2. Introduction

Torbay Council recognises the benefits of having tenants who are involved in decisions about how services are provided and how the organisation is run. This policy sets out how we will involve our tenants in our service provision and gather their views.

Through this policy, Torbay Council aims to ensure that tenants feel that they are provided with sufficient opportunities to influence how Torbay Council Social Housing is run, and that we have

appropriate structures and processes in place to gather tenants' views to continuously improve its service. Torbay Council is committed to making the voices of its tenants heard.

3. Approach

This policy covers all tenants of Torbay Council's social housing properties.

The Regulator of Social Housing's Transparency, Influence and Accountability Standard requires Registered Providers to ensure that customers are given a wide range of opportunities to influence and be involved in:

- the formulation of their landlord's housing-related policies and strategic priorities.
- the making of decisions about how housing-related services are delivered, including the setting of service standards.
- the scrutiny of the landlord's performance and the making of recommendations to their landlord about how performance might be improved.
- the management of their homes, where applicable.
- the management of repairs and maintenance services.
- agreeing local offers for service delivery.

4. Supporting Tenant Involvement

To support the involvement and empowerment of tenants, Torbay Council will:

- seek to consult tenants when making decisions.
- provide timely and relevant performance information to tenants to support effective scrutiny of Torbay Council's performance. This will include the production of an annual report detailing our performance against various key metrics, and any upcoming changes to services.
- provide tenants with a variety of channels through which they can provide feedback, including via telephone and email or face to face.
- areas where Torbay Council may seek to gather the views of tenants include (but are not limited to):
 - \circ rent levels.
 - housing management services and service standards (e.g. Tenancy Agreements).
 - property management services and service standards (e.g. standard of repairs, response times).
 - o governance issues.
 - o non-housing issues (e.g. security, social inclusion).
 - \circ the content and implementation of this policy.

5. Formal Feedback Gathering

In addition to establishing and maintaining a range of channels through which tenants can provide ad-hoc feedback to Torbay Council, the association will establish formal regular processes for gathering tenant feedback through:

Tenant satisfaction surveys: Torbay Council will undertake an annual tenant satisfaction survey. This survey will invite tenants to provide their views on a range of service provisions and will provide tenants with an opportunity to give suggestions to the us. The outputs of this survey will be analysed, and a report produced by the Housing Manager for presentation to the Council's Overview & Scrutiny Board.

Meetings with tenants: Torbay Council will arrange and facilitate a meeting with our tenants at least once per year. These meetings will be open to all Torbay Council tenants and will be attended by the Housing Manager.

6. Other Forms of Tenant Involvement

Torbay Council is mindful that, in addition to providing feedback, some tenants may wish to become more closely involved. Should there be an opportunity for a tenant to apply to be part of a tenant participation group we will ensure that all tenants are made aware of the opportunity and supported in applying, should they so wish.

7. Equality & Diversity

Torbay Council is committed to promoting equality and inclusion and to ensuring that our communities thrive. We complete equality impact assessments (EIAs) to help us understand the possible impacts that our decision may have on different groups. This toolkit guides you through the different stages of the equality impact assessment process to help ensure that your EIA is meaningful and robust.

The Equality Act 2010 provides legal protection from discrimination across nine 'protected characteristics' which are: age, disability, gender reassignment, race, religion or belief, sex, sexual orientation, pregnancy and maternity and marriage and civil partnerships.

Under the Act, the Council is subject to the Public Sector Equality Duty (PSED) which means that we must take steps to actively promote equality. The PSED requires public authorities to have due regard to the need to:

Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act.

Advance equality of opportunity between people who share a protected characteristic and those who do not, and

Foster good relations between people who share a protected characteristic and those who do not.

The PSED requires us to give 'due regard' to equality when making decisions and delivering services. This is to ensure our actions actively promote equality and do not directly or indirectly adversely affect people with protected characteristics.

8. Appeals & Complaints

Any tenant who feels that they have not been treated in accordance with this policy can use the complaints procedure.

9. Monitoring & Compliance

All feedback provided by tenants will be analysed by the Housing Manager quarterly.

In observing this Policy, Torbay Council will comply with all legal and regulatory expectations outlined in the Regulator of Social Housing's Transparency, Influence and Accountability Standard 2024, which replace the Tenant Involvement & Empowerment Standard 2017.

10. Review

This policy will be reviewed every 3 years by the Housing Manager in consultation with the appropriate Cabinet Member.

Equality Impact Assessment – Tenant Involvement and Empowerment

The Council has a public sector duty under the Equality Act 2010 to have 'due regard' to equality and to advancing equality of opportunity between those persons who share a relevant protected characteristic and persons who do not share it. The Act also seeks to eliminate discrimination, harassment and victimisation and promote cohesion. It is important that you carefully and thoroughly consider the different potential impacts that the decision being taken may have on people who share protected characteristics.

It is not enough to state that a proposal will affect everyone equally. There should be thorough consideration as to whether particular groups or individuals are more likely to be affected than others by the proposals and decision. Please complete the table below. If you consider there to be no positive or negative impacts state 'there is no differential impact'.
