1. Introduction

- As part of the Health and Care Act 2022 the Care Quality Commission (CQC) has been given additional responsibilities and powers to review, assess and report on council regulated adult social care functions under Part One of the 2014 Care Act, such as prevention, information and advice, market shaping and support services. As part of the preparation work a self-assessment has been completed using the Local Government Association Workbook. Information has been gathered and refined over the last 8 months. There was a review of the safeguarding section by Partners in Health and Care in March 2023. It has also been tested by staff and commissioners in Adult Social Care (ASC) as well as through the South West Association of Adult Social Services CQC peer support. The document was written over Quarter 3 of 2023/24.
- 1.2 This document will evolve and iterate over time with an expectation that it will be updated on a quarterly basis.
- 1.3 This self-assessment will be submitted to CQC as part of the information return that is required by them, when we have notice of inspection.
