

The application number is 024455 and it says its open, and the poster in the window says representation can be made, yet the website states no representation can be made even though this is a "new" application.

As a resident in the mixed development of victoria parade, I would like to make an objection on the following principles:

+ Prevention of Crime and Disorder

No details have been provided how the licensee will prevent crime and disorder in the surrounding area. This is a current issue which is out of control, and having an additional bar opening to 3am, with last re-entry at 2am compounds the problem that is not well managed.

No consideration is detailed for people migrating between clubs from 11-3, and the disturbances they create.

No provision is made for transport outside of the premises to take party goers home, instead they will walk to the taxi ranks, opposite our premises where we already experience broken windows, doors, urination, vomiting, noise, and food waste.

+ Prevention of Public Nuisance

This is a mixed use area, ie residential, and with drunks leaving club after 3am is disruptive to residents sleep. What steps is the bar taking to ensure that music is not audible outside of the bar at all times iaw the licensing objectives.

+ Public Safety

More clubs, more fights and vandalism.

The license should be restricted to 12, any extension on this should be based on no re-entry policy, with provision for taxi's outside the premises.

Best regards
