing health services. The opportunity for substance misuse services to actively seek and target this population will be limited due to reduction of resources. In mitigation substance misuse services should continue to actively promote their services in all forms that people from a different culture or with a different language can interact with.	

Religion or belief (including lack of belief)	There is no information currently available to suggest that there are any impacts in relation to religion or belief.	Services will continue to make themselves open and accessible although there might be less opportunities for seeing their keyworker and/or prescriber at convenient times as service capacity shrinks.	This should not affect the service delivered as religion and belief are not criteria used to determine who receives this service.
People who are lesbian, gay or bisexual		Services will continue to make themselves open and accessible although there might be less opportunities for seeing their keyworker and/or prescriber at convenient times as service capacity shrinks.	This should not affect the service delivered as sexual orientation is not a criteria used to determine who receives this service.
People who are transgendered		Services will continue to make themselves open and accessible although there might be less opportunities for seeing their keyworker and/or prescriber at convenient times as service capacity shrinks.	This should not affect the service delivered as sexual orientation is not a criteria used to determine who receives this service.
People who are in a marriage or civil partnership	The service will continue to support positive relationships.	Services will continue to make themselves open and accessible although there might be less opportunities for seeing their keyworker and/or prescriber at convenient times as service capacity shrinks.	This should not affect the service delivered as relationships and marriage are not used to determine who receives this service.
Women who are pregnant / on maternity leave	Women who are pregnant or have small children will continue to be a priority group to access treatment. The service provision for pregnant women is a priority as pregnancy is often a catalyst for change and will continue to be a priority group due to the harm substance misuse during pregnancy can have on an	Services will continue to make themselves open and accessible, with established pathways between treatment and maternity services remaining in place. There might be less opportunities for seeing their keyworker and/or prescriber at convenient times as	

		unborn child.	service capacity shrinks.	
	Socio-economic impacts (Including impact on child poverty issues and deprivation)	There will continue to be a commissioned service focussed on getting substance misusers into training and volunteering opportunities through the community development/voluntary sector	Within the substance misuse treatment population unemployment is high. Access to paid employment for more than 10 days in the past 28 remains a challenge for the opiate using population locally.	The majority of service users will be from more deprived areas.
	Public Health impacts (How will your proposal impact on the general health of the population of Torbay)		Substance Misuse services have a client group that is made up of disproportionately disadvantaged people already. Cutting capacity within this service could challenge	
J			the treatment system's ability to improve life expectancy in this vulnerable group. This may be mitigated by contractually obliging Substance	
,			Misuse services to employ a proportionate universalism approach; providing a service to all who need it, but prioritising resources to those who need it most.	
14	Cumulative Impacts – Council wide (proposed changes elsewhere which might worsen the impacts identified above)	 borne viruses, which may im Any future reductions to Public child safeguarding in Substated Safeguarding generally. 	rual Health services may mean incread pact on Substance Misuse services. Dic Health Nursing may mean increas Ince Misuse services and referrals in	ed responsibility for awareness of to Children's and Adults

Draft - Supporting Information and Impact Assessment

Service / Policy:	Museums
Executive Lead:	Nicole Amil
Director / Assistant Director:	Fran Hughes

		0.47	A 41 - 11 1	
Version: 1	I)⊃ t ⊅.	October 2017	Author: Fran Hughes	
V G 3 0	Date.		Author. I rail rudiles	

Section 1	: Background Information
1.	What is the proposal / issue?
	To cease the grant currently paid to Torquay Museum and Brixham Museum.
2.	What is the current situation?
	There are 3 accredited museums within Torbay:
	Torquay MuseumBrixham MuseumTorre Abbey
	Torre Abbey is directly managed and funded by Torbay Council. Torquay and Brixham Museums receive a grant from the Council.
	The grants to Torquay and Brixham Museums have been reducing year on year and a one-off amount was placed into a reserve account which the museums could draw on specifically for works which would assist in remaining sustainable and where they needed match funding. To date both museums have drawn on all of this allocated funding (Torquay Museum £20,000 towards match funding Arts Council England Growing Museums grant and Brixham Museum £5,000 towards their marketing fund).
	All of this budget relates to discretionary areas of spend for the council.
3.	What options have been considered?
	The Museums have been aware that funding from the Council has been reducing year on year and when the Council made a one off reserve available to them, they were aware that this was specifically to assist them in becoming sustainable. The Council has also introduced its own local lottery within the last few months which has enabled all local good causes including the museums to sign up to use this as a method of fund raising. Both Torquay and Brixham Museum have signed up to the Torbay Lottery.
	There is an option to reduce the funding to both facilities, rather than cut the budget completely. However in this scenario the Council would have to both fund this saving from elsewhere in the council budget and also consider how

	sustainable any cut would be in future years, or whether this is just delaying the overall cessation of funding in the future.
4.	How does this proposal support the ambitions and principles of the Corporate Plan 2015-19?
	Ambitions: Prosperous and Healthy Torbay
	Principles: • Use reducing resources to best effect
5.	Who will be affected by this proposal and who do you need to consult with?
	This proposal has the potential to affect both Torquay and Brixham Museum as well as members of the public.
	Members of the public may be affected by this proposal as the reduction in grant could potentially result in a reduced service, or the closure of the museums.
	The Museums will be affected by this proposal as this is a cut to a funding stream which they rely upon.
6.	How will you propose to consult?
	Consultation will be undertaken as part of the Councils general budget consultation – an online and paper questionnaire will be produced giving people the opportunity to have their say on this proposal,
	The Museums will be contacted directly to advise them of the proposal and to provide them with the opportunity to be able to advise the Council of the impact this proposed reduction in grant will have upon them.
	Brixham Town Council will also be consulted on this proposal.

Section 2	Section 2: Implications and Impact Assessment		
7.	What are the financial and legal implications? Financial saving to the Council.		
8.	What are the risks? 1. Risk of not supporting the proposal. The Council will have to find savings from elsewhere in the Council budget, which may put other services at risk.		

	2. Risk of supporting the proposal. Torquay Museum and Brixham Museum could face a difficult financial future. Torquay Museum have already indicated that their current financial model is fragile, they have indicated there is pressure within their budget and a reduction in grant funding from the council could impact on their future sustainability. Should the museums close as a result of this, there is the risk that there is a negative impact on the ability of residents and visitors to the Bay to undertake a museum cultural experience.
9.	Public Services Value (Social Value) Act 2012 N/A
10.	What evidence / data / research have you gathered in relation to this proposal? Discussions have taken place with Torquay Museum who have expressed concerns about their future sustainability without any support from Torbay Council.
11.	What are key findings from the consultation you have carried out? To be completed following consultation.
12.	Amendments to Proposal / Mitigating Actions To be completed following consultation.

Identify the potential positive and negative impacts on specific groups				
	Positive Impact	Negative Impact & Mitigating Actions	Neutral Impact	
Older or younger people		No differential impact		
People with caring Responsibilities		No differential impact		
People with a disability		No differential impact		
Women or men		No differential impact

Draft - Supporting Information and Impact Assessment

Service / Policy:	Grants to Swim Torquay and Admiral Swimming Pool
Executive Lead:	Robert Excell
Director / Assistant Director:	Fran Hughes

Version:	1	Date:	October 2017	Author:	Fran Hughes
V CI SICII.	•	Date.	0000001 2017	/ tatiloi.	I Tall I Taglics

Section 1	Section 1: Background Information				
1.	What is the proposal / issue?				
	To cease to provide an annual grant to Swim Torquay and Admiral Community Swimming Pools.				
2.	What is the current situation?				
	Swim Torquay and Admiral Community Swimming Pools (based in Brixham) both offer swimming facilities to members of the public including schools. These are each currently able to draw down from a total amount of £46,900 for vital capital works to the pools. However, neither facility draws down the full amount on an annual basis.				
3.	What options have been considered?				
	All of this budget are discretionary areas of spend for the council.				
	There are two alternative options:				
	 Retain the level of grant as is; Reduce the level of grant funding to a lower amount for each pool; Cease the annual grant, but make a one off reserve account available for both facilities to access in event of unexpected items of expenditure. 				
4.	How does this proposal support the ambitions and principles of the Corporate Plan 2015-19?				
	Principle - Using limited resources to best effect.				
5.	Who will be affected by this proposal and who do you need to consult with?				
	This proposal will affect all residents of the Bay, but particularly users of existing facilities and established sports clubs Swim Torquay and Admiral Community Swimming Pools.				

6. How will you propose to consult?

Consultation will take place key stakeholders including Swim Torquay, Admiral Community Swimming Pools and Brixham Town Council.

Members of the public and Sports Clubs will be given the opportunity to have their say via the Councils budget consultation process – online and paper questionnaires will be made available.

Section	Section 2: Implications and Impact Assessment				
7.	What are the financial and legal implications?				
	In 20116/17 Admiral Community Swimming Pools drew down £14,000 and Swim Torquay drew down £18,184.				
	The proposed reduction is £47,000 per annum.				
8.	What are the risks?				
	Risk of not supporting the proposal. The Council will have to find savings from elsewhere in the Council budget, which may put other services at risk.				
	 Risk of supporting the proposal. Both venues have been encouraged to develop their own future sustainability strategies, however there is a risk of them not being able to afford any largescale capital works if the need arises. 				
9.	Public Services Value (Social Value) Act 2012				
	N/A				
10.	What evidence / data / research have you gathered in relation to this proposal?				
	None				
11.	What are key findings from the consultation you have carried out?				
	N/A				
12.	Amendments to Proposal / Mitigating Actions				
	None
