I have received a letter concerning these plans, and have reviewed them, and I would like to say that I broadly support the plan for Paignton. I am particularly pleased with the proposed protection for all the green spaces, and for the emphasis on employment provision rather than housing. The only thing I disagree with is the suggested future development on sites FGA SS2.2 areas B, C and E, at Collaton St Mary, which I feel are detrimental to the more rural character of that village. However, I hope that the work which the Local Forum has done, Which is highly commendable, will form the basis of Paignton's future. I am a long term resident of Paignton, working and shopping in the town for over 40 years. If there is an independent examination I would like to be notified.

With thanks,  
Malcolm Turner
