

21st August 2022.

Dear Sir or Madam,

We are writing to object to the application to extend opening hours on a Sunday evening submitted by Craft Union Pub Company Ltd regarding the Oldenburg Inn at 46-48 Winner Street Paignton TQ33BQ.

As the Oldenburg Inn is situated right in the middle of a densely populated residential area we feel that the application to extend the hours that the pub is open and able to serve alcohol to 00.30 on a Sunday evening going into the early hours of Monday morning is almost certain to cause excessive noise & potential anti-social behaviour. Also, some of our neighbours who live even closer to the Oldenburg than ourselves have children whom are primary school age, the potential noise late on a Sunday night going into early Monday morning could very likely disrupt their sleep for school on the Monday morning.

Furthermore only 2 nights ago on the evening of Friday 19th August 2022 we were kept awake by Karaoke at The Oldenburg Inn by excessive noise, the sound system was turned up full volume with windows and doors open which still went on past 11.20pm. This is not the first time has happened.

Whilst we do not mind whatsoever customers enjoying themselves with entertainment provided by the Oldenburg Inn ,due care and consideration 'MUST' be taken by the owners and Managers of the premises bearing in mind the pub's location in the middle of a highly populated residential area.

We are still not sure the reason why Craft Union feel they want to keep the Oldenburg Inn open until the early hours of Monday morning but we feel this extension could only lead to potential problems as noted above.

Yours Sincerely

RE: Application for licence extension for Oldenburg Public House, Winner Street  
Application Number 062189

To whom it may concern,

I wish to place my objection to the recent application to the licence extension for the Oldenburg Inn, 46/48 Winner Street, Paignton. They wish to increase the hours on Sunday to 00.30. This is a densely residentially populated area which plays loud music on Friday and Saturday nights till beyond 00.00 regularly and has been known to do this on a Sunday as well regardless of the current licenced hours.

Although I have no issue with local businesses earning a living and providing entertainment I do take issue with the anti-social behaviour this incurs. There have been several fights and general rowdy behaviour which is bad enough. However, my biggest concern is with the noise that is created on Friday to Sunday nights by the karaoke. They have made no provision for increased noise levels which this creates. Quite often the pub leaves both front doors open (porch and main door), especially in the summer, which is made worse by having the speakers right by the door. I understand that the building may be hot but it increases the noise considerably, however no effort has been made to reduce the noise levels.

I am reasonable enough to accept that they have a business to run and entertainment does help with this. But there needs to be consideration for the neighbours and residents of the area. I have four children living with me across the road at [REDACTED] ranging from six to twelve years of age so have school on Monday mornings. I, myself work Saturday and Mondays so have to be awake by 6.00 to get in on time. Having the extra noise as well as the extended hours isn't fair when there are local residents so close. I'd be interested to see what decibel levels are from 22.00 onwards. And when they have two doors there is no excuse to not have one shut but they are normally both wedged open. I fear that the hours extension will inevitably result in later noise disruption at more unsociable times being extended.

Because of this I strongly object to the Oldenburg extending their hours.

Yours Sincerely,

[REDACTED]
