Capital Plan Budget 2017/2018

Torbay Council's Capital Plan totals £130 million for the 4 year programme to 31 March 2020 with £42.3 million scheduled to be spent in 2016/17 and £56.3 million due to be spent in 2017/2018¹.

This document provides high-level information on the proposed capital expenditure and funding for 2017/2018 and is part of the total Plan. Shown against the targeted actions of the Council's Corporate Plan, it gives details of the capital schemes which have previously been approved by the Council. However, in some cases, it sets out funding which has been allocated to services but where specific schemes have not yet identified.

In accordance with Torbay Council's Constitution, the figures presented will form the approved capital budget for the coming year.

Appendix 1 provides financial information including the total cost and the expenditure to date of each scheme as well as details of how the Council is intending to fund each project.

As explained in the Council's Capital Strategy, Appendix 2 to this Plan shows the Capital Reserve List (as well as approved projects which have not yet commenced). Each project has been scored using the approved scoring matrix. The scored list will be used to help inform decisions by evaluating competing projects on the Council's Capital Reserve List (or new bids for capital funding) as and when capital resources become available.

The capital matrix is an aid to evaluate priorities between often very disparate schemes; however allocation of funding to capital is ultimately a Council decision at the time funding becomes available.
