Subject: Paignton Green spaces

Dear Sir,

I have read the excellent and recently submitted Paignton Neighbourhood Development plan and understand that the Torbay Development Agency (TDA) are objecting to the inclusion of most if not all of the designated green spaces. It is important to have the right balance of housing development, overall infrastructure and green spaces in any area. Currently there is significant development along Brixham Road both in housing and supermarkets, indeed many would say over-development. Some development such as the Nortel site is vital.

The retention of these green spaces, such as White Rock recreation playing fields, Hookhill childrens' park, etc is therefore paramount to keep this balance. I would like to know why the TDA is objecting to these spaces. I would also like to know the names of the objectors or are they to remain faceless like the CCJ were when closing our hospitals.

Regards

Roger Mullan
