4. *Child Poverty and the wider context:* The Chair updated the Commission regarding her exploration of data to identify young carers and single parents. The findings concluded that:

- no specific carer data was recorded by Local Authorities or the Government
- latest release single parent data collected through the National Indicator 116 (child poverty proxy)¹ showing that Torbay has 60% of children (3,495) in poverty in Torbay are in lone parent households on benefit (JSA/IS)

The Commission noted that Torbay's Young Carer's Strategy Plan does not make any reference to the Needs Assessment for child poverty and agreed that this should be feedback to the Young Carer's Strategy Group
