RE: Variation of premises licence of the Bolton Hotel
Premises license number PL 0445

To The Licensing Authority at Torbay council,

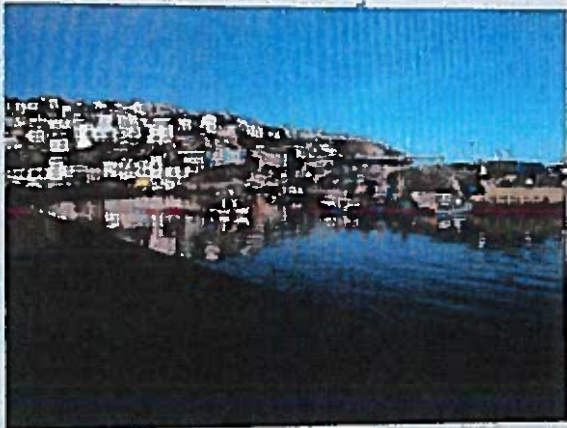

It is a year now since the last application was submitted and refused by Yourselfs to vary the Bolton Hotel license , My main concern over this variation to extend the opening hours and the sale of alcohol is still the same , even though Steve Close is still the DPS the Bolton is still run by a holding company Pub Solutions which can at any time replace their staff as they choose, as we well know from other 7 DPS 's in the last 7 years. Steve Close has also been running The Sprat and Mackerel another pub solutions premises , but I've also noticed not the DPS !! The women who is DPS left months ago is this a pub solutions cover up? So licensing don't know he's not going to be at the The Bolton? (please see enclosed screenshots publicly announcing the fact and advertising for staff)

A late night license requires a lot of hard work to make sure you do not breach the four licensing objectives , I have had mine for 17

years and work together closely with the council to make sure I do not breach mine , which is in my interests as I own my lease

The Prevention of Crime and Disorder being the main objective in this case .

- The Bolton if it should have it's opening hours be extended to 2.00 am , would have the same closing times as my bar , a lot of clientele from the Bolton are barred from most premises in Brixham including mine , I have a drinking up time till 3am so customers can filter out rather than have a massive influx of people on the streets at one time , which if the Bolton had the same times as myself would definantly cause a public nuisance to surrounding living accommodation as I find it hard work getting people to move on rather than stay and chat at present without adding an additional 120 to that number .

I would also like to point out that The Bolton has been closing at midnight for the last four months and has not been using there at present extended hours till 1.30am , so therefore have not needed SIA doormen , there has been still a lot of fights in the pub and the police have been called on numerous occasions where it has spilt out into the street and this has been early evening , how would they be able to control being open later , when it can't be controlled early evening . I also cannot understand why a premises would want to extend their hours when they don't use the hours that already have available to them , is this a ploy to deceive the licensing authority to believe their is no late night trouble between 00.30 and 1.30 am, a fact that was pointed out by the police regarding the Bolton Hotel previously , I have made

the licensing department and the SIA aware of these opening hours on a visit paid to myself at Jackz on different occasions .

PUBLIC NUISANCE

Over the years there has been lots of issues with noise as there are a lot of residents on a complex called Saxon Heights close by , who have repeatedly complained about music should the Bolton want to increase there times for Live Music and recorded music they should as I have Secondary glazing and maybe air conditioning fitted to stop the need to leave doors and windows open in the Summer months when they reach their capacity otherwise there will definantly causing public nuisance to surrounding areas !! Even if there is a limiter fitted , how does it work with live music they can't turn drums etc.. down ?

Yours sincerely
