1.0 Introductions (JP & KB)

1.1 Quick introduction to the seafront masterplan project including project boundary and discussions had to date.

2.0 Open Discussions (MD, NS&KB,JP)

- 2.1 NS- Questions were raised regarding Vue cinema area and what were the restrictions and design constraints that had to be followed?!
- 2.2 NS- Design strategies for protecting the existing green and biodiversity.
- 2.3 KB-Clarified the thoughts on redevelopment for Vue cinema.
- 2.4 KB- Are the car parking facilities sound and feasible?
- 2.5 MD- Preston beach has better moving traffic and parking facilities in comparison with Paignton. Paignton has all year-round car parking. Contributed thoughts on Road closures, Time restrictions ideas, safety of circulation particularly for children between beach and the green area. Vital car parking facility is Victoria car park and there was an issue for camper vans parking on the sea front. Requirement for more Disabled car parking facilities. Crossing facility to be improved between Middle green and North green, with boundary meshes etc. car parking to be improved in the north green.
- 2.6 NS-lessening the traffic along promenade and safety of cyclist and cycle routes.
- 2.7 KB-Does Torbay Road require better connection and improvement on the existing pedestrian conditions?
- 2.8 MD-The pedestrian is in good condition but there is no indication of signage towards the beach and Torbay Road is a business improvement district and funnelling public down the road improves local sales for the existing establishments. More number of signage lookouts should be implemented along with the improvement of the junctions with the flower bed on the medians/islands protected as it faces the issue of public crossing over them due to poor crossing facilities.
- 2.9 KB-Questions raised on the conditions of geo play park and beach huts?
- 2.10 MD-Existing planting on geo pay park needs to be improved and the commercial ride equipment's on the park are ruining the green.
- 2.11 NS-Traditional Rides to be retained.
- 2.12 KB-Questions were raised on management of waste and bin facilities.
- 2.13 MD-Event bins are brought in, and garbage is recycled. Provision for barbeque activity and waste facility to be proposed.

- 2.14 KB- Suggested ideas for single use.
- 2.15 NS-Harbour to south green, seating and shelters need to be improved.
- 2.16 Overall improvement of the North, south and middle green spaces for the activities of fairs events and circus etc.
- 2.17 NS-More toilet facilities to be executed in south green along with the development of Showers and locker services.
- 2.18 MD-Paignton's history needs to be observed and there is general lack of knowledge of the same. Incorporating mediums, displays for showcasing and to better understand the historical timeline and the change over the years is vital. Linking tourism and history
- 2.19 KB-Ideas of historical board walk were welcomed.
- 2.20 Sump pumps on Torbay Road floods from ground below when there is incoming tide, due to claimed marsh lands.
- 2.21 JP-For next phase agenda: Schematic wall options

Minutes of Council Officer Meeting, Harbours

1.0 Introductions (JP & KB)

1.1 Quick introduction to the seafront masterplan project including project boundary and discussions had to date.

2.0 Discussion (SP)

- 2.1 Summer Kiosks sit the wrong side of the flood defences. Very popular when the leases come up but I wouldn't add any more to the seafront due to the future risks of the sea level rises.
- 2.2 Eastern Esplanade is a designated highway previously part-closed during the summer but now open year-round. Parking and road separate the beach and the greens. Beach used to be more popular before the parking was put in.
- 2.3 We should get the publics views on the parking is it safe for children?
- 2.4 No plans on the beach for any development.
- 2.5 Beach levels vary a lot throughout the year. Northern slipway on Preston had a 3ft drop after a storm, a week later the sands levels had returned to normal. The slipway is now regularly checked.
- 2.6 Preston some beach huts could potentially remain behind the flood wall once it's in place. Northern toilet block is identified for development.
- 2.7 Previously showed plans for new beach huts north of the Pier however these weren't supported by the public (they would sit next to the lower prom).
- 2.8 Marine Parade free parking over winter. Don't advise adding it into the project as could open up a can of worms.
- 2.9 Some money available for upgrades on the seafront recently put in new stainless-steel railing along Preston. Potentially more outdoor gym equipment could be provided.
- 2.10 The seafronts used to have two beach friendly wheelchairs available for the public to sue but they were never used.
- 2.11 Never had anyone raise any issues regarding access onto the beaches.
- 2.12 Dingy club use the southern green for events.
- 2.13 RP Keen to make sure the seafront remains aesthetically pleasing. It is the front of house for Paignton and Preston.
- 2.14 SP The construction programme should co-inside with the movement of beach huts if possible.
- $2.15~\mathrm{RP-Happy}$ to help with future in-person consultation if useful

Minutes of Council Officer Meeting, Parkfield

Held on: 28th February 2022 16:00

At:

Teams Meeting

1.0 Introductions (JP & KB)

1.1 Quick introduction to the seafront masterplan project including project boundary and discussions had to date.

2.0 Parkfield Building (BM)

- 2.1 Council organising an asset transfer to ensure building is retained for community use.
- 2.2 Awaiting asset transfer to be agreed by Councillors should have been agreed in December.
- 2.3 Likely to have a 12-month programme for invitation of tenders, assessing the business plans and awarding the lease (if the Tenders meet the requirements).
- 2.4 BM to be in role until end of secondment in August.
- 2.5 Tender will be looking for community uses that work towards increasing wellbeing, intergenerational activity, and sustainability.
- 2.6 Potential uses include:
 - Community woodland
 - Apprenticeship programme with in-house accommodation
 - School's accommodation for weekly learning trips
 - Potential to have commercial elements such as summer café.
- 2.7 Parkfield Torbay building not included in the Tender. Only old Parkfield building, gardens, BMX park and skate park included.
- 2.8 Parkfield is a listed building which limits future changes. Currently in need of a lot of upkeep after being left unused for the past few years.
- 2.9 Gardens are currently under the responsibility of the Council to upkeep and ensure the public right of way is kept open for the public to use.

Minutes of Focus Group Meeting, Beach Hut Users

Held on: 9th March 2022 10:00-11:00

At:

Zoom Meeting

Present			
Name	Inits.	Company	Inits.
Kirsty Barker	KB	LDA Design	LDA
Jo Penhaligon	JP	Torbay Council	
Jennie Davies	JD	Chair of Beach Hut User Group	
Apologies			
Name			
•••	••••		•••
Item			Action

1.0 Beach Hut User Group Background (JD)

- 1.1 Formed in 2004 by 4 or 5 of the beach hut users.
- 1.2 Chair taken over by Councillor Vic Ellery however Jennie took over the Chair role a few years ago.
- 1.3 Facebook page has over 1300 users and there's around 1200 beach huts throughout Torbay who are represented by the group.
- 1.4 Recently got defibrillators installed on the seafronts by raising funds through a £5 joining fee.
- 1.5 The beach huts bring communities together important for families with multiple generations using the beach huts.

2.0 Open Discussion (All)

- 2.1 Spacing children run in between the beach huts if they're spaced too far apart so best to keep them at current approx. 200mm spacing. Never had any complaints by current owners.
- 2.2 Cyclists are the main complaint on the seafront with issues around the shared promenade. Need better signage to encourage cyclists to dismount or use the segregated path on the western edge of the greens.
- 2.3 Dogs should also be on leads along the promenade.
- 2.4 More BBQ areas could be included on the greens as the current one near to the bridge is popular.
- 2.5 More picnic tables away from the beach huts would also be welcomed.
- 2.6 New swing being installed in the play area.
- 2.7 Play area is known as 'Bob's patch' after Jennie's dad who got it installed on the Greens.
- 2.8 Not much available for older children but they do use the basketball court and the area around it for football.
- 2.9 Greens are used for outdoor keep fit, yoga and tai chi. Volleyball nets are put up in the summer.
- 2.10 Shelters are really degraded but they are welcomed during bad weather.
- 2.11 More seating should be available on the green side. Not much seating needed on prom as the wall provides a place to sit.
- 2.12 Not enough toilets on the seafront. Southern toilets have issues with damage and as such aren't open enough. More disabled toilets with a hoist could be included on Preston.
- 2.13 Lockers and showers would be good on the seafront.
- 2.14 Lighting new festoons on Paignton look good. Preston has a string of lights but could do with an upgrade to match Paignton. New lighting could also reduce ASB.

- 2.15 Issues over the summer with ASB. Potential to have more CCTV included along prom currently some cameras on Sara's and Boathouse.
- 2.16 Maddie's kiosk is popular on Marine Parade entrance.
- 2.17 Could leave beach huts on landward side year-round once defences are installed.
- 2.18 Colin Rd car park is used for storage over the winter -1st April to end of September.
- 2.19 If plants are introduced, then these need to be looked after. Paignton would look good with more planting.
- 2.20 Network rail have an access point to the railway near to the bridge.

1.0 Seafront Masterplan Focus Group Presentation (KB)

1.1 LDA ran through the focus group presentation.

2.0 Open Discussion (All)

- 2.1 CH Does this piece of work include the flood defences?
- 2.2 KB Yes, it's aimed at guiding the flood defences through the public realm design rather than the other way around. We will provide options for the defences during the next phase of consultation.
- 2.3 CL Mentioned in last night meeting but Marine Parade should be included in the designs.
- 2.4 DT Discuss the parking on the seafront?
- 2.5 CPM Shut the seafront during the summer through to September like it used to be.
- 2.6 CPM This should apply to cyclists as well due to their speeds along the seafront. Seen a lot of near-misses.
- 2.7 CPM The parking makes it dangerous along the seafront can't see children behind the cars.
- 2.8 CPM Might there be the opportunity to have echelon parking on Preston as well to increase parking numbers along there?
- 2.9 CPM The bike trail on the carriageway is dangerous.
- 2.10 CPM Pedestrians should have right of way on the seafronts.
- 2.11 CPM Previously looked at using south of Vue cinema for route through and parking?
- 2.12 CPM Preston Lots of cycling conflicts on the shared use area. Public don't use the segregated cycle lanes and carry on along the seafront from Marine Parade.
- 2.13 CPM What about winter access less mobile locals use cars for the views so need to account for them.
- 2.14 CPM Winter and summer should be treated differently positive vote for this.
- 2.15 CPM Should there be a park & ride during the summer?

- 2.16 DL Will chase up parking strategy to see when the results from this will be available.
- 2.17 CPM Will the seafront masterplan take into account the other plans in the area?
- 2.18 CL The masterplan will focus on the seafront.
- 2.19 DL Once we get the preferred masterplan proposal back then the Council will need to go away and look at how we can make the parking requirements work.
- 2.20 KB In terms of the beach huts do they have enough space; do they need anything else?
- 2.21 CPM Space is ok for the beach huts at present.
- 2.22 CPM The beach huts shouldn't be there year-round. Not suitable during storm events as they get damaged.
- 2.23 CPM Need to either be there or not not how they are at the moment where there's some there and some that have been put in storage.
- 2.24 CPM Cars also shouldn't be allowed to stay of Preston greens after 1st of May there should be no cars.
- 2.25 KB What about the Geopark is there anything we can do to support that more?
- 2.26 CPM working well. Any additional lighting would need to be provided and maintained by the Council, but we would support it.
- 2.27 CPM Would that risk anti-social behaviour?
- 2.28 KB the uplift of the seafront should reduce anti-social behaviour. The shelters have likely continued to be vandalised as they have been improved in isolation.

Minutes of Masterplan Workshop for Businesses - Phase 2

Held on: 8th June 2022 17:30 – 19:00 BST

At:

The Boathouse, Marine Drive, Paignton

Present			
Name	Inits.	Company	Inits.

Item			Action

1.0 Introductions (JP & KB)

1.1 Detailed Presentation of seafront masterplan project including project boundary, Proposals, and discussions had to date.

2.0 Open Discussion (Paignton Seafront)

- 2.1 Proposal to park on the south green in summer was seen as a problem due to seasonal/summer yacht parking and loss of greenery, Covenant Protecting Paignton Green Against Development
- 2.2 Winter parking and proposal next to Vue cinema and business parking spaces were well supported
- 2.3 Questions were asked about inland surface water runoff and explanations were given about the prioritization of the project scope for coastal defences.
- 2.4 Space to the seaward side of the public toilets providing showers and locker facility were well supported
- 2.5 Concerns were raised regarding central pedestrianization of Esplanade Road and re-arranged parking affecting revenue/existing businesses.
- 2.6 Concerns have been raised about easy access for elderly people to the seafront with limited parking spaces
- 2.7 Suggestions were given for rearranging/extending parking towards/adjacent to mini golf
- 2.8 Space for seating, informal play, and planting along the promenade was well supported
- 2.9 Concerns raised about the proposed flood defense of the green slope that extends into the common effect of the possibility of parking along the edge during summer fairs
- 2.10 Concerns raised about the proposed pedestrian pathway that extends into the common (Covenant Protecting Paignton Green Against Development)
- 2.11 Concerns were raised regarding combining the pedestrian pathway and two-way cycle route along esplanade road for safety
- 2.12 Concerns were raised regarding the Stability of Planting palm trees along the promenade
- 2.13 Coastal Planting palette/typologies for raised planters
- 2.14 Concerns raised regarding raised promenade + terraces budgets.
- 2.15 Revitalising space under the pathway adjacent t to Vue cinema (shoreline)
- 2.16 The Landward option was the preferred option of the two Paignton seafront proposals.
- 2.17 Questions were raised regarding the execution of the project timeline/budgets/phasing of construction

- 2.18 Potential to have beer garden on shoreline
- 3.0 Open Discussion (Preston Seafront)
- 3.1 Overall proposal for Preston was well supported
- 3.2 Concerns were raised regarding the combined cycleway and pedestrian route for safety.
- 3.3 More number of toilet facilities to be provided and improving existing wcs.
- 3.4 Potential to provide new shelters along the promenade was well supported

1.0 Seafront Masterplan Focus Group Presentation (KB)

1.1 LDA ran through the focus group presentation.

2.0 Open Discussion (All)

- 2.1 MM Would welcome the views of local Councillors before commenting.
- 2.2 CC Enough parking on the seafront. Seafront used to be closed during the summer.
- 2.3 BL Should the area in front of the Geopark be closed as well. The area gathers crowds. Also shut during Easter perhaps.
- 2.4 JS Should the neighbourhood forum be included in consultation?
- 2.5 JP Yes. Will add them to the consultee list.
- 2.6 JS Loved the planting that used to be around the edge of the green. Paignton is mainly family orientated but needs enhancement. Parking needs to be looked at in the round with the rest of Paignton.
- 2.7 CL Marine Parade should be included in the project. Need to be careful with the redevelopment of the toilets on Preston to ensure they don't detract from the seafront/ negatively affect the beach hut users.
- 2.8 CL Victoria Centre development could result in less parking in Paignton which should be considered.
- 2.9 CL The wall could be made into a feature along the seafront.
- 2.10 DT Before discussing parking too much it's important that we consider that people enjoy the open space along the seafront. What do we want the seafront to look like if we had no limitations? Public realm makes or breaks an area. What would you aspire to have on the seafront? Could we have a wide promenade on the seafront for example, instead of the carriageway and parking?
- 2.11 CL Preston is different it's in some ways easier than Paignton due to the beach huts.

- 2.12 CL Need seating, views and to support the Geopark.
- 2.13 DT We need to show what's possible wall to the front?
- 2.14 KB If the wall was to the front it would need to be approx. 3m
- 2.15 DL The hotels would have an obscured view. How do we ensure the seafront is regenerated, need to switch the emphasis away from the wall to the public realm?
- 2.16 MM Need new input from what we've had before ensure that youth clubs and organisations are involved.
- 2.17 CL Are the sea scouts being contacted?
- 2.18 JP Yes, they are being invited to the sports club workshop.
- 2.19 CL What happens at the end of the project? Timeline and process?
- 2.20 KB This project is only up until the seafront masterplan stage not detailed design. It will feed into and guide the detailed design.
- 2.21 CL What extra money is available to ensure we don't promise too much?
- 2.22 DL Can't agree to allocate money until we know the likely cost which this project will provide. Need it to be deliverable though. We will assess other pots of money available to us.
- 2.23 JS Have other options been considered? Coral Reef further out to sea possible?
- 2.24 JP There were 13 options assessed during the previous design stage.
- 2.25 KB Likely that any off-shore features would not be agreed to due to the MCZ. Will bring up during project board meeting to ensure this option was considered.
- 2.26 DL This project will be a catalyst for future investment int eh seafront.

Paignton & Preston Masterplan – Events Focus Group

Present

- Joanne Penhaligon (JP)
- Phil, Black (PB)
- Kirsty Barker (KB)
- PB main role working for the council is to do with events, he also thinks that he will become involved with the adventure golf space. The site is described as southern green, middle green and northern green. The Faire is on middle green, and the north green is where most of the events are hosted. The Aire show is hosted on the northern green and the Esplanade are from there, keen to maintain sight lines from there.

Wouldn't have put the geo play park there as it limits event space. Would be lovely to relocate to south green, not much big event space at the green. As it stands they currently have about half the space that is needed and a quarter of that is taken up by the geo park.

- KB Do you use the south park?
- PB Military stands are out there during the air show. Also, they use the south green for sailing events, e.g. they put trailers here and this is where they launch from.

The fair would like to be near the geo park, the fair takes up a lot of spaces, I don't want to lose any more space.

Travellers often camp of the green and need to be moved.

Pier approach road is a highway, have to be careful with children running across it, we can't put a gate on the highway because of the fact it is a highway. Also traders need supplies every morning.

Would like people to access the beach more, wash facilities, disabled access, lockers and hiring of SUP boards

A colleague Kevin is keen to keep parking on the road, this is mainly due to the income generated from parking. However (according to Phil), the road doesn't work in terms of events.

Would like to make north green a better event space, better water facilities and hardier grass, need more water points on the esplanade road. Electric is temperamental and would like more green energy. Currently for events they bring in diesel generators, however these can't be replied upon. Can't rely on the power there.

Standard of the green has dropped in the last 6 years. Summer very dry, a bit of a dust bowl soil is worn away.

- KB would the middle green benefit with reseeding?
- PB Yes
- KB in terms of Preston what are the opportunities / issues here?

PB – Too many beach huts put in the council, and as a result there isn't much we can do with the space.

Keen to improve access in the area, especially access between Preston and Paignton along marine drive. At the moment they can't do anything like the air show here (Preston) because of viewing access.

- JP Preston is where people come to access the sea, in my opinion more that Paignton.
- PB People like the boat house.
 - SUP type facilities, shower points may be better suited here
- KB In terms of geo play park, can it be improved.
- PB It seems to be growing, e.g., another ice-cream unit and inflatable rides, not a good relationship between the green spaces officers (council) and the people that run it. I don't want it to keep growing.
- JP Should ask the community later today, what are your plans with the geo park?
- PB Can't put anything heavy on south green, avoid it as useable space as they do not know the weight limit.
- KB Improvements to access to Paignton?
- PB Would like access to from the south, to take out access from pier approach. Due to the one-way system, tricky roundabout on the south green side, might limit access. Places do close off at certain events.

Would be great if there was more places to put bikes, somewhere on north green would be ideal. Right down the far end of the esplanade by the hotel, they put the flight directors box, need to keep infrastructure and comms etc. English riviera events collective – everyone who uses Paignton green. Keen to find storage, would love ideally to store things like head barriers. On the geo park, when the previous designs for the sea wall happened the geopark wasn't consulted. Would like them to be involved.

Paignton & Preston Masterplan – Open Space/Community Safety focus group

Nicholas, James (JN): Swiscp – manage the parks, gardens and lights, work with community partners and focus groups

Tucker-Last, Jamie (JTL): Antisocial and vulnerable lead officer

Worthington, Hannah (HW): Green spaces engagement office

Penhaligon, Joanne (JP)

Kirsty Barker (KB)

JN – Currently do work with traveller prevention, ordering 120 boulders to be installed before easter around the green to prevent travellers accessing the site. Potentially looking to do some work along pier approach such as putting in hard standing.

Geo play is geo lined and has dog wood, but it is very salty. Planters have been used before but things need to be robust here.

Lighting wise there are new festoons along the sea front.

- KB Plan of the hardstanding?
- JN Will send over
- KB Phil mentioned the south green area about the loading?
- JN Could find out, heavy machinery is used on the area, but will have to ask south west water and the EA. Shelter have been smashed in, memorial benches will need to be considered i.e. family.

Swisco (I am not too sure what they were meaning here sorry) manage the geo park, community run the café, money goes back into the geo park. Thinks that the solar panels are redundant. Access wise, Preston is busy access with vehicle access. Beach hut owns can drive along the front to load and unload the beach hut at the start and end of the season. Most of the must are stored off site from November to March.

- KB Is the lighting ok? Are there any dark spots?
- JN Think its ok , this time last year there was defects, however they are getting around to fixing it, thinks its adequate now.
- H The gym is used a lot by families. Torbay town partnership, two or three volunteers, strong sense of ownership of the Geoplay, they are there daily, cleaning. Very proud of the area, its free to access. Geo play is very important to visitors and local. Where planters have been installed, the community have been very involved.
 - Local sports centre is nearby, the green poses as a a good circuit, so many laps gives a 5k run, very flat. No park run, this is because it needs income from parking and café, might be something in future that they look at. The nearest one is Exeter.
- JN There are measure posts to mark out miles. Are you engaging with highways?

- JP Yes meeting highways tomorrow.
- HW Other activities, dog walking in the winter, when they were redoing the shelters, they got the local college involved with apprenticeship. Big buy-in from tourists from outside, especially those who visited the area in 1950s, 1960s onwards, keen to contribute.
- JTL Not much antisocial along Paignton or Preston, travellers on Paignton this is the most time consuming and significant issue and resources. Other than that, they have rough sleepers, they sleep in shelters, under vue cinema, on top of toilet block and on the green. Covered from a CTTV point of view. Proximity to park field, lots of youth antisocial behaviour, potential for it to spread to the green. Increased police presence during events. Access points seems to be the main issue.
- JP Break ins for the beach huts
- JLT Never comes to us, goes to the police.
- KB Is there a problem with graffiti?
- JN Not really, there is mainly a problem with break ins from a low number of people doing it regularly.
- HW Parkfields has been signed over as community asset, at the moment they are litter picking. It is an important community space and a strong link to Preston green. The swimmers, mental health groups, health groups all would be good to get on board. Having some seating tucked out of the way so that they can leave towels, car keys.
- KB Disabled access to the sea, there are different options like creating bays for disabled access
- HW Having been talking about disabled permits, but nothing specifically
- JN At Preston access on to the beach is not good. Inclusive toilet, water attenuation tank on the Preston green.
- HW One other thing, number of residential and care homes. Need to keep in mind access to access for disabled and elderly.

Paignton & Preston Masterplan – Planning & Regen Focus Group

Luscombe, Adam (AL): Strategic planning officer

Elm, Mike (ME): Sustains liveable towns lead for Torbay

Denby, Alan (AD)

Kirsty Barker (KB)

Sophie Thompson (ST)

Penhaligon, Joanne (JP)

- KB Potential to connect the area through Marianne drive?
- AD has funding from future high street fund, it will be key to link it with the seafront as the new flood defence area will be protecting everything proposed in the future high street fund.
- SP Catalyst is coastal defence, looking at a much wider remit, some are future opportunities in terms of levelling up.
- AL Paignton master plan, Paignton neighbourhood plan will be also key to tie into this. A lot of work has been done with the master plan. Looking at the transport side, a concern with parking on the Eastern Esplanade parking is when the sea overtops and also cars parking here can cause problems when there are events. Not been an easy process, tried to distinguish as a public highway. No one wants it from a council point of view, not an easy process to change it. Doing parking studies for Paignton, will give a good indication of usage and need. Will share the document. Have transport data for work they have done on marine drive and Eastern Esplanade, e.g. counts of vehicles and cyclists.
- ME: Community is keen on Eastern Esplanade being less of a car park. Torbay road is proposed to become pedestrianised.
- SP: Historically has there been any been any feasibility study on moving the car parks out of where they currently are?
- AD: Been discussion about the bus car park, and Victoria centre. The community reps want to keep car parking in the area (not representative of other people's view).
 - Regeneration in a place like this is not quick and linear.
- ME: Main piece of work is being involved with the connecting marine drive and Holcomb, 20 miles an hour limit and improving for cycling. Strong agreement on reducing vehicle numbers and improving walking and cycling. Would like to see walkway along the front of the hotel if the sea wall is built here.
- KB Lack of cycling came out this morning, cycling hub in the area. In terms of Preston what the ideas here?
- ME: People cycling on the front causes an issue for people who own the beach huts. Lots of people walk on the cycle path.

- AL: Looking to widen the pavement from May. Warden councillors say that cyclist are on pavements and walkers on cycling paths.
- ME: This issue came up a lot in face to face meetings not at all online.
- KB: Events team mentioned about the pier approach, concerning the closure and the effects it would have?
- AL: Not had direct involvement, owner of the pier gets agitated. Message of no cars no business is hard to change. Has been talk about creating alternative access between the golf course and vue cinema
- KB Looking to consolidate sea front parking to the South Green
- AD: Not as far as I know.
 - Timely to put the idea through, car park or hard standing there.
- AL: Eastern Esplanade traffic arrangement causes confusion (cycle lanes and cars). This comes with safety risks.
- ST: Vue cinema gets raised a lot, any discussion around the future of that?
- AD: Investment fund that owns it has decades left on the lease 40/50 year + wondered if they could relocate to the Victoria part. Would need to find a lucrative grand programme to get it moved.
- AL: Master plan also shows its removal

Increases Paignton's	lack of flowers. lack of seating but a great place to visit especially the Pier This is a wonderful natural resource that has been exploited rather than empathetically developed in recent decades. The various local assets of the shopping centre, the railway the harbour, the cliff tops and the parks have each growr as myopic "Topsies". There needs to be a community plan than envisages the development of Paignton as a potential "centre of emarine and holiday excellence" rather than a down-market also-ran on the Devon coast. seafront towns, Paignton and Preston were once beautiful, then (quite rightly at the time) they clamoured after decreasing holidaymakers by installing tatt, tarmac and concrete, and removing decoration, planting, and things that were considered fussy (bandstands, rocks, fountains, variety). Things became 'standard' (ie bins, seats and lampposts from a generic Council catalogue rather than keeping any individuality of the town). Many of the remaining character features are slowly diminishing (except Paignton feels to me like it is but at the same time I don't think there is a place of the British seaside experience. Paignton feels to me like it is of the bay a little bins, seats and lampposts from a generic Council catalogue rather than keeping any individuality of the town). Many of the remaining character features are slowly diminishing (except Paignton feels to me like it is but at the same time I don't think there is a place of the British seaside experience.	This feels too much like an area on which nobody has really done a quality design job. It feels as though any development here has been accidental and the community is content to leave it as a tidy accident" rather than a "must visit" part of our Torbay assets. seafront towns, Paignton and Preston were once beautiful, then (quite rightly at the time) they clamoured after decreasing holidaymakers by installing tatt, tarmac and concrete, and removing decoration, planting, and things that were considered fussy (bandstands, rocks, fountains, variety). Things became 'standard' (ie bins, seats and lampposts from a generic Council catalogue rather than keeping any individuality of the town). Many of the remaining character features are slowly diminishing (except	flowers and colour needs introducing on Paignton front This is a wonderful natural resource that has been exploited rather than empathetically developed in recent decades. The various local assets of the shopping centre, the railway the harbour, the cliff tops and the parks have each grown as myopic "Topsies". There needs to be a community plan than envisages the development of Paignton as a potential "centre of marine and holiday excellence" rather than a down-market also-ran on the Devon coast Torquay reside stronger connection between harbour and green. Stronger connection required between Torbay Road and the seafront (much more flow needed, prioritisation of pedestrians), even if the lack of view cannot be undone. The greens need to stay, but permanent (decorative) restrictions need to be permanently in place to stop travellers. No development of the greens; they are all that remains of the dunes. No need for 'forced-fun' on the greens in winter; it's grass and we make our own fun. Geopark does not need lighting Paignton as children don't play council to factor in whether they keep a budget long-term so they can maint what they put in they need to make sure that they keep a budget long-term so they can maintain what they put in and not leave in various places m, especially if you turn your back for the commitment for a safe place in various places m, especially if you turn your back on the seafront and look any other way. It would be good to have proper future planning for 5, 10,15 & 10 paignton resident Definitely invested mone cliquid in the experience of the commitment for a safe place in various places m, especially if you turn your back on the seafront and look any other way. It would be good to have proper future planning for 5, 10,15 & 10 paignton resident Definitely invested mone cliquid in the commitment for a safe place in warman and children don the paign	Myself, as an individual; Myself, as an individual; Myself, as an individual; Myself, as an individual;	TQ1 2HY TQ27bh TQ3	Woman Man Woman	White White White	45-54 Prefer not to say 35-44

1.0 Introductions (JP & KB)

1.1 Detailed Presentation of seafront masterplan project including project boundary, Proposals, and discussions had to date.

2.0 Open Discussion (Paignton Seafront)

- 2.1 Proposal to park on the south green in summer was seen as a problem due to seasonal/summer yacht parking and loss of greenery, Covenant Protecting Paignton Green Against Development
- 2.2 Winter parking and proposal next to Vue cinema and business parking spaces were well supported
- 2.3 Questions were asked about inland surface water runoff and explanations were given about the prioritization of the project scope for coastal defences.
- 2.4 Space to the seaward side of the public toilets providing showers and locker facility were well supported
- 2.5 Concerns were raised regarding central pedestrianization of Esplanade Road and re-arranged parking affecting revenue/existing businesses.
- 2.6 Concerns have been raised about easy access for elderly people to the seafront with limited parking spaces
- 2.7 Suggestions were given for rearranging/extending parking towards/adjacent to mini golf
- 2.8 Space for seating, informal play, and planting along the promenade was well supported
- 2.9 Concerns raised about the proposed flood defense of the green slope that extends into the common effect of the possibility of parking along the edge during summer fairs
- 2.10 Concerns raised about the proposed pedestrian pathway that extends into the common (Covenant Protecting Paignton Green Against Development)
- 2.11 Concerns were raised regarding combining the pedestrian pathway and two-way cycle route along esplanade road for safety
- 2.12 Concerns were raised regarding the Stability of Planting palm trees along the promenade
- 2.13 Coastal Planting palette/typologies for raised planters
- 2.14 Concerns raised regarding raised promenade + terraces budgets.
- 2.15 Revitalising space under the pathway adjacent t to Vue cinema (shoreline)
- 2.16 The Landward option was the preferred option of the two Paignton seafront proposals.
- 2.17 Questions were raised regarding the execution of the project timeline/budgets/phasing of construction

- 2.18 Potential to have beer garden on shoreline
- 3.0 Open Discussion (Preston Seafront)
- 3.1 Overall proposal for Preston was well supported
- 3.2 Concerns were raised regarding the combined cycleway and pedestrian route for safety.
- 3.3 More number of toilet facilities to be provided and improve existing wcs.
- 3.4 Potential to provide new shelters along the promenade was well supported

Minutes of Paignton & Preston Masterplan Phase 2 - Regen, Planning, Active Travel, Transport, Parking Focus group

Held on: 27 May 2022 15:30 - 16:00

1.0 Introductions (ST & KB)

1.1 Quick introduction to the seafront masterplan project including project boundary and discussions had to date.

2.0 Open Discussion

- 2.1 Paignton has less amount of parking and numbers could be reconfigured.
- 2.2 Landward side option is more favourable
- 2.3 Require parking study
- 2.4 Preston: work on the existing road width
- 2.5 AD: The Victoria Center, located south of the green, provides extra high-quality spaces that help shape the community.
- 2.6 AG: Cyclist on the seaward side promenade
- 2.7 AL: potential clash of cyclist and pedestrian users
 Phasing winter and summer only

1.0 Introductions (ST & KB)

1.1 Quick introduction to the seafront masterplan project including project boundary and discussions had to date.

2.0 Open Discussion

- 2.1 CL: Preston Green is kept as open as possible by activity on it, including children playing there throughout the summer.
- 2.2 CC: Right turns on the road are more congested, and there are also more crossing points required.
- 2.3 CL: The yachts and individual events collide with summer parking on the south green.
- 2.4 CC: Travellers on south green
- 2.5 CL: Maintenance of the green and to be aware of the covenant of the green also using the commons for extending and implementing new the cycle tracks.
- 2.6 DT: Positive feedback about the landward option
- 2.7 CC: To explore more on the access to beach and possible open spaces on the closed prom area.
- 2.8 CL: Current shelters could be upgraded to Modern shelters along the coastline.
- 2.9 DT: Collapsible seats along the Preston seafront flood wall could be provided.
- 2.10 CL: Study on beach during hightide levels.
- 2.11 DT: South green W/C retained and developed.

1.0 Introductions (KB)

Item

1.1 Quick introduction to the seafront masterplan project including project boundary and discussions had to date.

2.0 Open Discussion

- 2.1 The 3D models were well received, and they agreed wholeheartedly with the ideas we had at Preston.
- 2.2 For Paignton they appreciated both options being shown although they went away preferring the seaward option (aware of the cost implications and difficulties at the tie-in points we showed rendered views of Pier Approach and Shoreline tie-ins with high walls). They agreed the landward designs were better and perhaps thought a hybrid of the two might be possible.
- 2.3 Parking only in summer doe south green?
- 2.4 Wildflower planting palette required.
- 2.5 Winter storm and planting durability to be taken into consideration.
- 2.6 Servicing area behind Vue cinema essential and golf activity active in summer in the adjacent space.
- 2.7 Possibility to include spill out space in the seaward side of the flood wall?
- 2.8 End of the greens and tie-ins to be confirmed with provision of the flood gates.
- 2.9 Toilet facilities on the north and south green in Preston to be improved.
- 2.10 The landward option is more convincing with the strategy and design approach
- 2.11 Existing businesses could be affected by loss of parking on the promenade?
- 2.12 Including informal play along the seafront?
- 2.13 Increasing footfall with popup markets on the seafront for Sundays?
- 2.14 Overall, everything was favourable. There was some lively debate about parking near the south green. (yacht parking and Generators are usually located on the slope of the greens during fun fair)

1.0 Introductions (ST & KB)

1.1 Quick introduction to the seafront masterplan project including project boundary and discussions had to date.

2.0 Open Discussion

Item

- 2.1 KM: Two new kiosks are sufficient because there may be issues with competition from other new kiosks and existing businesses.
- 2.2 ST: Businesses may benefit from eliminating parking and may be able to draw more foot traffic by utilising the current kiosks.

3.0 Paignton comments

- 3.1 KM: Beach to promenade views are blocked by a 3 m wall, making access to the beach difficult in landward option.
- 3.2 CN: Are palm trees achievable? To provide plant specification for terraces plant palette.
- 3.3 KB: Southsea Project plant palette to be taken as reference.
- 3.4 ST: Several sections to be taken to learn the wall.
- 3.5 TJ: several points raised Floodgates, ramping: cost issues, potential ideas to downplay the wall.
- 3.6 Note: to consult with Ian Jones highway team
- 3.7 JP: budget and approximate figures for design: 4.2 million

4.0 Preston Comments

- 4.1 KM: Overall design on Preston seafront is well supported
- 4.2 Could offer two options showing 1 with shelter and 1 without shelter.
- 4.3 Shelters are affected by vandalism.
- 4.4 TJ/KB: Rationalize the space and relocate cafes.
- 4.5 KM: possibility to improve the existing shelters in Preston with new contemporary design.
- 4.6 TJ: Issue of vandalism on the wall, use of yellow limestone cladding

Action

4.7	KM: Cladding only on the summer side (seaward) of the wall and develop wall details Redevelopment of the existing toilet blocks are currently on hold.
	Next steps?
	Council and stake holder meetings

Likes Comment

- 2 13 I think the proposal for widening the promenade at Paignton and Preston seafront is great and to not have any cars is even better. It will be so much more relaxed when strolling along the
 - 1 Sort out the parking meters first, several not working today, one that was wouldn't take coins so rang to pay and park as I don't have the app. Took ages and then when returned tried to
- 4 8 This Council are destroying Paignton.
- 3 This is a great idea, Paignton sea front is outdated! When are these changes taking place? It would be great if you could expand geo park and add in more equipment for toddlers as there I'm concerned about access for disabled people with reduced parking, all through the year it provides instant access for those with extra needs. A vast number of disabled people use the
- 6 17 area as it is flat and safe, close to their vehicles. Could a large number of disabled spaces be provided on the northern side all year around?
- 7 6 Why choose the busiest day when thousands of people will be on the front, to have a stand there showing plans/ideas for the seafront? Choose another day or add another day.
- 8 4 In my opinion 1. The grass next to the mini golf should be made into a large car park this would take away the fear of nowhere to park. 2. Stop parking in front of the Geo Park to make it
- 9 5 What about Goodrington Sea Front. In all your plans you seem to have forgotten about this family favourite. You haven't even managed to repair the lights on the south sands side saying
- 2 Surely the carpark will be full of cars belonging to guests staying at the 2 new hotels on the seafront ?? 10
 - Elderly and others with disability, use this fantastic promenade to spend time in their cars where they can see sun and storms, where they can see life going past, where they can watch
- 11 16 dogs on the beach, watch children playing. This brings them so much joy and the plans suggest this is being taken away. I feel this is deeply saddening and removes such a valuable feature vie
- 12 0 Still won't be enough toilets.
- 13 2 To Jo? Torbay Council, are the proposed plans already fixed? I get the impression from your replies to some comments that we the public have ideas, that may be too late for the July final
- 14 0 How about Torquay seafront?
 - Torbay population demographic highlights a higher than U.K. average of elderly and disabled residents and visitors. Equality of access is surely paramount it would arguably be unethical
- (illegal?) to accept any design that knowingly restricts use by those with limited mobility, especially wheelchair users. Please Expect Major National Disabled Charity objections, 15 2 demonstrations and negative press attention for Torbay Council if these designs are accepted without the essential attention to equality of disabled accessibility which is demanded within
- 18 2 Palm trees do not do well on our seafronts (palm court development most reacently). Big planters were put in during the 1990's with palm trees, they died.
- 19 1 Update the sea wall yes a good idea, except it's taking away space on the front for disabled people who are unable to view and smell the sea. The wall can be built, as long as there's access vie
- 20 0 Still waiting for you to start crossways improvements. Get on with that before you start anything else......
- 21 O Free parking for locals who pay crazy council tax bills.
- 0 I heard there is a meeting on Wednesday evening unfortunately the same time as the first bikers night is due to start can you confirm this please? 22
- 23 O I looked for your display at the air show but couldn't find it.
 - Why not keep the north side open to cars all year and close the south of the side in the summer (like is used to be). Im assuming the kiosks in the new plan would still need to be removed
- 24 0 during the winter as the storms would still affect them and it is unlikely they would be open as local winter trade would not be sufficient to support more tea/coffee/ice cream outlets
- 25 0 How would the sloping behind the wall affect the greens for the fair to set up?

Facebook post Monday 30 May - Promoting the Facebook Live

- 0 Is it possible to say what the beach huts numbers are that the council are thinking of removing? All beach huts are loved by their owners.
- 2 1 Take a look at Exmouths sea front area. Should give you some good idears. It looks well designed
- 0 I would imagine most cyclists would rather cycle along the seafront, for the same reason people like to walk there.

Facebook post Monday 6 June - Reminder of Facebook Live on tonight

- Ooooooh, more myths about riding sea levels and how an expensive wall will stop said levels rising through the ground, I shall do my best to listen in!
- 2 Please can people be fully informed about the covenants on the Green.

Facebook Live - Monday 6 June

- 2 Waste of money
- 2 Put the money where its needed in the streets where we live not a face lift for the benefit of holiday makers.
- 2 A lot of older or disabled use the parking on the sea front of Paignton What will be available for us to use 3
- 1 Where do Torbay Council get their figures from ... Are they just made up...
- 2 A lot of the flooding is from rain or the water table (coming up through basements). No sea wall will solve this.
- 3 Were there no Torbay design companies available? Nothing like keeping the local economy going. Bit like the Airshow using out of area companies
 - The claims of extreme rising sea levels have been done over and over and not once have they come true, and even if they did come true the water table would rise through the ground and
- 7 2 not over a new wall raised well off sea level. It'd perhaps work as a wave defence but it'd do nothing for rising sea levels.
- 8 1 I own a kiosk on the beach and when the weather isn't great we get a lot of our trade from people parking up outside and then eating in their cars. We won't get this if the road was closed 0 Is the sea ward optiin affordable? 9
- 10 0 The kiosks are not open in the winter on the beach so the road being closed is not going to help us. We already get less and less of a season because of the sea
- 11 O So the cycle way will reduce the size of the green?
- 12 0 With the suggested extra planted areas is there funding going forward to keep them? We have lost so many flower beds due to lack of funds.
- 13 2 More kiosk will mean our income will go down. We only get barely 6 months of trade to make our money
 - 2 How do you plan to stop rising sea levels coming up through the water bed which will soak up through the land as it already does? Why do none of you ever want to approach this very
- 15 0 The Berlin wall option eh why have the two options prepared by Paignton Town Community Partnership and presented in Jan to LDA, leading sea wall engineers Royal Haskoning, HOK-the piers consultants, TDA
 - 0 engineer and Kevin Mowatt not been included in any of the engagement or study work. Both options provided a comprehensive approach to creating a prom fir for the 21st century.? The 0 Are both the wall options the same height?
- 18 0 We would not get people from the beach using our kiosk like we do now with the seaward approach (3) 0 Is it possible to increase the size of the tarmac area, by the play park, inside the fenced off area on Preston green? Many kids and adults use the area for exercise, personal 19
- 20 0training and keep fit. The grass area is under-utilised at present and the public would benefit from the increased informal play area. Thanks
- 21 O Preston already has a cycleway along the hedge, why does it need changing?
- 22 2 Has the Council got the money to finance all options?
- 23 2 I'm confused...what flooding issues are there in Paignton and Preston? Torre Abbey has more flooding issues than these 2 beaches
- 24 O Here's an idea...dig out loads of sand to make the existing walls higher
- 25 2 It would be a real shame to relocate Sara's kiosk. In its refurbed state, It is a great addition to the beach. Centrally located it provides refreshments to exercisers and do walkers all year
- 0 How many parking spaces will be lost? 26
- 27 1 Why take any of Preston Green - it works the way it is!
- 28 O As a kiosk on the beach we have to at least once a season to go and watch our kiosk if there is a 5 metre plus ride and an easterly wind! The kiosk next to us has been damaged a few times
- 29 1 Surely the designs should be based around the budget and funding available
- Option Two is a totally ridiculous option leaving the community with just Option One and that one leaves current sea wall to decline over next 50 years. It has no wow factor whatsoever.
- 30 O The community have designed a refined lower height/ lower cost option for a front line sea wall which is the one preferred by the community from the sea front consultation we did last
- 31 0 So if no cars will the cycle lane go as well(would be concerned children getting knocked over)
- 32 2 Torre Abbey has flooding issuesLook at the last 10 years !!! Preston and Paignton don't
- 33 O Can you please reassure us regarding disabled access please, particularly wheelchair access.
- 34 O This is all lip service, I'm sure the 'option' has already been choosen
- 35 O I cannot believe that you cone up with plans with no costs in mind. Surely Torbay Council should be saying right we have a 5 million pound pot, please provide plans to this pot.
- 36 2 This is a great idea!! Too many cars on paignton sea front my kids always have to be super careful! 37
 - O Great vision Torbay Council and LDA Design. I would support the inland defence wall and think it would really smarten up the sea front. Please also do something with Torbay road! O I posted a question in regards to the covenants on Paignton Green, as expected it did not get addressed.
- All very well putting sea defences up at Paignton and Preston but please don't get rid of the parking; where are people going to park to get to the beach? Do not predestinarians Torbay road and sea front. Have you been down there? Children are safe enough if their parents and actually looking after them instead of on their phones!! Even without the cars parked there
- 39 0 you still wouldn't be able to see much of the beach/sea. You cannot even keep up with white lines on the roads which is dangerous you've only got to see how may accidents there have
- 40 0 I wonder how the council manage to alter the green so much anyone would think they own it - but they don't Paignton green belongs to the people of Paignton not the council!

Stage 2 Feedback received via email

Devon Link Up

Jo Morgan

The group had a look at the pictures yesterday and were generally okay with the plan but did comment about increasing disabled access to the beach and beach front area generally. There was concern about the number of steps and asked whether some of the access could be changed for ramps.

One of the group suggested making part of the sea wall reinforced glass which would enable people to see the sea.

Mencap

Brendon Helmore

Due to the he time restraint, I could only make informal presentations to and comments from attendees of three local organisations who deal with people with Learning Disabilities and Mobility Issues. They have not made comments upon the proposed sea wall plans, but have raised a number of points which effect their use of the seafront.

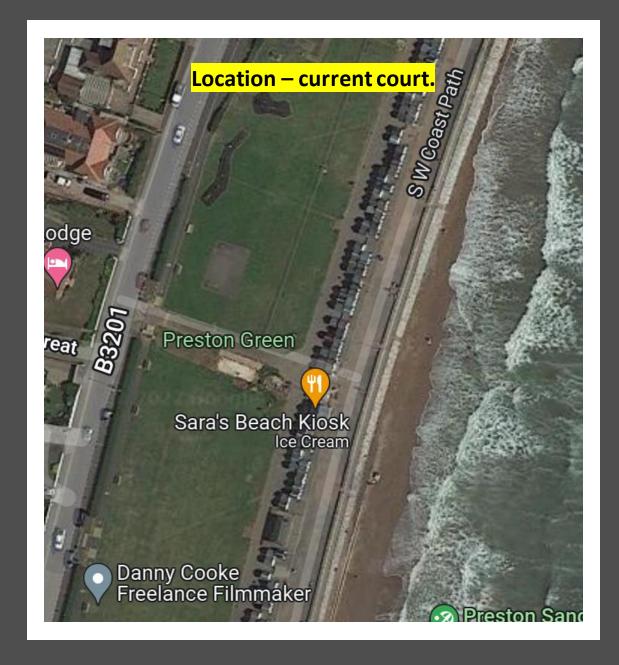

- Beach Access concerns about steepness of steps and lack of slopes for wheelchair use.
- Currently the unevenness of access at Paignton from the green to the promenade and from the main road/promenade to the lower promenade/beach.
- At Preston the old North End Slipway is too steep and uneven, often with a drop off at the bottom, and the only easy access is to be found at the Southern end by the Boathouse.
- Neither Paignton or Preston have any designated Place of Safety that individuals can go to.
- There were only one or two concerns raised about Motor Vehicles at Paignton but on both promenades concerns were expressed about cyclists going too fast, weaving between people and not always observing the cycle Lane at Paignton.
- Will provision be made for an increase of wider disabled parking bays if parking is still allowed at Paignton, If parking is removed from the central section, underneath Shoreline then the disabled parking will have to be as close as possible to enable access to the Changing Places disabled toilet facility situated underneath Shoreline.
- As disabled groups use both seafronts all year round the retention, or replacement with new, beach shelters should be included.
- There used to be Beach Buggy's for the use of those with mobility issues, will consideration be made to replacing them.

There is a wish to retain as much of Paignton Green as possible and there was a negative response for using the green for car parking.

Rational to extend the court

- Basketball has always been a popular sport in the Torbay area.
- There are limited outdoor courts available for locals to play basketball
 - Lymington road court is in dis-repair and the baskets are at irregular heights
 - Victoria Park is run down. One basket is missing a backboard. Plus the area is not suitable for children to attend given the antisocial behaviour and drug paraphernalia in the area.
 - Goodrington Beach court has been lost to the extended development of Splash Down water park.
- The extension of the Hard Court at Preston beach, along with the installation of additional baskets, would improve the informal play provision and exercise opportunities for locals and visitors alike, throughout the year.
- The existing court is currently used informally by exercisers, personal trainers and fitness groups. By increasing the size of the court, informal exercise / play opportunities will increase across a range demographics.
- Extending the court would loose a 'perimeter' of grassland around the edge of the existing court, which is currently under-utilised and often boggy.
- Members of Torbay Tigers Basketball Club (operating since 1973) routinely care for and upkeep the existing court (sweeping debris, changing nets etc).
- Opportunities would exist to potentially hold exciting, beach front, informal basketball tournaments. These could again, be fully supported and supervised by the experienced coaches at Torbay Tigers.

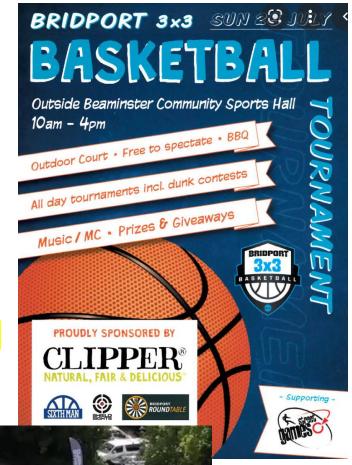

at the court – given the appropriate Council Consents etc.

Almost five decades of Torbay Tigers Basketball Club

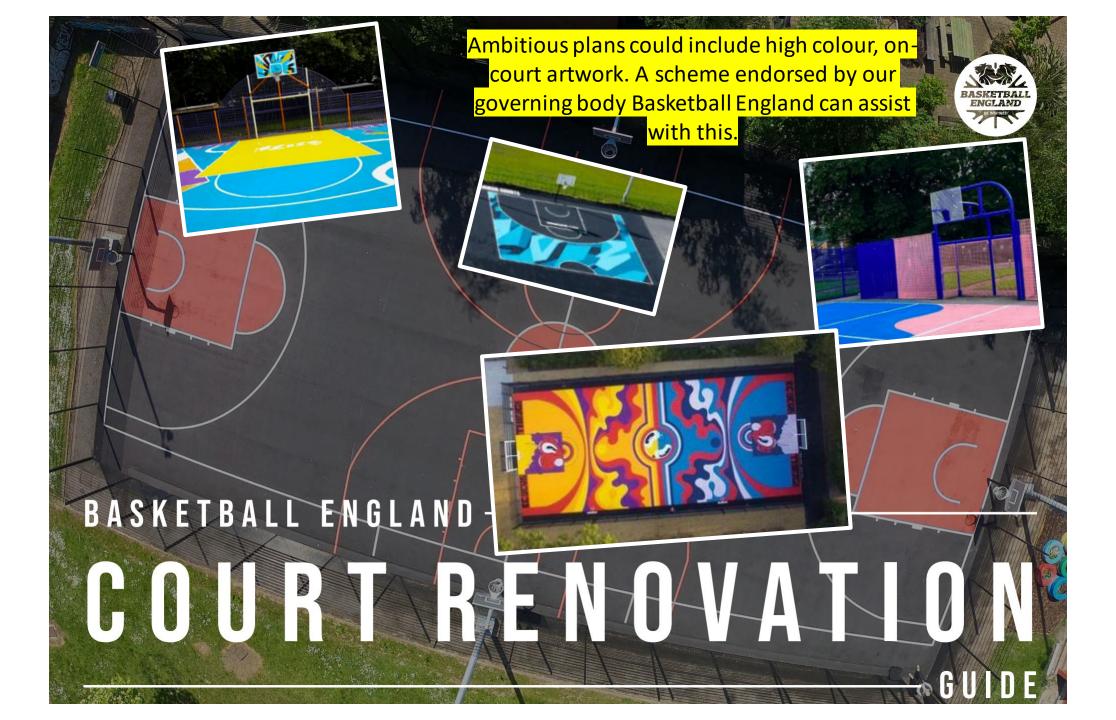

Any redevelopment of the court will be fully supported by Torbay Tigers Basketball club who will assist with housekeeping and upkeep.

The club has developed a complete age range of teams with under-12, under-14, under-16, under-18 and Senior mens teams entering the South West and National Leagues.

Thank you for your time.

I am sure you will appreciate it is difficult to put all arguments effectively on a slide show so if you feel there would be benefit in meeting in person to explore the content further, I would be more than happy to do so.

Kindest regards

Lee Pottinger
Secretary
Torbay Tigers Basketball Club

		Paignton. The loss of parking is considerable on top of the loss of parking in Torbay Road Crossways and part of Victoria MS. Visitors will have nowhere to park and decide not to visit. Also in the winter to park on the promenade and take our children and elderly relatives for a walk and enjoy the sea will be lost								
		especially when elderly relatives are less mobile. Leave what little	Put the cycle lane on the	Leave as much as possible it is always busy even			It seems to take one perspective without taking into account all the other plans at present. There does not appear to be a cohesive approach for all the projects and the impact on the economy or a resolution to all the lost parking for Paignton.			
Landward - where the sea wall is by Paignton Green	No	parking is left alone after the loss of Crossways Torbay Road and Victoria No	existing carriageway. Cyclists in the main have no regard and think they are above the law. None of the above;	on some awful winter days. Families like to have the car accessible when visiting the beach and want a long walk. You will lose visitors to other areas of Devon.	No	No	Great to have but no one will visit as they will not find any parking. Not thought for the less ambled who still want to enjoy these types of amenity but cannot walk far. Just shows no thought for those who are older or less capable of exercise.	Torquay resident	Myself, as an individual; Tq1 5LJ	Woman White 55-64

Seaward - where the sea wall is by the beach	Not sure	Only allow vehicles to park on the north side as there is a wall there already, obstructing the view to the sea No	There is enough space to clearly mark out a cycle pathway on the large footpath, its more to do with educating cyclist & pedestrians alike. To reduce the carriageway would mean even more congestion along the main road Winter parking only on the northern section of Eastern Esplanade (71 spaces); New parking area next to the Vue Cinema (45 spaces);	Better access & signage to the multi storey off Garth Rd	No	Yes	Sea defence should be on the seaward side of the promenade. This is a good idea This will give more space to pedestrians & cyclist away from trafi	c Torquay resident	Myself, as an individual; TQ14JF	Man White 55-64
Seaward - where the sea wall is by the beach	Yes	No	Winter parking only on the northern section of Eastern Esplanade (71 spaces);		Yes	Yes		Paignton resident	Myself, as an individual; TQ3 3HD	Woman White 55-64
Landward - where the sea wall is by Paignton Green	Yes	I believe loosing the car movement all together would be the best option, parking although well thought out should also be removed and relocated further away from the front to service both the front and town as a one stop shop Yes	I support the cycle system but would suggest adding multiple crossings over the road via raised zebra crossing the area should be safe and a priority for pedestrians and cycles even e scooter can then be introduced, the crossings would add safety as well as traffic calming None of the above;	As above need to simply find a better location for parking that serves both the town and beach remove now and bring something in with the tow works all the areas behind the main front are rur down this should be explored for redevelopment wholesale	wn n	I like all the options my only comment would be adding huts etc how is this protected from the storms maybe should look to elevate the huts on stilts out towards the beach off the new defence I turn future proofing the facilities and making them of use all year round Not sure	I hate the cinema it needs to go ruins the front should bring back the Victoria gate Send it up to long road knock it down and build parking and shopping in its place This should be the crown jewel in the front Pier point restaurant is discussing and the cinema is dead an expansion at long road would solve this I like it's well thought out it needs to be modern all year round family friendly and not like old Torbay we also need to nod to the heritage of the Bay it's a seaside town OWN IT also add some features to roundabout at the end large Bucket and spade or something play on that and don't forget to have some connection to the harbour as that should be next		Myself, as an individual; TQ3 3JX	Man White 35-44
Landward - where the sea wall is by Paignton Green	Yes	The limitation of driving space is concerning around the green. Regardless of what happens to the sea front you still need to be able to drive around it. No	Why not include the cycle Lane across the back of the promenade (take Brighton's cycle lanes as an example). New area for business parking on Pier Approach (Spaces);Summer only parking area on the south green (85 spaces);New parking area next to the Vu Cinema (45 spaces);Winter parking only on the northern section of Eastern Esplanade (71 spaces)	better signposting to the multi-storey would be useful as well (and maybe an update of it so the bays aren't so small). Then the tourists will walk		If adding new kiosks they should be vetted appropriately so that this new space isn't brought down by poorly thought out products being sold (I point to the rubbishy trinket shop on Oddicombe as an example). Perhaps Torbay council should keep the ownership and just lease the available shop/kiosk space, this would bring money in and ensure that the products sold are high quality. Yes	This is a great idea, especially if the high street does get pedestrianised. Perhaps a pedestrian at the end to allow people to cross from one pedestrianised to another would be needed. The landward plan is very good. If combining the sea defence wa with planters that would be a great idea. That would maximise absolve space. I do think that the cycle Lane should be brought to the rear of the promenade. Even if this loses a metre of green. The seaward plan seems to have had a lot less work done to it. This would seem to show Torbay Council is pushing towards the landward proposal. Perhaps further work on the seaward proposal needs to be done. However, I am in agreement having such a high wall on the seaward side probably wouldn't work.	1	Myself, as an individual; Tq14qp	Man White 25-34
Landward - where the sea wall is by Paignton Green	Yes	Yes	Winter parking only on the northern section of Eastern Esplanade (71 spaces);New parking area next to the Vue Cinema (45 spaces);Summer only	, down past a lot of the basilesses to the beach.	Yes	Not sure	needed. Sach a night wan on the seaward side probably wouldn't work.	Torquay resident	Myself, as an individual; tq2 7ha	Man White 35-44
Landward - where the sea wall is by Paignton		I like the idea of a wide promenade like other seafront towns, but as a resident living close to the seafront I would like to know the measures proposed to prevent increased parking in our	The proposed plans give wider footpaths, when you are making the promenade pedestrian as well. This will limit the amount of space for vehicles, especially goods vehicles. Reduce the width of the paths to current levels and the cycle lane would fit wider parking only on the northern section of Eastern Esplanade (71 spaces); New parking area next to the Vue Cinema (45 spaces); New area for	Worried about how the south green would be protected from unauthorised encampments if th is made suitable for parking. Also very concerned about the impact of parking on surrounding road we are already full year round, especially with camper vans in the area. Could parking, especiall overnight in the whole area be looked at as part the seafront development? For example, there is no charge to park alongside Paignton Harbour, so	d ds, ly of s	It would be nice to see palm trees and modern styling to make a promenade that is usable. More places to sit and admire the view all year round would be good, the current shelters are few and far	I'm not sure of the purpose of this area, unless it is used for temporary parking/unloading whilst accessing the seafront. Landward - where the sea wall is by Paignton Green		Yes	The summer car park at the end of the green would be better if it was all year parking, that way locals get to park closer in the winter as well as tourist in the summer. Not sure	Just concerned the road will be narrowed for cars, but unsure if that will have an impact. But also agree it would be good to not have cyclists on the seafront for safety. Winter parking only on the northern section Eastern Esplanade (71 spaces); New parking next to the Vue Cinema (45 spaces); New are business parking on Pier Approach (8 spaces)	area you could clean up the harbour car park it's only a a for short walk to the beach but the stairs are very		I think the pictures look lovely, it is great what you are doing. It's time for Paignton to get some money instead of Torquay and Brixham. Yes		I think the plans are great and will definitely make the area safer for children and a lot prettier to look at. Thank you for all your hard work in making this happen.	aignton resident	Myself, as an individual; Tq33	sh Woma	an White	e 45-54
			I think only business parking		space in the summer months where families and children play and use and is very popular away from all the hassle and bustle of the fun fares and events on North greens. Also all the guest houses dont want there summer visitors looking onto a mass car park. It would completely spoil the area. We have only just reclaimed the green from the travelling community with the installation of boulders and gates and is looking lovely. Even with protective webbing the green would be ruined. Also what would the summer season be???? It would start temporary but would become permanent!!!! More appropriate temporary parking could be made at the Rugby club end of Queens Park with easy access to front through the park. Parking between the Vue and crazy golf would be ideal with allocation for disabled parking More parking spaces could be created on the pier entrance road at least 40 spaces not 8 including	h e g.	The area would be great but will need lots of planting and trees to soften to mass of concrete. Plenty of tasteful seating and areas for outside dining. I have concerns about the height of the defence along the green and wonder whether it could be lower but with an additional defence on Esplanade side of green in the form of a raised grass mound or a smaller natural stone wall running along edge of the cycle lane	This area could be really nice and enhance the seafront. A really nice extra large fountain display which could be li up at night would be a lovely visual sight as you come down Torbay Road. Especially when Torbay Road is pedestrian it will link the town to the seafront.						
Landward - where the sea wall is by Paignton Green		Yes	and disabled parking should be near front. No	This should run inside the edge of the green on New parking area next to the Vue Cinema (4 Esplanade Road. spaces);	disabled parking if designed on a angle similar to	Yes	/parking. This would give 2 sea defence barriers. Yes	Palm trees planted to hide the current ugly building.	Although you may need to look forward to build a sea defence wall it has to be done sympathetically and not block the view of the sea by building it too high.	susiness owner	Myself, as an individual; TQ4	6EJ Woma	an White	e 55-64

I am unsure how the landward one will stop the water going down the pier road, I know gates were mentioned but there is no detail of them (also if placed where show on the plan, if they worked, would create a dam. They could not be at a point lower that the rest of the front). The seaward one is massively overbearing and financially not feasible for £3	special events). The south side could be closed during the summer school holidays (as it used to be). Both sides are well used for parking all year round, many people coming to use the cinema and seafront restaurants as well as the beach, evening use shows this. As many people have pointed out many elderly / less mobile people enjoy coming to park on the front to watch the sea,	I think they will continue to use the sefront (those I have asked said that they would). It is a more pleasent view and New parking area next to the Vue Cinema (45	Apart from during the main holidays the footfall along the front does not exceed the current provision (and if the south side was cloesd during the school summer holidays this would not be an issue at all. During the winter it is, unsuprisingly, very quiet down there even when the weather is good. I feel that having parking there outside of the school summer holiday makes sense and causes greater use of the seafront during the 'off'	There seems to be ideas for planters. Please no palm trees, they die. They did in the 1990's and they didn't do well at the palm court development (replace be olive trees). If you look at the few trees on the far side of the green you can see how the wind off the sea has affected their growth. We don't have trees on the seafront for a reason. Also if planting is put in does Tor2 have the funds to look after them, half our planted beds have been grassed over in the last decade. All rather depends on wether the pedestrisation of Torbay A lot of the flooding in Paignton is because of drainage issues and the fact that the water table is not far down in the centre of the town. The basements of many properties used to flood during spring tides (and probably still do). The wall will in no way solve this (or the flooding at Berry Square). If the landward wall is adopted then how would this affect the slope of the land behind? Changes could affect the fairs ability to use the green next to the geo park. I feel they should be consulted about this as should the circus.		
Neither of them million. because my wife is severely disabled and at present we park on the seafront to allow her to see the sea and beach from the car which is a boost to her mental health. The two options would either mean that she would have to leave the car in a wheelchair and be pushed by me up and down ramps, she is terrified of going up and down ramps after an accident on a ramp previously. Also, at present in the	In stead of banning vehicles from the sea front, railings could be placed on the road side of the footpath by the green and designated crossing points put in with zebra crossings for pedestrians to cross the road. Landward - where the sea wall is by Paignton Green Landward - where the sea wall is by Paignton	Not sure	Cars are a necessary evil at the moment - we do not have the public transport infrastructure to reduce car use. In winter their presence is less of an issue and allows enjoyment of our beautiful coast even in poor weather. In summer I can see a benefit in reducing/ removing traffic Yes	But further to comments above, careful consideration must be given to cars. This would be an advantage to pedestrians, if bikes not allowed on seafront - bikes and pedestrians (and dogs) are never a happy combination. Winter parking only on the northern section of Eastern Esplanade (71 spaces);New parking area next to the Vue Cinema (45 spaces);New area for business parking on Pier Approach (8 spaces); Summer only parking area on the south green (85 spaces);New area for business parking on Pier	Consider reduced parking charges for locals in summer / free in winter	Yes Not sur	Not sure if the structure of the sea defence is to be open for		an individual; Tq3	Woman White 55-64
Green	needed perhaps combining a small amount of addition to the existing seaward wall e.g. 0.5m, a small amount of rise on the landward side e.g. another 0.5 so 1m overall not too excessive otherwise will take away the character. But also provide containment along Esplanade Road the wall to retain flood water - i see you've ruled that out at preston but you should think again. There's not much view off Esplanade Rd due	prevent vehicle access from most of sea front, or at least the central section and south of the Vue Cinema. I don't see any reason for vehicle access (except for the Vue but yoiu should buy the Vue out and put it somewhere else inland that would give much better scope and options along the sea front) but need to provide parking elsewhere - e.g. point them towards Victoria Car Park or alterntatively rather than a 3m	I don't think it is needed and certainly not too way there's not enough users. Seems a waste of space - its a public road so no problem cyclists and vehicles on the same road as per highway code. Why not just let	Parking on or close to the sea front is not a good idea. Direct users to Victoria Car Park or put parking all along seaward side Esplanade Road. Parking on south green in summer would not be nice - if the grass is difficult to maintain why make it harder with grasscrete or equivalent. South green is a highly important resource for the bay	Yes nothing to stop making it a better promenade area, that's what many people come for. Prevent car access in its entirety. But good to	There already seems to be a drop off area. Would be better to Need to maintain really good or make better access to the sea for all users - the beach goers, paddle boarders, windsurfers, sailors. entirety, that would give The south green is an important area for the local Paignton Sailing	Myself, as individual Paignton S	Member of ailing Club,	Woman White 45-54
Neither of them	to the beach huts etc and few No structure albeit landscaped stepped solutions, block sea front visibility, & cross sections do not show actual impact of structures on green space as purely schematics. Practicalities - ramp access to beach for vehicles, dinghy boats, and rowing boats, gigs etc Area & access to South Green - Paignton Sailing Club - concerns over the impact on the area of flat ground at Paignton South Green for event management of boats, trailers	wide cycle lane along Esplanade No believe that there should be any parking or traffic movements on beach road or the North & South Greens detracting from the visibility, peace & calm of sea & horizontal area of green amenity space between the buildings and the sea front along both North & South Greens (apart from for event management). For event management we require traffic access for trailored boats to the southeast corner	cyclists use the seafront Eastern Esplanade. Winter parking only on the northern section of Eastern Esplanade (71 spaces); 2 way cycle way should not detract from the area of the Greens essential for event management and should be included within the Promenade, along with roller blading, boarding, scootering etc/ running lanes etc etc i.e. "Green net zero lanes" away Second Second Season	I do not believe that there should be any parking on the Greens or sea front with the Landward sea wall as this detracts from the area of the Greens & recreational use of the sea front, apart from for formal access for Water tourism of rowing, gigs, paddleboards, surf boards, , windsurfers etc & disability to enable & strive for access to all & enable develop of integrated water sports out of Paignton to be the future prestigious dinghy & rowing venue of south west There is a multistorey car park in town 200m from the sea front which should be encouraged The existing Paignton harbour car park is a hidden & relatively unused facility especially on the lower floor Any traffic should be limited to disability parking	Ability to manage pedestrians in order to gain beach access for	Remove the Vue cinema & relocate to out of town shopping area as detracts from sea front experience. This footprint could be made into a lide curstice as the presentation is so schematic, & we were not consulted in early stages. 	Landward would be preferably, but even better would be to have a Sea Wall on Esplanade Road. Having a sea wall by Paignton Green will destroy the character of the sea front, as we have seen in many locations in Kent (Dover) etc where it looks increasingly urban and unfriendly. Not sure	I think that it would be better to reduce vehicles along the seafront, but for many elderly and disabled people this access is a lifeline to the sea and blue spaces. If more parking is not provided elsewhere this would cut off access for a lot of people. I support more parking, but only if the current parking areas are regenerated into green spaces. Yes	Winter parking only on the northern section of Eastern Esplanade (71 spaces);New parking area next to the Vue Cinema (45 spaces);Summer only parking area on the south green (85 spaces);		Yes Yes	Toilets need to be free to all. Toileting is essential in a populated		an individual; tq3 2qj	Woman White 25-34
Landward - where the sea wall is by Paignton Green	No	the car parking remains as it is now as when the seafront has on occasions been closed for roadworks(unless events are taking place) the seafront is empty as access by car is impossible. Priority has to be access for Disabled people . Many Disabled people like us would be denied access to the seafront if the parking was changed, my wife walks with a walker & is on Oxygen and many Disabled people like to sit in their cars especially in Not sure	safety problem on Paignton seafront and cycling should be banned on Paignton seafront. They use the circuit around Paignton green as a racetrack. Cyclists ride at pedestrians on the seafront expecting pedestrians to jump out of their way. I have seen numerous cases of abuse from cyclists who are not insured but they think they own the seafront but ignore all the rules and 2 way cycling has made it twice as dangerous. They regularly ride at pedestrians at speed with abusive comments directed to pedestrians which breaks the highway code. A major problems is at None of the above;	Parking should be left as it is as Disabled people will be denied access to the seafront if we are prevented from parking overlooking the sea as at present & Torbay Council would be guilty of discrimination if they stopped parking. Please adopt the system used at present at Weston Super Mare.	Paignton seafront this will improve safety for all. Parking must be left as it is for Disabled people so they have access to the seafront facilities. Weston super Mare have parking which overlooks the sea and it works very well. If we adopt that model but ban cycling on the seafront(& enforce it), that will hugely improve the area. By keeping the parking as it is will benefit businesses on the seafront, all year around, as many of the customers for seafront businesses arrive by car and in the winter purchase takeaways and take the food back to	The top priority is to ensure car parking remains as it is . The suggestion to ban parking comes from Taylors kiosk who wish to move the kiosk to the seafront road and to block the road with tables in the summer. That kiosk has always been seasonal and all the kiosk owners knew that when they purchased the business. Disabled people must have access in their cars & be able to sit in their cars overlooking the sea all year around as Disabled people and others park all year round and spend large amounts of money with seafront businesses , money they would lose if parking was restricted. Paign	iton resident Myself, as	an individual; TQ3 2BN	Man White 65-74
Landward - where the sea wall is by Paignton Green	Yes	I don't like the idea of using the south green as a car park I usually sit up at the harbour end of the beach as it's quieter and it's nice with harbour lights and the harbour nearby. Turning that area into a car oark would spoil that part of paignton. Not sure	I think the plans said the green would need to be reduced for this option? If we are making cycle lanes then they really need to run from St Marychurch all round the bay to Brixham to make cycling safe in the bay. I am currently not safe using my bike on the road with cars and buses due to hills and narrow roads. The hills mean cyclists cannot move quickly in certain parts of the bay. I think the plans said the green would need to be reduced to	We use public transport but the buses have become less reliable and they don't run on bank holidays anymore so people need to use their cars. Is there anywhere less prominent for car parking rather than directly on the seafront? There is a multi storey car park near the beach in paignton but it looks run down and unsafe and I would not feel safe there. Could this be refurbished?	Seating and planting would be lovely a d seaward facing cafes or Yes kiosks would be nice. Yes	I'm not 100 percent clear Please make any sea defences blend into the landscape as much what you mean by this proposal but linking the road down to the beach is a good idea. Please make any sea defences blend into the landscape as much as possible. The new Dawlish sea defences are concrete block and has spoiled the character of the seafront which used to have natural stone defences like meadfoot beach. Which is more aesthetically pleasing than concrete.	uay resident Myself, as	an individual; TQ1 3TW	Woman White 55-64
Landward - where the sea wall is by Paignton Green Landward - where the sea wall is by Paignton	Yes	I think there needs to be a complete rethink about how vehicles move around the seafront area. it's often gridlocked, but do all those vehicles need to be driving through this area, when most are on their way somewhere else. So I think these new ideas look really interesting. Yes	This is a great idea and the sort of thing we should be doing. As a recreational cyclist, I often feel unsafe on the roads around Torbay, so the more cycle lanes the better Winter parking only on the northern section of Eastern Esplanade (71 spaces); New parking area on the south green (85 spaces); New area for business parking on Pier Approach (8 spaces); Winter parking only on the northern section of Eastern Esplanade (71 spaces);	However, it's footprint can still support a number of spaces that are a short walk away from the seafront. Only surprised this has not been done before as cyclists and children do not mix. So many cyclists (young and older) hurtle along the promenade and existing cycle path/footpath, with no regard for elderly		bombarded with footballs from 3/4 different groups trying to play football. If the area were reduced they would be even closer to the huts. I would make the observation that years ago there were beautiful trees lining the grass by the hedge (limes I think) with seating underneath, which were very popular, being shady. The Council in their wisdom cut them down, removed		Looking at the plan, if I am reading the plan correctly, our hu would go and be replaced with toilets. Presumably these being relocated from the current position behind Sarahs. This would not be my preferred option, although overall the plan looks good. I am hoping that with the improvements cyclists would not longer be permitted on the promenade. Some of the	5	There do seem to be a lot of steps - thinking about the elderly		The popularity of becoming a hutter seems to have grown over the last few years, with large family/friend groups associated with one hut. Any reduction in space is going to

es No. Bikes should be on the road they cycle far to fast on that path and our rude to older people how walk on it by mistake Ses It seems that the new cycle path/footpath takes a lot of space from the green. Cyclists probably won't benefit greatly - indeed - why would they use it. But the reduction in space for using the green would be definitely noticed. Maybe reduce the pavement width to accommodate ocyclists more easily on the road. There should be adequate Walking areas around Preston Seafront. Mainly in the Summer it is taken up with Large groups of People all along from the furthest end right down to the Boathouse restaurant. Quite unable to enjoy the seafront walk I can go ether way with ether new or reconditioned shelters. The old ones have a certain identity which I'd like to see retained. Replacing with new modern shelter would look great, but would only date, and possibly fairly quickly. With the unpredictable weather we have I've used those shelters many times when on a walk and wanting to stay dirty in an unexpected downpour! Solar panels on the roof to power lights inside the shelters so they are always well lit would be a nice addition to. Stop bikes on the promenade I have been stopped buy holiday makers who complain about the lack of tables and free toilets lets make Preston free and accessible to all plus stop people breaking the rules and taking dogs on the beach in the summer employ a dog warden. The shelters are really important. It isnt always sunny and hot in Paignton. The old style shelter have character and purpose. Happy to integrate with more modern things including play areas or planting but have to have somewhere to shelter from the wind and rain. I think there needs to be plenty of seating and bins. I agree with the alignment along the existing promenade. Please do not get rid of all of the large green space as children play games, families have large get togethers and some fitness teams use the areas. Please also ensure some beach huts remain accessible to everyone. If they are all on steps, young families with pushchairs or people in wheelchairs may not be able to access them. Toilets - there definitely are not enough during a busy summer season. Typical example is the Airshow, there was a constant queue of approx 25/30 people waiting for 30 mins to use the loo! Lockers would be good. Not sure how this would work but for people who don't have a beach hut it would be good to have somewher	Paignton resident Preston resident Torquay resident Torquay resident Torquay resident Preston resident Paignton resident Business owner Preston resident	Myself, as an individual;	tq3 3ul TQ32NS Tq33pd TQ2 6LS TQ3 1BS TQ1 1SJ TQ3 2PQ Tq3 3BT TQ4 7JE TQ3 2PA TQ3 2PA TQ3 2LS TQ3 2LS	Woman Man Woman Woman Man Woman Man Woman Prefer not to say Man Man Man Man	Mixed/ Multiple eth groups White White White White White White White Prefer not to say White Mixed/ Multiple eth groups White White White	45-54 75+ 25-34 45-54 65-74 65-74 75+ 55-64 Prefer not to say

Would like to know what the informal play area proposals would look like in comparison to existing area. Also the green space is currently heavily used for ball games. Any design should consider the impact on how this space is currently used. Ye Already have play and seating areas on the green. Presumably to enable this, car space would be restricted! Rather depends on what and where. Danger of play straying on	Not sure Yes Yes Yes Yes Yes Yes Yes Y	Yes Yes Yes Yes Yes Yes Yes Not sure Yes ree toilets aning what's oring repeat ok before Yes Ks confusing designed. Yes Yes Yes Yes Yes Yes No No No Yes Yes Yes Yes Your content of the design of the	No I would suggest if you are raising the beach huts and putting steps in that you also include a wheelchair ramp to the beach huts. Would beach hut then be sited on a narrow footpath and stepp	Retain and recondition Retain and recondition Replace with new shelters Retain and recondition Retain and recondition Retain and recondition A mix of new shelters and seating and art work Retain and recondition Not knowing the coatings for each option it's hard to choose a definite option. Replace with new seating or public art areas Retain and recondition	think about access for the grounds teams, weed control etc. Looks good to me! There should be adequate Walking areas around Preston Seafront. Mainly in the Summer it is taken up with Large groups of People all along from the furthest end right down to the Boathouse restaurant. Quite unable to enjoy the seafront walk I can go ether way with ether new or reconditioned shelters. The old ones have a certain identity which I'd like to see retained. Replacing with new modern shelter would look great, but would only date, and possibly fairly quickly. With the unpredictable weather we have I've used those shelters many times when on a walk and wanting to stay dirty in an unexpected downpourl Solar panels on the roof to power lights inside the shelters so they are always well lit would be a nice addition to. Stop bikes on the promenade I have been stopped buy holiday makers who complain about the lack of tables and free toilets lets make Preston free and accessible to all plus stop people breaking the rules and taking dogs on the beach in the summer employ a dog warden. The shelters are really important. It isnt always sunny and hot in Paignton. The old style shelter have character and purpose. Happy to integrate with more modern things including play areas or planting but have to have somewhere to shelter from the wind and rain. I think there needs to be plenty of seating and bins. I agree with the alignment along the existing promenade. Please do not get rid of all of the large green space as children play games, families have large get togethers and some fitness teams use the areas. Please also ensure some beach hust remain accessible to everyone. If they are all on steps, young families with pushchairs or people in wheelchairs may not be able to access them. Toilets - there definitely are not enough during a busy summer season. Typical example is the Airshow, there was a constant queue of approx 25/30 people waiting for 30 mins to use the lool Lockers would be good. With the unpredictable weather we have I've used those shelters many times when on a walk and wanting to stay dirty in an unexpected downpour! Solar panels on the roof to power lights inside the shelters so they are always well lit would be a nice addition to. Stop bikes on the promenade I have been stopped buy holiday makers who complain about the lack of tables and free toliets lets make Preston free and accessible to all plus stop people breaking the rules and taking dogs on the beach in the summer employ a dog warden. The shelters are really important. It isnt always sunny and hot in Paignton. The old style shelter have character and purpose. Happy to integrate with more modern things including play areas or planting but have to have somewhere to shelter from the wind and rain. I think there needs to be plenty of seating and bins. I agree with the alignment along the existing promenade. Please do not get rid of all of the large green space as children play games, families have large get togethers and some fitness teams use the areas. Please also ensure some beach huts remain accessible to everyone. If they are all on steps, young families with pushchairs or people in wheelchairs may not be able to access them. Toilets - there definitely are not enough during a buys summer season. Typical example is the Airshow, there was a constant queue of approx 25/30 people walting for 30 mins to use the lool Lockers would be good. Not sure how this would work but for people who don't have a beach hut it would be good to have somewher	Paignton resident Preston resident Preston resident Torquay resident Torquay resident Preston resident Paignton resident Business owner Preston resident Paignton resident Paignton resident Paignton resident Paignton resident Paignton resident Preston resident Paignton resident Preston resident	Myself, as an individual;	tq3 3ul TQ32NS Tq33pd TQ2 6LS TQ3 1BS TQ1 1SJ TQ3 2PQ Tq3 3BT TQ4 7JE TQ3 2PA TQ3 2PA TQ3 2LS TQ3 2LS TQ3 2LS TQ3 2LS TQ3 2NT Tq4 7IS vho TQ2 TQ3 2AF TQ3 3ANW	Woman Woman Woman Woman Woman Woman Prefer not to say Woman Woman Man Woman Man Woman	Mixed/ Multiple eth groups White White White White White White White White Prefer not to say White	45-54 75+ 25-34 45-54 65-74 65-74 75+ 55-64 Prefer not to say 65-74 65-74 65-74 45-54 45-54 45-54 45-54 45-54 55-64 65-74 45-54 55-64 55-64 65-74 45-54

1.0 Comments on Paignton and Preston seafront

General Introduction on Preston seafront masterplan and 3D Visuals.

AL: Was the width of the cycleway enough to accommodate two-way cyclists?

KB: Less than 3m currently similar to the existing width.

AG: Maintaining 3m for the cycleway would be ideal and new infrastructure should be an example that it complies with the standards

Like the idea of separation between the cycle path and walkway by concorporating greens

In marine parade, consider the level difference on the pathway there for cycle route and pedestrian area during detailing stage. To include wall edge to the cycle route.

AL: Yet to confirm active travel funding

KB: At the moment the additional footpath, play area development are currently shown in phasing as future developments.

General Introduction on Paignton seafront masterplan and 3D Visuals

AL/AG: Its good that the cyclist route has been designed in such a way that its segregated avoiding the issue on speeding and clashes with pedestrians.

Soft kerbing along the cycle route is ideal to avoid overlapping of traffic.

Parking meters (possibly solar powered) to be provided along the seafront positioned landward/seaward

Careful review over provision of Disabled parking underneath the shoreline.

KB: Disabled parking and signages will be implemented for the same.

AL: Review the total number of bike parking along the seafronts

KB: It could also be possible to implement a cycle maintenance point.

AL: During an event, public dressing rooms and bike storage areas could be handy.

JP: Before final workshops there could be a pause to review the technical specification on plans and follow up on HRA assessment from the team to review any impact on the seafront from the process of construction.

Minutes of Phase 3 Preston & Paignton Masterplanmeet Jennie Davies (Chair of the Beach Hut User Group) & Sara's Kiosk

1.0 Comments on Paignton and Preston seafront

JD: Repositioning the saras, café behind the flood defence wall?

SG: Concerned about the currently proposed relocation of Sara's Cafe due to its proximity of it to other businesses nearby.

Prefer to be in the same existing location and prefer enhancements of the cafe's surroundings with the flood wall hatch/going in front of the café.

KB: Could provide accessible ramps leading up to the deck.

JD: Good to have the beach huts on the landward side all year along.

SG: Currently the deck is on the side, would be better if it's provided on the prom front.

KB: Ramp in and will include the flood gate as well.

To be followed up with Simon regarding the number of beach huts and related information.

JD: Will the north end of Preston Green get toilets developed?

Additionally, a full-size basketball court might be halved, extended 2m along current play court along with other swings installed, play areas, and a section of Bob's Patch reserved for usage by young children while still maintaining a variety of small-scale sporting events.

SG: Good signage to be provided to direct cyclists off the prom and on designated cycling lane.

JD: Existing shelters to be re-conditioned.

SG: Provisions of more seating on the prom

JD: possible storage for canoes(Stored/locked/rented) on the seafront? *

Also provisions of anti-skate studs to deter skate boarding activity on the prom.

Revised location of sara's café to be updated on plan and keeping 2 options along with the existing plan.

Minutes of Paignton & Preston Masterplan Focus Group-children's week

1.0 Comments on Paignton and Preston seafront

- 1.1 Issues with speeding on Paignton Eastern Esplanade Road and the possibility of installing speed bumps.
- 1.2 Half marathon: Popular coastal event requiring scaling the entry gates/flood gates and the seafront of Paignton should be large enough to permit adequate room for the half marathon activity to take place. The event has a traffic-free two-lap circuit beginning and terminating on Paignton Green. Allowing no cars and crossing along the seafront during the event.
- 1.3 Positive public reaction stating that the plans have improved since the last consultation
- 1.4 Positive comments on Preston and Paignton's seaside lighting proposals, along with suggestions that retain Festoon Lights.
- 1.5 Potential to provide more parking along the seafront needs to be reconsidered for businesses or alternative future car park facility -Victoria car park, Resident parking permits for Paignton Road Parking.
- 1.6 Raised kerbs to the cycleway.
- 1.7 Potential to provide more access points and openings along the wall on Preston seafront beach huts line and increase the possibility of more cross points between the green and the promenade
- 1.8 Provisions for more toilets on Preston green in the future.
- 1.9 Resident parking permits for Preston -Road Parking.
- 1.10 Preston Ramping solution should be reconsidered with access to shelters and rearranging the beach huts on the promenade and providing an additional row on the green to be tested.
- 1.11 Disabled parking spaces must be in close proximity to the nearest access point along Preston Beach.
- 1.12 Lighting locations between the promenade and beach huts need to relocate and tested to not cause any visual obstacle
- 1.13 Sectional details to be provided along the amphitheatre area on Preston beach.
- 1.14 Potential cycle route on the closed prom on Paignton seafront
- 1.15 Recycle dustbins, drinking water facilities details to be included in the detailed plans in the upcoming stage
- 1.16 Wildflower Planting design on the seafront received positive feedback
- 1.17 Wayfinding to be included in the detailed design stage.

1.0 Comments on Paignton and Preston seafront

General Introduction on Preston seafront masterplan and 3D Visuals.

Open Discussion:

Very limited use of the cycle path on the Preston seafront by cyclists.

The motorist uses the existing cycling lane and there is an overlap of traffic.

The number of parking on the seafront is limited and could be reconsidered.

Possibility to flip the foot path and cycling lane on the Preston seafront between the cyclists and pedestrians?

Prioritize the children's play area/dog free in the fenced off space in bobs patch where the basketball development is being proposed.

Provision /enhancement of different play/activities.

The full-size basketball is too large for the area.

General Introduction on Paignton seafront masterplan and 3D Visuals

Is there any visual hindrance from the beach towards the seafront?

Consider reducing the green edges to compensate towards the main road area and potential to increase car parking to 150?

Or parking on green for summer only scenario (final detailed plans could reflect the same)

Could be revised as out of coastal plan option.

Discussion on the funding, timeline, and further steps.

Overall positive feedback on the proposed plans.

1.0 Comments on Paignton and Preston seafront

General Introduction on Preston Masterplan and 3D visuals

RP: The color and character on the proposed Preston seafront are great

JP: Additionally, the precise number of beach houses have been kept, making the users pleased.

General Introduction on Paignton Masterplan and 3D visuals

RP: The utilisation of the landscape and planting terraces, in particular, is excellent in the seaside concept overall.

Generally favourable responses to the Design.

Minutes of Paignton & Preston Masterplan Local Business Workshop

Held on: 8th September 2022 17:30-19:00

1.0 Comments on Paignton and Preston seafront

Open Discussion

KB: General Introduction on Preston seafront masterplan and 3D Visuals.

Is the Marine parade included in the flood defense scheme?

There is this issue of winter floods and rupture of sewers holding capacity during hightides and the current scheme seems to push the water down to Marine parade area.

Turning corner of the parade pathway to be widened.

Will it be a charged parking along marine parade?

Conflict of traffic from the corner to main road in spite of signage and heavy-duty vehicles.

KB: General Introduction on Paignton seafront masterplan and 3D Visuals

Are the Kiosks behind the flood defence wall?

KB: The year-round kiosks are situated beyond the wall, and the seasonal kiosks are situated close to it.

Businesses are close to one another, which might be problematic.

Is it possible to scatter the kiosks between the geo play area and south green end?!

Improvise toilet provisions on Paignton and Preston seafronts.

Possible to maintain the Kiosks' present placement while reconfiguring and updating the plan?!

At key nodes, signage for the southwest coastal walk could be indicated.

Include ice cream kiosk next to the geoplay park café.

Paignton club: willing to shift entry way to simplify car movement /traffic on the seafront.

General Discussion of Torbay Road pedestrianization and station square plans by PJA.

Masterplan to indicate a 1-way link of cycleway left of Vue cinema.

The northern end of the Paignton green could pose potential difficulty for vehicular access with the current turning radius on the seafront.

Understanding of the proposed materiality of the schemes could tie in right from station square to seafront

Ownership plans will be sent through for reference (NM)

Torbay road plans will aim to reflect the details of LDA's plan/proposals /linework at the Torbay Road and esplanade junction (DM)

Proposed Materials for Torbay road and Station square areas(potential to incorporate uniform materiality from station square to seafront) along with Planting palette.

Taxi arrangements, smaller linear support points are planned to be included at different points on Paignton.

1.0 Open Discussion

KM: Discussions on Beach nourishment concept put an end/conveyed with analysis reports on June 8th Council workshop

Cycle route on the main road, no need for two-cycle routes, mini-summit on active travel,

JP: No update on the bidding

KM: beach nourishment was not a valid contributing factor for coastal defence, no challenging factors, from pier owners, Community partnership is difficult to convince regarding the line of defence towards seaward

Tim Jones: Public consultation exercise communicating with the vast majority of Paignton and Torbay, Preston community. Reassured community partnership members on eliminating beach nourishment. RH speculated on a high vertical wall and partnership never supported the beach recharging idea as a solution in part or whole.

KM: Respond to RH view and wave modelling

TJ: Community partnership to be sent the technical note/reports, recurved wall with steeped adapted promenade suggested by CP and they prefer the set back option. Exercise on executing the wave tank modelling.

KB: in the whole, the wall height was 7, and wave modelling would lead to a change of about 200mil or less. A third of the height of the wall (2.4/2.3). the public wouldn't prefer the 2.4 wall height, also cars being a constraint on the seafront. Public from consultation preferred the setback option in spite of the potential of losing the prom in 100 years and responding to CP with the public view.

KM: Responding with a narrative (public feedback, technical report)

TJ: two options compared: Rock Armor/ seating with the vertical wall may bring down the wall height and wall with 1.8 m or the setback wall with lesser height, which would be preferred?

JP: Is it the best use of public funds, making sure to be factual in responding

KM: Budget constraint and working towards/starting to allocate additional funds.

Representatives of community partnership

KB: a complete group of Community partnerships would be better for stage 03 engagement

KM: It's not a good use of public money to take in the option of a recurved vertical wall and proposals in front of it, as the majority have preferred the setback option

MM: Opinion of 2/3 of community partnership shouldn't affect the progress of

JP: 70% preferred the landward option

ST: the Consultation outcome/figures speak for themselves that the landward option is preferred widely, and CP is not the actual representative of the local community.

KM: we have the response and evidence/ figures

Circulating technical report,

Removing Kiosks/ new Kiosks related to business

Have a conversation about the exact line of defense, the concern of moving the Victorian kiosks needs to be discussed further

KB: Moving the wall seaward would increase the height again and taking a step back reassigning the Kiosks with vertical wall 3d-views for giving the idea of taking in more of the green space which was not ideal

KM: Practicality of tress on prom or practicality of the scheme for getting the realism.

KB: Options with eye level to make it more realistic showing greener areas on prom

KM: Mediterranean planting options along the prom

2.0 Consultation feedback Discussion(Paignton)

JP: Feedback/outcome graphs, More reach with the public in 2nd stage engagement

Paignton: Landward Option preferred (205) over Seward option (43)

KB: Surface water issues to be addressed

ST: quoting people's responses and headlines is the real key and capturing the feedback from businesses people through questionnaires

KB: Hybrid ofc cycling route to make it safer

KM: Leave it at the cyclist on-road idea

JP: Summer parking on south green not preferred, new arrival area on Vue cinema /Torbay Road

KB: new visuals

Planting not being maintained and disables access towards beachfront

ST: Incidental play/stepping stones ideas on seethe afront, holistic masterplan

KB: Potential to revitalize/replace the play area in 5 years from (Sisco meeting)

KM: no succession plan on geo play park and it is not sustainable at all

JP: User group figures and graphs on social media engagement (Torbay council Facebook page being the highest)

3.0 Consultation feedback Discussion (Preston)

- 3.1 KB: Work around the idea of keeping the existing cycle path with incidental play and seating etc
- 3.2 JP: Family themes beach and welcomed the idea of play and leisure etc Shelters to be retained and reconditioned
- KB: Confusion between Paignton and Preston shelters, working around having the existing shelter / keeping new and old together, keep it flexible
- ST: concerns about winds against shelter and wind protection
- KM: more contemporary design options for shelters and keeping the new modern shelters durable
- KB: Design ideas concern public feedback on fear of losing beach huts, better bins, and more new toilets
- KM: Investment on public toilets and significantly improved, capacity wise northern end was reopened after last year actions, in terms of facilities it's improved
- KB: Retaining the play area and double the size of the basketball court for games. Impromptu events and attractions on the green without impacting the beach huts
- KM: Adult play/ call for sport includes changing rooms
- JP: Fencing around play park to be retained
- KB: railing and fencing will be retained in play
- JP: Location of Sar's café to be retained
- Reducing the plinth of the beach huts towards green.

Final Comments: Responses from other groups, the reach that was wanted was justified through new seafront masterplans, positive feedback data to be circulated to all 36 members or have a call member briefing on teams, and positive response addressed through the press, Increasing finance with EA, Cost of the scheme.

Phase 03: Timeline to be scheduled

 $6^{\rm th}$ of July: Next meeting Paignton Coastal Defence Scheme/Public Realm Project Board

Deadline to submit the planning application: end of the commission.

1.0 Comments on Paignton and Preston seafront

General Introduction on Preston Masterplan and 3D visuals

KB: Indicative parking plan introduction

SH: Parking adjacent to beach huts near the Marine parade causes issues with circulation and access

KB: rethink the strategy around the same area.

SH: Disabled parking near toilets and loss of fee-paying parking lots.

SH: Will there be a loss of green?

KB: There will be a very little amount of loss of green by adding new pathways, incidental play, and cycling.

General Introduction on Paignton Masterplan and 3D visuals

KB: Phased parking, with central pedestrianized closure of prom area with provisions of parking on the North and South seafront. 131 parking spaces in total 115 parking lots with 16 disabled bay parking designated adjacent to toilets, Esplanade Road as well.

SH: A private parking bay next to the Vue theatre on Esplanade Road is planned and will be included in their lease. *

KB: If the loading area is reduced additional plots for parking can possibly be reconfigured and provided.

Depending on the volume of traffic and the time of day, a service access route may be used for garbage collection points and access.

SH: service access should be feasible and can be consulted with Vue cinema owners.

KB: Key crossing points and pedestrianized areas during high volume of ped

SH: During high season might queue up until the railway bridge crossing due to the traffic light locations.

KB: Currently, the bicycle path is intended to be shared with the pedestrian route, even though we have heard that cyclist speeding is a serious problem, and the future scheme would provide a cyclist route on esplanade road as well.

SH: POV: The movement of vehicles on both sides and the provision of pedestrian lanes in the middle are more worrisome and dangerous for children playing and cycling in these lanes, as well as speeding issues for cyclists.

From the visitor's point of view, when there are no cars -provide no cyclists either.

KB: The risk of overspeeding can be addressed by using signs on the right way for directions, guidance, and reminders.

SH: The total amount of parking spaces they lose leads to lost income for the council. With this in mind, also address the issue of parking near the Vue cinema.

To allow some parking is good predominantly due to loss of income for the council and there is no alternative area/facility to provide spaces for parking. So it's good to compromise by partial closure.

More disabled parking numbers are to be provided near the northern green in Paignton due to the long proximity to Preston.

The parking area near Geo Park café should be reconfigured/rethought

In the Pier approach will there be a loading bay and zebra crossing during the high season of events? *

KB: Loading bay is provided and zebra crossing can be incorporated. *

Overall positive comments on revised plans and ideas that reflect and meet everyone's needs.

Vue cinema parking scenario to be followed up *

1.0 Comments on Paignton and Preston seafront

KB: General Introduction on Preston seafront masterplan and 3D Visuals.

DP: Green space is still inaccessible from a vehicular perspective, is it still the case?

KB: bollards are provided creating boundaries between the green and its premises, vehicular inaccessibility doesn't change.

KB: Placement of beach huts all year round on the landward side will it be an issue?

JTL: Beach huts have previously been vandalised and need to be protected.

General Introduction on Paignton seafront masterplan and 3D Visuals

PD: Assess the access situation for the seashore while construction is taking place on the site.

JTL: The provision of the revised planted terraces as seaside defence strategies is beneficial as embankments on the green.

Overall Positive feedback on the proposals.

Do you have any comments on these plans? These can be positive, negative, what you like or don't like.

The plans for Paignton seafront are a big step forward from what is there currently - it I ooks fresh and modern. We need to be careful that there is adequate parking provision though, I agree with taking it away from part of the seafront, but where will the cars go? We don't want drivers to give up when they see no parking and drive on to Teignmouth or Dawlish instead. I'm not sure about the amount of timber cladding proposed for the s eating areas - what is its expected lifecycle in this location? We don't want it looking w orn and tatty. Finally, while I like the idea of making use of the front of the steps, I HAT E the poetry idea

21 August 22 Clinton Green					
AGREES	DISAGREES	REPLIES			

Frankly, considering the heights that you are talking about raising the barriers to, the im ages are misleading as they are visualized at virtually the current height and not the ext ra 4 feet that you are proposing. Secondly, the obsession with abolishing cars from Pai gnton is beyond stupidity, people prefer cars and trying to change their opinion is not th e council's right and by continuing on this track all the money being spent by building n ew hotels and improving infrastructure will be a waste as ghost towns will not need the m, however, as somebody said Teignmouth, Dawlish and other seafront towns would b enefit. We are already seeing plans to make Torbay Road pedestrianized which will re move even more parking spaces and I expect it to cause considerable traffic problems as the removal of a main route to the seafront will be lost, I feel sorry for the people wh o live above the shops, where are they going to park, including overnight? Victoria car park is half closed nearly all the time for supposed structural problems, people come he re to go to the beaches, it might surprise you that most will drive here particularly as the rail service is expensive and not particularly good and if you make driving here even m ore difficult, they will not come here, if your aim is to destroy the tourist industry then co ntinue because you are going the right way. The shelters need to be maintained if this i mage is to be true and the councils current record for looking after shelters is abysmal, will it improve? There is also the question of planting flower beds for improvement / wil dlife targets, the current theory was to grass over as many flower beds as possible so t hat it cost less to maintain, once schemes like this are put in place the council must ,m aintain them but I have little faith they will do so.

21 August 22

AGREES	DISAGREES	REPLIES			
O	O	O			

Its great that there will be a car free area of the seafront. Also, the improvement of the pedestrian transition from Torbay Rd to the seafront is long overdue. While I understan d concerns about parking spaces for visitors, it's crucial to increase pedestrianisation t o improve the quality of peoples experience experience of Paignton, particularly for fam ilies.

Not sure about the reduction of the size of the turn around area at the end of Marine Pa rade. Cycling routes should be moved to a much earlier part of the schedule and not s hare access with pedestrians - never works for the cyclists. Good to see lockers and a push on wild flower planting (I think this is low maintenance, environmental friendly opti on) but I would personally prefer to see more planting around the edge of the esplanad e. As for fewer car park spaces, I don't have an issue with this (I prefer the way Presto n seafront is laid out with the cars on the roadside not the beach side). But for others I would want this tied into a safer Victoria Car Park with residents able to use this at no c ost. I'm not sure there has been much consideration for young people as part of these plans to use this as an opportunity to address the boredom they find with the area? Ho w many of our young people play basketball? Are there not ways to tie in Paignton sea front, Victoria park and the skate parks in a more youth friendly way? It would be good to see these plans supporting girls engagement in sports (yes, I know girls play basket ball, skate etc) but it is always male typical sports we see catered for.

Do you have any comments on these plans? These can be positive, negative, what you like or don't like.

Questions mostly Preston plans - what is the treatment for the Marine Parade end in te rms of gates and barriers across from near the toilets to the properties and will those ga rden walls be improved also. Paignton plans - A lot of parking has been removed this al ong with all the parking at other sites in Paignton such as Crossways and the entirety o f Torbay Road plus in the future Victoria Street how does this leave a viable tourism an d shopping destination. How many spaces are being removed across the proposals an d has the removal of these spaces and impact been measured in conglomerate with th e other expected proposals. The lorry and disabled turning circle behind the Restauran t looks fairly risky for pedestrians will this be time limited and how will it be made safer. The Torbay Road proposal is only supposed to be a trial but the road layout implies and states this is permanent and vehicles could never make the required turns with no feed er lane here or at any other junctions at Kernou Beach and Garfield or similar as there i s now no other way to reach this side of the town centre and the shops and businesses . In a similar way how would any construction vehicles or fire engine reach this seafront area in future if they cannot go under the rail bridges and if they cannot go over the bri dge off Dartmouth road to Whitstone Road with the level crossing on Sands road being fairly tight as Torbay Road will be closed. The narrower road layout restricting turning s pace and the new cycle lane road side could lead to additional pedestrian and bike conf licts when you consider the leisure activities that occur here. Are the gaps in the sea w alls to reach the beach at Paignton South wide enough to allow for boats specifically for the sailing events to use the green and access the beach for racing as this space is us ed now. What is the treatment for barriers and walls at the Paignton club end also. Lots of unknowns still, it appears. Thank you.

24 August 22			
JC10	JC10		
AGREES	DISAGREES	REPLIES	

Generally plans look good. As mentioned by others I'm not happy about removing parking spaces though. And as for shared pedestrian/cycle paths, that's an accident waiting to happen. Would need a total ban on electric bicycles and electric scooters on such paths.

Delighted that lockers have been added to the proposals for leaving valuables when sw imming, it could be expanded to include a provision mid way along Preston green. Plea se consider easy disabled access at various points, along with parking provision for lon ger than 30 minutes in a disabled space. The wildflower planting is appreciated, but think Paignton end looks a bit sparce on the planting/green front. This Summer with increased visitor numbers has proven difficult to park at both Preston and Paignton, walking large distance is not an option for many.

On Preston seaward side accessibility Ramps seem excessive and misplaced. Plans f or these as indicated by point 5 unnessarily reduce volume of seaward beach huts. Pr eference for disabled access should be based on location of huts next to existing acces s ramps. Would be good to see some designers actually look at how beachhuts are use d particularly at a busy period rather then impose rather then generic design. Locating huts in front of shelters seems a bad design move too as effectively will become antisocial hotspots as hidden from view.

26 August 22 Mike w			This is a good idea, however as a beach hut owner I would like to say that cyclists use the promenade rather than the cycle lane provided. They speed along way to fast, with all the children using this area I feel a ban on cycles should be imposed. The beach m

26 Augusi steve.l	baldwin		On reading the comments below and also my own comments added on both previous p hases, it's quite clear as always Torbay Council with it's out dated approach will do exa ctly what they want where is the you said we did part of this???? Where is the we co	
AGREES	DISAGREES	REPLIES	nsidered these questions actions and this was the outcome???? It's simply this is what we want to do what do you think? We don't care Have this It's a joke really it's 202 2 and these plans are not exactly well thought out and future proof. It's basically hiding a wall with a bank and carrying out repairs that have not been carried out for years. Th	
			e reason it needs such an uplift in investment is by lack of investment and upkeep. Wh ere is the view for the future. Where is the welcome area from town that was highlighte d. Why is that eye sore of a cinema still there. Why has the Parking issues not been ad dressed wholesale. It's nice to park on the front but it's full of mobile homes and travels so what's the point in keeping it. Where else do you go though. The wreck of a carpark near town you simply have let go to ruin before you fell off to the highest bidder for dev elopment. Everything this council touches goes to waste it's time for change. Pavilions I'm Torquay all the councils fault yet shout for glory when volunteers pick it up Oldway same Paignton town same Paignton old cinema same So poor things need to change i mprovement is needed. It's time to step into the current times it's not 1970 anymore pe ople want more than a few fancy benches, some scabby beach huts and a cycle lane Poor performance here	
27 August	t 22		Are there going to be ramps as well as steps for access for all? Do these plans include improvements to Goodrington seafront as it also part of Paignton?	
AGREES	DISAGREES	REPLIES		

Do you have any comments on these plans? These can be positive, negative, what you like or don't like.

Dear Sir, The plans for Paignton seafront will not provide sufficient protection from floo ding as the splash wall with the wave deflector is not now being built so the waves will not be deflected back into the sea. This is a major blunder. Secondly pedestrians do no t feel safe using Paignton seafront because of speeding cyclists. Car owners unlike cyc lists obey the law and drive slowly & amp; carefully but the majority of cyclists now feel t hat they are above the law and I see it all the time down Paignton seafront, cyclists ride at high speed along the seafront, they do not Give Way to anyone, if they approach a crowd of pedestrians they swerve wildly around them and abuse them or they ride at th em and often shout threats and I have seen numerous near misses over the years invo lving young children who have narrowly avoided being hit bey cyclists . Cyclists often tr eat the seafront as a racetrack riding as fast as possible so cyclists should be banned f rom the seafront as they do not possess insurance and ride in a anti social and danger ous manner. They have no regard for the safety of pedestrians. Also the parking space s between the Redcliffe and the pier are not enough. We are disabled and we like to pa rk on the seafront and walk to the harbour but we will be unable to do this and so will m any older and disabled people. It is nice to park and watch the sea but we will be unabl e to do this under these plans which in fact penalise local people such as us & amp; will cause resentment. You have a responsability to ensure that disabled people are able t o access the south end of Paignton seafront by car & amp; these plans fail to do that. P aignton seafront is deserted when you stop parking. We have seen this on numerous o ccasions particularly in the winter when cars are prevented by roadworks from using th e seafront, the place is empty. Seafront businesses lose considerable amounts of mon ey and apart from July and August & Dank Holidays, seafront businesses are hea vily reliant on local trade which vanishes when the seafront is closed to cars. Many sea front businesses will close if the plans to stop cars parking on the south end of Paignto n seafront go ahead.

30 August	: 22	
AGREES	DISAGREES	REPLIES

A great step forward although I have to agree that, from the perspective of a pedestrian and a cyclist, protected cycle routes are a much preferred option than a painted gutter or shared space with pedestrians. Overall I do like that the designs make good use of the landscaping opportunity provided by the sea wall and that part of Esplanade Road will be car-free year round. Those objecting to removing cars seem to forget that there were far fewer spaces when the road was closed for summers gone by!

I do worry about the amount of traffic coming into Preston. As it's the main rd to the sea front The speed they drive down seaway rd has got out of hand. Racing around the cor ner under the bridge. With less parking on the front everyone tries to park on the back streets and they are becoming race tracks. There is no time to cross the road and the d rivers don't slow down for anyone. There are a lot of disabled using mobility scooters/w heelchairs ,my husband is one of them. Everyone trying to get to the beach. Making the promenade safe is one thing but I feel there should be speed deterrents down Seaway Rd and along the front. So many vehicles driving up the wrong way as well. You have to look at the bigger area than just the promenade. Parking is horrendous at the best of times since the pay and display came in Preston.

Do you have any comments on these plans? These can be positive, negative, what you like or don't like.

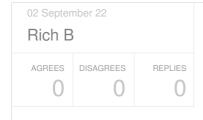

Looking at what the general view on parking was from earlier survey opinion, I cannot see why the amount of parking is being reduced. With the loss of many other spaces i mminent throughout the town I have to agree with the majority that this will push peopl e away. Also the pedestrianisation is a wonderful concept but will it not just add to traffic chaos when Torbay Road becomes pedestrianised. Also a loss in revenue from less spaces, no doubt yet another parking price hike to cover this loss? I also agree with the majority about the shared pedestrian & map; cycle paths, these do not work. My children have also almost been knocked down by speeding cyclists. I do like the plan of the defence wall (no doubt we need it with rising sea levels) but I do feel the rest of the plan needs looking at further.

Big improvement over the previous designs, fully support the removal of parking/traffic along the central section in front of Geoplay Park / Cinema although I'm not sure about vehicle access to the south of the cinema as this will mean a lot of traffic near the entra nce to Pirate golf, this access may be better moved to south of Pirate Golf. I see others are commenting on parking, but there is plenty of parking at Victoria car park (for those who don't have special access needs), can access/signage etc be improved to make th is more accessible and more obvious? As a cyclist I do not use the Paignton sea front at busy times and use the road instead, a dedicated cycle path by the road would help those less confident riders. In Preston the addition of a footpath next to the road-side c ycle way would help as there are often pedestrians on this dedicated cycle path (oh the irony). Can we also have some more detailed drawings of the "seafront flood barriers" and what these will look like when open/closed?

I own a home, a beach hut and a business in Preston. I'm also Bob's (who Bob's Patch is named after) Grandson. Firstly, the plans look great and really pleased to see the im provement from the first ideas. I don't think that a full size basketball court in Bob's pat ch is a good idea. And it's something that Bob himself was opposed to when he first rall ied for the courts to be put in place. The courts are and should remain for social use on ly and not encourage competitive games. There are plenty of alternative sites nearby (Parkfield, Oldway) which could and are better placed to facilitate organised competition and a higher standard of players. The idea that children playing could be kicked off the courts to accommodate organised events/training sessions would be disappointing and a full size court would attract older more competitive players. The area attracts young children who shouldn't be in the proximity of a full sized basketball game. Also the current design and proximity of the nets allows for younger children to play small social games with nets at a reasonable distance apart. The money spent changing the courts could be better spent improving the upkeep of the current courts or even adding a similar sized football pitch (AstroTurf?) with some mini goals in the area nearby.

These plans look great and so do the artists impressions. Hopefully it will not be too mu ch disruption to Beach huts and owners. I live locally, own at hut at Preston, and support local businesses when I can. Free toilets must be the next step. All the good places have free toilets, and enough of them. These are not owned locally, and should not be 'for profit' but for the benefit of the community. I agree with Bob's grandson regarding the basketball court, unless it will attract county or national events, which I doubt (it's an outside court), as weather will always be an underlying issue. I'm not sure how else it could be improved.

Do you have any comments on these plans? These can be positive, negative, what you like or don't like.

I really like the updated Seafront Masterplan for Paignton and Preston. My observation would be; I feel parking charges should be greatly reduced out of session. On weekday s out of session Marine Drive, Preston is empty to cars due to the high parking charges . My other major concern with the Preston Masterplan is putting a full size basketball c ourt in a small fenced off, dog free "Bobs Patch" childrens park is totally unnecessary. There is a full size basketball court in Victoria Park that is under used. If another one is needed I would suggest, Parkfield, Oldway or Clennon Valley. This small fenced off are a attracts young children. The basketball nets at the far end are enjoyed by lots of peo ple just wanting to practice of all ages and all different levels of abilities, at all times, for hand eye coordination, social interaction, health and fitness, and it's non competitive, it is purely for recreational exercise and fun.

03 September 22 1 resident		
AGREES	DISAGREES	REPLIES

This will kill the town and the seafront. It appears all plans are anti car. Wher will people park to visit this area. Loss of car parks road closed and no parking on the seafront will just encourage everyone to go elsewhere out of Torbay where you can park easily near to the beach.

Do not turn the end of Paignton green by the harbour in additional parking. This will aff ect the few business that are closest to the sea with sea view issues, degrading the pro perties and their sellable views. It would be more appropriate to have additional parkin g at the other end of the green where properties are already obstructed from having se a views and are further away from the sea. Avoid having trees along the sea front. As a gain, removing sea views for all the holiday accommodation would be a very negative s tep.

I think the plans are very good and it will be very good with a regenerated Paignton Se afront. However the Vue Cinema building with the Harvester and Shoreline Restaurant s should come down, as it is disconnecting Paignton Green into two separate places. T he Vue Cinema building is also disconnecting Paignton Seafront with the town centre. The regenerated Torbay Road should be connected with Paignton Seafront with an open place instead off the Vue Cinema building. The new plans for Paignton Green for th e mid section from the Vue Cinema building to Paignton Pier should be extended all th e way down to Paignton Harbour. By doing so there will be an attractive regenerated P aignton Green connecting Paignton Harbour with Paignton Pier. The parking spaces in front of the very colourful buildings and hotels on Esplanade Road from Sands Road to Adelphi Road should have a new and more green surface. The current parking spaces with old asphalt and concrete does not fit in with the environment around Paignton Gre en and with the redeveloped Paignton Green and Torbay Road. The very colurful buildi ngs and hotels on Esplanade Road from The very colourful buildings on Esplanade Ro ad from Sands Road to Adelphi Road, together with the other buildings on Esplanade Road and with the redeveloped Paignton Green from Paignton Harbour to Redcliffe Ho tel should be seen as an entirety.

Do you have any comments on these plans? These can be positive, negative, what you like or don't like.

I am the South West Coast Path Association local representative for the stretch from B rixham harbour to Torquay harbour. Through walkers often regard the part along Paign ton seafront to be amongst the dullest of the whole 630 miles of the Path, so anything t hat might add to the visual interest and creates better separation from motor vehicles a nd cyclists is to be welcomed. In the detailed design, please ensure that there is clear s ignage for the Coast Path. Interesting sculptures, paving, lighting and planting could ad d to the interest for all users. The Council is asked to ensure that revenue budgets are adequate to ensure that the promenade is kept clean, bins are emptied, water bottle ref ill points are provided etc, and that the "as new" appearance is maintained, rather than being allowed to degenerate over time, as seems so often to be the case after the thrill of major new investment projects has passed.

Hi! This design is spectacularly unambitious! I understand that the main works is flood protection, but there's a huge missed opportunity to upgrade these areas. When i first s aw the plans, i had to search hard to find the changes between existing and proposed. And i'm an architect experienced in reading design drawings! The proposed design loo ks to make the minimal changes to incorporate the flood protection works. I can imagin e the grand unveiling after years of disruptive constructive works, and residents and vis itors will wonder... what's been done. How about a more ambitious brief to the design c onsultants? For starters, removing the road and parking right on the sea front would op en pedestrian access and use of those key arears, making a better link between users and the ocean- surely the key attraction.

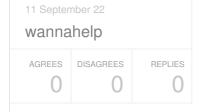

Generally positive about the proposals, with just a few reservations. Concerned about t he loss of parking spaces on Paignton Sea Front. This, coupled with the loss of parking spaces in Torbay Road due to pedestrianisation, the loss of parking spaces in Crosswa ys car park due to redevelopment, the loss of spaces in Victoria car park due to spaces being surrendered to the guests at the new hotels because of inadequate provision for parking on the hotel sites, the possible redevelopment of the Harbour Car Park, and po ssible redevelopment of the Station Lane and Bus Station Car Parks. There appears to be no provision for the loss of all these spaces - where are all these visitors and locals supposed to park in the summer? The proposals show an apparently smallish loss of gr een all around the perimeter, but this adds up to a fair loss of flat grassed area, leaving less space for fairs, circuses, fetes, and other special events. What about removing the pedestrian crossing at the end of Kernou Road, and moving it to the bottom of a pedest rianised Torbay Road. The Festival Theatre/Vue cinema should never have been sited at the bottom of Torbay Road. What about moving it to the other side of the road where the Inn on the Green is situated? This will give us more space, and open up the sea fr ont to something like it was in the old days. Finally, I can see Pedestrian/Cycle/Vehicul ar conflict at the Junctions/Mini roundabout at the southern end of the sea front.

Do you have any comments on these plans? These can be positive, negative, what you like or don't like.

As a resident of Preston and a long time member of Paignton Sailing club I encourage any improvements to the area for the locals to enjoy and to encourage tourism in the ar ea. As a sailing club we regularly use the south green as a dinghy park when hosting la rge dinghy regattas of up to 200 boats. This brings visitors and therefore revenue in the areas of accommodation and hospitality to the bay. In order to do this we would still ne ed space on south green to park the boats and also ramp access whereby we can whe el them down on to the beach, or at high tide launch them from a wide gently sloping ra mp, which at present we have, although a wider ramp would be more useful. This would also improve access for other water sports users and those with mobility problems. I hope you will consider us as valid members of the community and regular users of the (to me very underused) waters of Torbay.

Discriminatory to disabled people and not Inclusive for All as per government guideline s. All I am seeing is far too many steps when it should all be ramped everywhere to incl ude all disabilities and other people such as families with pushchairs, the less mobile. I ts already very bad and this doesn't improve things in line with the law. How many ram ps to the beach, where is the boarded beach for wheelchairs to travel on. How many ra mped areas up to the higher promenade at Preston and Paignton seafront, discriminat orily not enough it should be equal to the amount of steps? In fact if you were Inclusive for All as per the law, you would have no steps it would all be ramped which would cost no more as being newly built. Why are steps being designed when they are discriminat ory? You have the perfect opportunity to include everyone and instead alienate the dis abled to unequal access which is extremely discriminatory. Having one or two ramps d oes not meet disability law when designing it should all be inclusive, there is no need fo r steps whether its to the promenade or to the beach. It is no longer acceptable in law t o only have one or two entrances forcing the disabled to go on a much longer journey r ound to get to the same place as a non disabled, this all needs redesigning else you wil I be guilty of discrimination and failing Inclusive for All. Removing parking spaces is a m assive fail, the concept there will be less cars in the future is a fantasy. All present spa ces are needed and 16 disabled spaces are not enough if you increase this where do a ble bodied park? There is not enough parking as it is. Street bins, water fountains need to be accessible as per Inclusive for All guidelines and changing room toilets should be at every toilet area there is they have been discriminated against for long enough, toilet s should be free so many people urinating and defecting anywhere as not prepared to pay or queue with the lack of toilets. The loss of green space is a major flaw and a bas ketball court will not get used as much as grass will, as much as i love trees and wild fl owers this is not an appropriate place to block views or take green grass needed for jus t sitting on, playing on and enjoying as it is, there is little grass as it is. Would be a wast e of money.

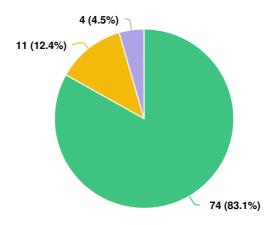

It's unclear how access from Paignton to the beach via the slipway will be maintained u nless it is effectively unchanged e.g.if existing levels allow. It is imperative access to the beach via the slipway is maintained to allow large including national sailing events to be held from the green and Paignton Sailing Club in association with RTYC and BYC. Thanks.

ENGAGEMENT TOOL: QUICK POLL

Are these plans a positive step forward for Paignton & Preston Seafronts?

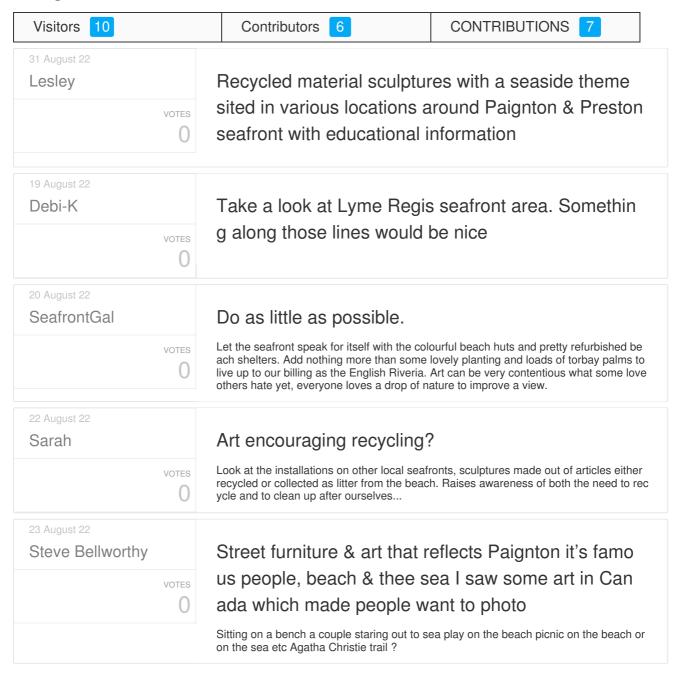

Are these plans a positive step forward for Paignton & Preston Seafronts?

IDEAS

Do you have any ideas for what type of art or installations could be put along the seafronts?

votes esort so		Nothing in particular, Paignton is a more traditional r	
		esort so nothing ultra modern in shiny metal and pla stic? Just make it vandal proof!	

Engagement Summary

During this phase, which lasted just over 3 weeks and went live on Friday 19 August and closed at midnight on Sunday 11 September, the engagement page was visited over 2,300 times. To give some context, the phase 2 consultation webpages were viewed 889 times and phase 1 - 388 times. From these visits:

- 1,838 people visited at least one part of the engagement pages
- 935 visited multiple pages
- 105 then engaged i.e. took part in the poll, left a question and/or comment

In total though, we had 220 people take part in the poll, which was asking if people thought these plans were a positive step forward for Paignton & Preston seafronts. These results show the online poll (89 participants), the results from our day at Children's Week (128 participants) and responded via paper copies at Paignton Library (3) in one result, which was:

- 91% (200) responded Yes
- 5% (12) responded No
- 4% (8) responded Don't Know

This is down compared to the second phase but the same as phase 1. I think this is because on our new engagement platform we did ask people to sign up. Hard to say if this was the only reason though. I also need to do some work on identifying the age range that took part in the poll as it is reported differently.

Going back to the online engagement webpages, it was disappointing to see only 105 people took part in the online pool but our engagement software can show us what other things they did do. So even if they didn't take part it is really good to see what they did engage with, and are now also more aware of:

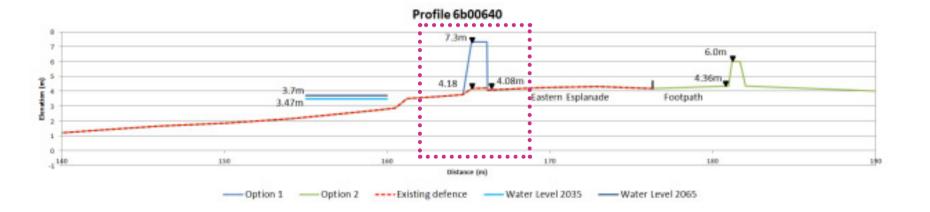

- 781 of the visitors downloaded the PDF of the plans 869 times, with 27 looking at the results from phase 2 and 9 looking at the phase 1 results
- 83 visitors also looked at the FAQ's

We got most visits to the page from the social media posts but those who then went on and engaged came from direct links – which would be the direct emails we sent to our main stakeholders and from our One Torbay and Staff News newsletters.

Appendix G Previous Flood Defence Studies

PRIMARY DEFENCE OPTION - NORTH OF THE PIER

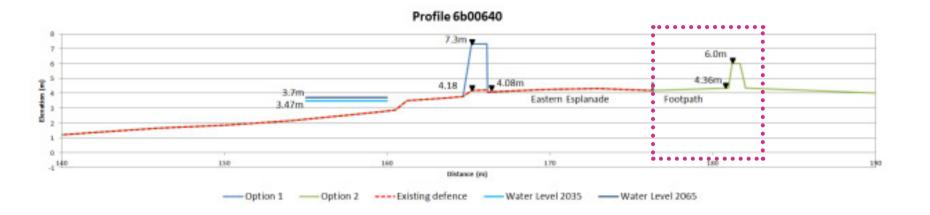

- 3.2 2.8m primary defence wall
- No secondary defence wall

SECONDARY DEFENCE OPTION - NORTH OF THE PIER

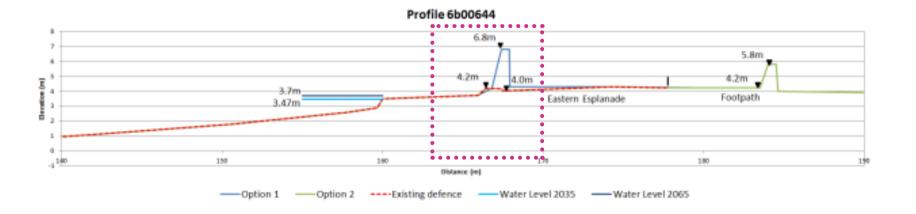

- 1.2 -1.6m secondary defence
- Existing primary defence retained

PRIMARY DEFENCE OPTION - SOUTH OF THE PIER

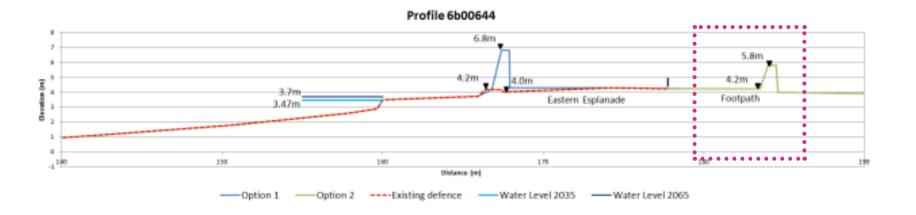

- 2.0-2.6m primary defence wall
- No secondary defence wall

SECONDARY DEFENCE OPTION - SOUTH OF THE PIER

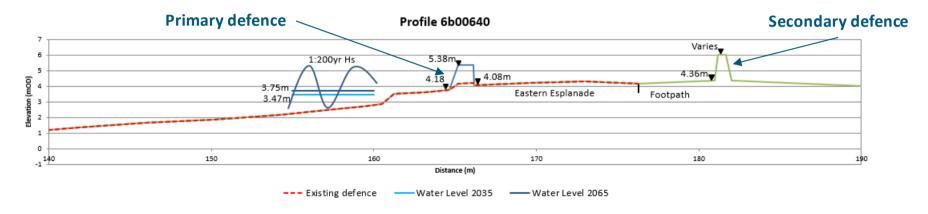

- 1.1 1.6m secondary defence
- Existing primary defence retained

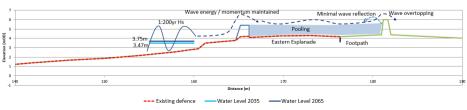

HYBRID DEFENCE OPTION

- 1.2m primary defence wall
- 1.2 1.7m secondary defence wall
- Pooling in between walls \sim 13,000m3 of water could be stored during an extreme flood event between the primary and secondary defence walls.

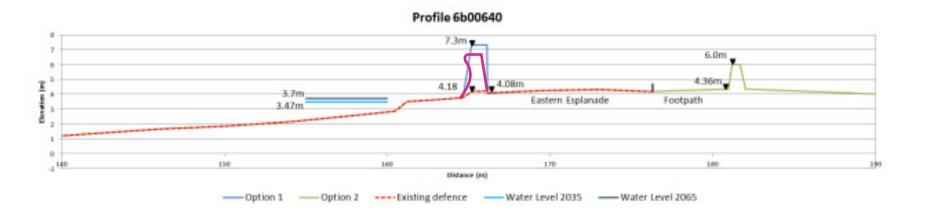

PRIMARY DEFENCE OPTION - RECURVE WALL

• If assuming 70% effectiveness in reducing overtopping with a recurve wall; in order to achieve the allowable 0.31/s overtopping rate for year 2035 for the profile north of the Pier, the resulting wave return wall would be >2.3m high. This would need to be raised to ~2.8m high in 2065.

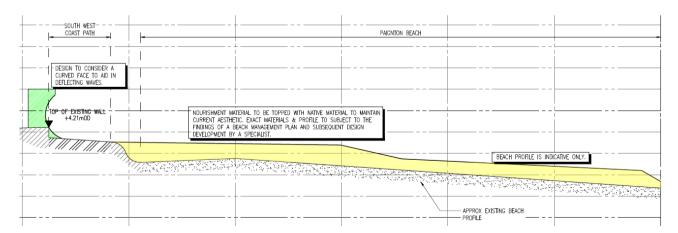

BEACH NOURISHMENT

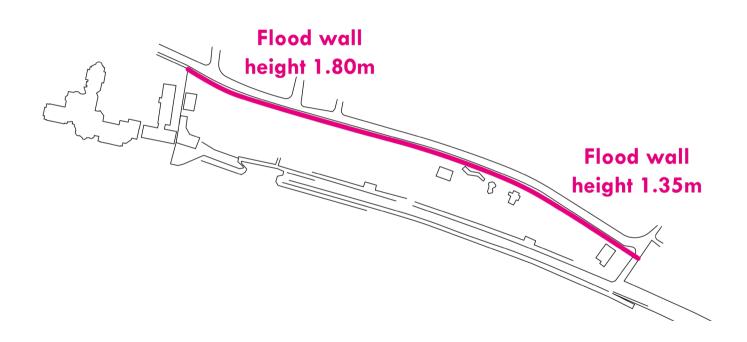

TDA have contacted the EA, Natural England & MMO:

- Natural England do not consider either beach recharge or beach recycling to be long-term sustainable solutions, stating that these types of schemes have the potential to impact on habitats and associated marine life through smothering and sedimentation.
- Preliminary feedback from the MMO confirmed that a licence would be required to place large amounts of sand on the beach.
- Both Natural England and the MMO pointed out that this would be a very costly exercise that would likely require replenishment on a regular basis.

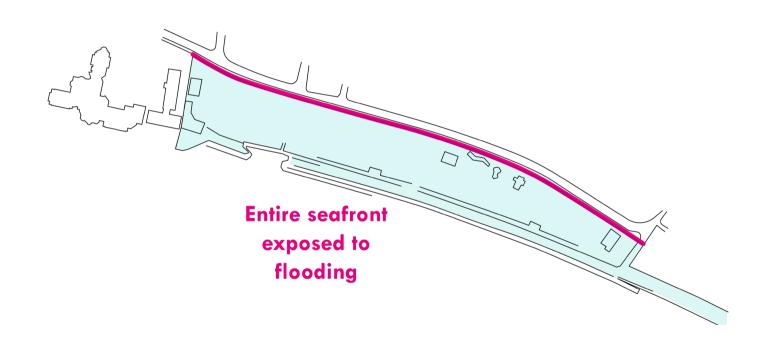

Appendix H Preston Landward Defence Option

FLOOD WALL +5.80m ON MARINE DRIVE EDGE

SEAFRONT EXPOSED

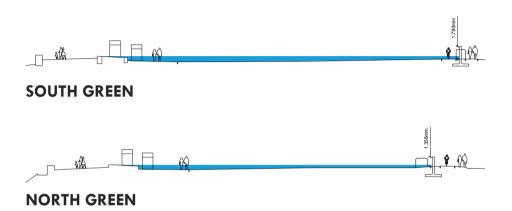

EXISTING (SOUTHERN MARINE DRIVE)

VERTICAL WALL (SOUTHERN MARINE DRIVE)

REASONS FOR NOT PROCEEDING WITH THE OPTION

- The option traps water behind the flood defence wall. This would cause ponding until the water is able to naturally drain away making the seafront unusable for large amounts of the year.
- Over time there would be flood events occurring so regularly that the seafront is no longer usable for the public.
