

It is therefore, my considered view that the application as it stands has the potential to result in Public Nuisance.

I would therefore recommend that the following conditions be attached.

All regulated entertainment shall be played through a noise limiting device.
The level of the music through the limiter shall be agreed with the Responsible Authority for Public Nuisance in writing.
The limiter shall be kept in a locked tamper-proof box the keys to which shall be held by an independent party.
No changes shall be made to the public address system without prior consent of the Responsible Authority for Public Nuisance.

Mr Gareth Fudge
Senior Environmental Health Officer

JONATHAN LEES

WE ARE HAPPY FOR THESE RECOMMENDATIONS
TO BE ADDED TO THE LICENSE I
WILL ADD THESE TO OUR OPERATION
PROCEDURES.
