Dear all,

Please vote to maintain our protected green spaces and support the proposed designation of Clennon Valley. I understand the the Torbay Development Agency is objecting and as a local resident I want you to represent me and let my voice be heard.

These green spaces are a vital part of our community and enrich our environment, its not all about building houses on every square inch of land available. Once lost we can never recover them, as a child I played in these areas, as a teenager I played sports in these areas, as an adult I learned to value them for what they are, areas of peace, nature and tranquility. I urge you to vote to protect them, please listen and do something good for our community.

Bill Macdonald
