

Meeting of the Council

Thursday, 7 April 2016

Questions Under Standing Order A13

| | |
|---|--|
| Question (1) by Councillor Darling (M) to the Mayor and Executive Lead for Finance and Regeneration (Mayor Oliver) | Can you please update the Council on the recovery of the debt from the high flyer balloon formerly on Torre Abbey Gardens? Can you please advise what has been paid, any sums written off and what is the balance of any debt, since this matter was last raised at Full Council. |
| Question (2) by Councillor Darling (S) to the Mayor and Executive Lead for Finance and Regeneration (Mayor Oliver) | I think it has been around 18 months since the Council stopped the Torbay Community Development Trust using the former gas works site on temperance street as a car park. What was the rationale behind this? |
| Questions (3) by Councillor Stringer to the Executive Lead for Planning, Transport and Housing (Councillor King) | Street pastors advise me that the public Toilets at the entrance to the marina car park are in a very poor state of cleanliness. The street pastors open them for the public on occasions in the winter evenings. Is it possible to ensure that there is an improved cleansing regime from TOR2? |
