

Assumptions

Visitor numbers (Source Torbay Council) 100,000

Deadweight is a calculation of spend that would have occurred in Torbay anyway i.e. if the Airshow had not taken place it would have been spent in Torbay anyway

To calculate deadweight the survey asked what visitors would have spent in Torbay on a comparable day without the Airshow and an assessment was made of the influence the Airshow had on the decision to visit by asking if the Airshow was the main purpose for the visit.

Torbay Airshow 2016 – Economic Impact Summary
