17 December 2017

Dear Sir/Madam,

Comments to the independent examiner on the submitted Paignton Neighbourhood Plan.

I fully support the submitted Paignton Neighbourhood Plan for the following reasons.

- I strongly support the inclusion of all the listed Local Green Spaces
- The plan represents the aspirations of Paignton resident's in regard to local land use
- The PNP contains essential forward thinking on surface water and sewer capacity for the area, which will help curtail potential problems
- The jobs-led focus is paramount to the future economic health of the area.

My suggested additions to the PNP

- The Paignton hospital estate must be safeguarded for public health care with an additional paragraph in the PNP2 town centre policy
- The whole of Paignton Zoological gardens must be protected as a Local Green Space.

I sincerely hope the above will be strongly considered for inclusion in the final PNP.

I hereby submit my support,

Yours Faithfully

Ms Paula Hermes
