Subject: In support of the Clennon Valley Protected Green Space
Attachments: support letter Clennon_ Local Green Space to Council _ neighbourhood Plan.docx

Dear Local Councillor,

I am writing to you in an effort to garner support regarding the designation, and protection, of Protected Green Spaces, particularly Clennon Valley.

Having been born in Paignton, lived in Penwill Way and worked in Paignton Zoo, I have an emotional attachment to Clennon Valley and its current environment. The land is very well managed, looks beautiful and is heavily used. I consider it as an important space, particularly for leisure, health and well being.

Please see the attachment for further details.

Best regards, Alan Rowse

To whom it may concern,

As a local resident and frequent visitor to the Clennon Lakes, I wish to support the designation of Clennon Valley as a Local Green Space (LGS) in accordance with the proposals in the Paignton Neighbourhood Plan. I also wish to express my concern that the proposed designation has been objected to by the Torbay Development Agency on behalf of Torbay Council.

Clennon Valley has for many years been a place of recreation, sport and important site for wildlife value (designated County Wildlife site by Devon Wildlife Trust) with notable mammal and bird species found within the designated boundaries. The site undoubtedly fulfils the criteria for designation as an LGS in other respects, beauty, tranquillity, the site also provides a green corridor leading up from the coast and almost links the countryside to the West of Paignton Zoo.

The valley has a chequered history the lower valley once being a mixed marshland/low lying area with salt marsh at the Goodrington end (now under a carpark – sadly) then used as a landfill tip, then converted to playing fields, with recreational ponds dug which now provide a rare valuable wetland habitat with large common Reed bed and open water not found anywhere else in Torbay. The upper fields leading up to Roselands provide beautiful open fields overlooking Torbay with good populations of important invertebrates including Brown Argus Butterfly, Brown Hairstreak and Marbled White Butterfly. This area is well used by local residents.

The central valley leads up to Paignton Zoo's nature trail this extensive woodland is a good mix of mature deciduous trees and limestone caves which provide roosts for both Greater Horseshoe and Lesser Horseshoe bats. Although this area lacks public access it still deserves full and higher level protection from any future development that the LGS provides.

Planning applications for Clennon Valley have come and gone over the years some failing to go ahead but other have been approved, these have all gradually eaten away at this green public land. As a resident of Paignton I would like to see strong permanent protection that this area deserves in accordance with the proposed Local Green Space in the Paignton Neighbourhood Plan.

I fully support the inclusion of the designation of Clennon Valley as a local Greenspace as proposed by the Paignton Neighbourhood Plan and do not support the objections previously raised by the council and Torbay Development Agency.

Yours Faithfully

Alan Rowse (@alan_rowse)
