## 1. INTRODUCTION

### Background

- 1.1 Key Transport Consultants Ltd is retained by Abacus Projects Ltd/Deeley Freed Estates to prepare a Framework Travel Plan (FTP) for a proposed residential-led development, named Inglewood, on land south of White Rock, Paignton, TQ4 7BQ. The FTP document is prepared to support a planning application for up to 400 residential dwellings of various tenures. A two-form entry primary school and a Public House also form part of the development.
- 1.2 This FTP aims to set out how residents will be encouraged to take up the opportunities for travelling sustainably to and from the development. It is proposed to create, from the outset, sustainable travel choices for occupants of the development. This FTP sets out the strategy for the site, and contains some initial modal share targets, based on census data, that are primarily aimed at reducing single occupancy car use to and from the development site.
- 1.3 A Travel Plan is not a fixed document and will evolve over time in response to changing circumstances. This is especially the case for the initial targets provided within this FTP, which are considered to be indicative and provisional, and will be reviewed in the light of the results of the initial Travel Plan (TP) surveys of residents' travel behaviours, and in liaison with the Torbay Council (TC) transport and travel planning officers.
- 1.4 Objectives of the residential FTP include reducing the need to travel, increasing the use of sustainable transport and promoting a healthier lifestyle for residents and visitors. By promoting the FTP, it raises the appreciation of residents to the benefits of alternative travel modes to the private car. Benefits include improved health and potential cost savings.
- 1.5 This FTP is informed by a separate Transport Assessment (TA), which undertook a detailed assessment of the impact of the proposed development.

### **Report Structure**

1.6 This report continues in Section 2 with a description of the site, the local transport network and describes accessibility. Section 3 describes the proposed development. Section 4 sets out the transport policy context and Section 5 describes TP objectives and strategy. TP Targets are set out in Section 6 with TP measures outlined in Section 7. Section 8 confirms the TP monitoring and review processes. Finally Section 9 includes the TP Action Plan.

## 2. SITE, LOCAL TRANSPORT NETWORK AND ACCESSIBILITY

#### Site Context

2.1 The proposed site is located to the south west of Paignton, as shown on **Figure 1** and is currently in agricultural use. The site is bounded to the north by screen planting provided as part of the new White Rock residential development, to the east by A3022 Brixham Road and to the south and west by field boundaries of adjacent agricultural fields. An illustrative site layout plan of the proposals is provided as **Appendix A**.

### Local Highway Network

- 2.2 A3022 Brixham Road along the site frontage measures approximately 6.7m, is lit in the vicinity of the existing residential dwellings to the northeast of Brixham Road and is subject to a 40mph speed restriction.
- 2.3 A3022 Brixham Road forms a section of what is referred to locally as the 'Western Corridor'. The Western Corridor stretches from Churscombe Cross roundabout in the north to Windy Corner junction to the south.
- 2.4 The site frontage along A3022 Brixham Road is approximately 500m in length. Along the northern 100m of site frontage, existing residential dwelling with direct access from Brixham Road are located to the northeast of Brixham Road. Continuing in a southerly direction, the following 65m consists of a number of trees and an established hedgerow. The subsequent 50m of frontage consists of another existing residential dwelling with direct access onto Brixham Road. Further south from this, apart from an existing gas governor to the northeast of Brixham Road approximately 165m south of the residential dwelling, the remaining length of site frontage is tree lined on either side, until widening out to a grass verge approximately 65m north of the southern site boundary of the site, which is the beginning of the approach to Hunters Tor Drive.
- 2.5 Hunters Tor Drive forms the minor arm at a ghost island right turn with A3022 Brixham Road, with the centre of the junction located approximately 60m south of the southern boundary of the site. Hunters Tor Drive provides access to the residential area of Galmpton Warborough and to Hookhills Road, a north-south connector road, to the east. Approximately 390m north of its junction with Hunters Tor Drive, Hookhills Road forms the major arm at a simple priority junction with Gibson Road. Gibson Road forms the main vehicular route to White Rock Primary School.
- 2.6 Approximately 125m south of the ghost island right turn of A3022 Brixham Road with Hunters Tor Drive, the speed restriction on A3022 Brixham Road is reduced from 40mph to 30mph.

- 2.7 Approximately 430m south of the change in speed restriction A3022 Brixham Road forms one arm of a three-arm signal controlled junction with A379 Dartmouth Road. This junction is known locally as 'Windy Corner'. Immediately south of the signal control junction the southern of the two A379 Dartmouth Road arms consists of four lanes: one southbound lane, a ghost island right turn lane to allow stacking space for right turning traffic to Langdon Lane, and two northbound lanes, one of which directs traffic to A3022 Brixham Road and the other to the northern arm of A379 Dartmouth Road.
- 2.8 Langdon Lane joins A379 Dartmouth Road as the minor arm of the ghost island junction. Langdon lane connects Windy Corner junction at its northern end to the residential settlement of Galmpton at its southern end.
- 2.9 Approximately 575m to the north of the site, A3022 Brixham Road forms two arms of a signal control junction with Kingsway Avenue and the new White Rock housing development. Kingsway Avenue to the east, has one lane in either direction and provides access to the residential area between White Rock and Goodrington. The access into the White Rock development, 'White Rock Way', is located to the west of the junction.
- 2.10 Approximately 230m further north, the A3022 Brixham Road again forms two arms of a signal controlled junction with Goodrington Road and Long Road. Goodrington Road connects the A3022 Brixham Road with A379 Dartmouth Road to the west, via the residential area of Goodrington. Long Road provides access to South Devon College, along with Torbay Business Park.
- 2.11 The A380 Kings Ash Road provides the main link from the site to the new South Devon Highway, which connects Torbay to Newton Abbot, bypassing Kingskerswell. North of Newton Abbot, the A380 joins the A38 Devon Expressway and subsequently the M5, providing access to Exeter and the employment opportunities there.
- 2.12 The proposed site access junction, which is outlined in greater detail in Section 3, is proposed to be located approximately 220m south along the site frontage.

### **Pedestrian and Cycle Facilities**

- 2.13 Within the vicinity of the site there are limited existing facilities. A shared footway/cycleway of varying width is present on the eastern side of A3022 Brixham Road adjacent to small number of private residential dwellings with direct access from A3022 Brixham Road.
- 2.14 To the north, the shared footway/cycleway tapers away from the edge of the carriageway and becomes a segregated footway/cycleway as it climbs the hill within the area of the horizontal bend on the main A3022 carriageway. The segregated footway/cycleway follows the boundary,

and provides access to, White Rock Primary School. The path then continues north until it meets the Toucan crossing across the Kingsway Avenue arm of the new White Rock signal controlled junction.

- 2.15 To the south, the shared footway/cycleway becomes set back from the edge of the road and follows the rear gardens of the properties facing onto Steed Close. This off-road section of footway/cycleway continues as far south as Hunters Tor Drive, at which point the footway continues along the edge of the carriageway. There is no provision for cyclists after this point, and it is assumed that they would continue on carriageway from this location.
- 2.16 The pedestrian/cycle route to the local shops at Churston would be via Hunters Tor Drive. Following this route, there are currently no dropped kerbs or tactile paving across Hunters Tor Drive in the vicinity of the end of the shared footway/cycleway, or the junctions of Hunters Tor Drive with Steed Close, Hunters Tor Close or Bridle Close. At the junction of Hunters Tor Drive with Hookhills Road there are dropped kerbs on either side of the Hunters Tor Drive arm of the junction. To the south of the junction there are footways on both sides of Hookhills Road for approximately 185m, after which point the western footway terminates. Although there is no official crossing location along Hookhills Road, there are frequent dropped kerbs on either side of the carriageway in the form of driveway entrances. The eastern footway continues for an additional 35m, after which there are no footways and the remaining length of Hookhills Road to the south, and the route effectively acts as shared space for the remaining 230m. There is a turning head present at the southern end of Hookhills Road which has ramps connecting to the shared footway/cycleway along the western side of the A379 Dartmouth Road. Approximately 20m north of the point at which the ramps join A379 Dartmouth Road there is a zebra crossing across A379 Dartmouth Road which provides a link to the shops at Churston on the eastern side. This route is shown as an Advisory Cycle Route on the Torbay Cycle Map, enclosed as Appendix B.

#### **Public Transport**

Bus

- 2.17 The closest existing bus stops to the site are located on Hunters Tor Drive, approximately 490m to the southeast of the site from the proposed site access junction location. These bus stops are served by the Stagecoach South West 13 and the MS5 services. The eastbound bus stop is marked by a bus stop flag. The westbound bus stop is marked with a bus stop flag and timetable information.
- 2.18 Additional bus services are available from the bus stops located on A379 Dartmouth Road, north of the Windy Corner signalised junction. The bus stops are approximately 1,100m from

the proposed site access location via Hunters Tor Drive and Hookhills Drive. These stops are served by the Stagecoach South West services 12, 30 and 120, the Country Bus service 14 and the Dartmouth Steam Railway and River Boat Company service 100. The southbound bus stop has on-carriageway bus stop markings, bus boarder kerbs, a bus shelter with seating, a bus stop flag and timetable information. The northbound bus stop is located within a layby. It is marked with on-carriageway bus stop markings, a bus stop flag, bus boarder kerbs, a bus shelter and timetable information.

2.19 Further services are available from the bus stops in the vicinity of the new signal controlled junction to the north of the site, which provides access to the new White Rock residential development. These bus stops are approximately 620m north of the proposed site access location and both stops are served by the Stagecoach South West 120 service. Both bus stops are located within laybys adjacent to the main carriageway. Both have on-carriageway bus stop markings, bus shelters with seating and timetable information.

2.20	The buses currently serving the area are summarised in Table 2.1 below, and plans outlining
	the routes taken and bus timetables are enclosed as <b>Appendix C</b> .

Table 2.1 Existing Bus Services in Local Area – Frequency in Each Direction							
		Mon-Fri		Sat	Sun		
Service	Route	Day	Eve	Day	Eve		
12	Brixham – Paignton – Preston – Torquay – Kingskerswell – Newton Abbot	10 - 20 mins	10 - 20 mins	10 - 20 mins	10 – 20 mins	20 mins	
13	Newton Abbot – Paignton - Brixham	60 - 180 mins	1 service	(yes, but not in the vicinity of the site)	-	-	
14	Roseland – Brixham Community College	1 return journey	-	-	-	-	
22	Paignton – Torquay - Dawlish	20 mins	20/60 mins	20 mins	20 mins	60 mins	
30	Brixham/Paignton – Cuthbert Mayne School/St Marychurch	1 return journey	-	-	-	-	
100	Totnes – Paignton - Torquay	2 services (from the stops near the site)	-	2 services (from the stops near the site)	-	2 services (from the stops near the site)	
120	Kingswear – Goodrington - Paignton	60 mins	60 mins	60 mins	60 mins	-	
MS4	Brixham – The Willows Torquay	1 service weekly on Thursday	-	1 service	-	-	
MS5	Brixham – The Willows Torquay	1 service weekly on Tuesday	-	-	-	-	
SB4	Sainsbury's – Broadsands – Cherry Brook – Sainsbury's	2 services on Monday, Wednesday and Fridays	-	-	-	-	

#### Train

- 2.21 The Dartmouth Steam Railway has a number of railway station in the vicinity of the site. This railway is a 10.8km heritage railway on the former Great Western Railway branch between Paignton and Kingswear, Devon. Much of the railway's business is summer tourists from the resorts of Torbay who are transported to Kingswear from where the Dartmouth Passenger Ferry takes them across the River Dart to Dartmouth.
- 2.22 Churston railway station is located 1,900m from the site access via A3022 Brixham Road, Windy Corner Junction and A279 Dartmouth Road. The station is located on the Dartmouth Steam Railway line and is situated between Greenway Halt to the south and Goodrington Sands to the north.
- 2.23 Goodrington Sands railway station is located 3,100m from the site access via Hunters Tor Drive and A379 Dartmouth Road. This station, also on the Dartmouth Steam Railway, is situated between Churston to the south and Paignton to the north. The line runs a seasonal service of steam hauled trains between Paignton and Kingswear.

## 3. DEVELOPMENT PROPOSALS

#### **Proposed Development**

3.1 The outline planning application for Inglewood development is for up to 400 residential dwellings, a two-form entry primary school and a public house. The illustrative layout provided as **Appendix A** indicates a possible layout for the scheme.

### **Development Phasing**

- 3.2 The residential aspects of the development will occur over two phases, with up to 207 units in Phase 1 and up to 193 units in phase 2 (total of 400 units). Initial construction works would create the road network which would take around nine months. Following the completion of the primary infrastructure, the 12-month construction of the school will begin. A month after the school construction has commenced, a 24 month development programme for Phase 1 starts which overlaps the school construction by 11 months. The Phase 2 construction programme overlaps Phase 1 also and starts 13 months after Phase 1 began (i.e. the month after the school construction is completed). Full details of the construction programme are outlined within the TA submitted as part of the planning application and the accompanying Environmental Statement (ES)
- 3.3 The site is located to the south of White Rock and west of the A3022 Brixham Road as shown in **Figures 1 and 2**.

### Access

3.4 Vehicular access to the development is proposed via a single new junction on the existing highway, A3022 Brixham Road. A four-arm roundabout junction is proposed, with Brixham Road forming two arms and two arms serving the new development. Uncontrolled pedestrian crossings will be provided across the traffic splitter islands on all arms of the proposed roundabout. The proposed roundabout is shown on drawing 0734-057, enclosed in Appendix D.

#### **Pedestrian and Cycle Access**

- 3.5 A new Toucan Crossing is proposed to the north of the proposed site access roundabout junction, south of the frontages of the existing residential properties on the eastern side of A3022 Brixham Road as shown on drawing 0734-023B included in **Appendix E.** The drawing indicates that a new link would be provided from the new crossing to cater for the desire line across to Steed Close.
- 3.6 A new uncontrolled pedestrian crossing point is proposed across A3022 Brixham Road at the southern end of the site. This crossing will utilise an existing traffic island located to the north of the ghost island right turn junction with Hunters Tor Drive, and a new section of footway to link to the existing footway/cycleway along the eastern side of A3022 Brixham Road, as shown on drawing 0734-029A, also included in **Appendix E**.
- 3.7 A footway/cycleway connection will be provided from the site to the new White Rock development to the north. The route will be located to the west of the existing White Rock cottages and will provide a safe, off-road route that will be particularly useful for those visiting the new local centre and pub at White Rock, and South Devon College. The route is shown on drawing 0734-055, also included in **Appendix E**.
- 3.8 A number of locations where access to the countryside will be provided from the site are also shown on the site layout, included in **Appendix A**.

### Internal Layout

- 3.9 The highways aspects of the internal site layout have been based on guidance set out in the TC 'Highways Design Guide for New Developments'. The proposed street hierarchy is provided on the Stride Treglown indicative masterplan drawing 15230\_SK\_203 Rev G, enclosed as **Appendix F.**
- 3.10 This includes roads designed to both Major and Minor Access Road standards, Shared Surfaces and Home Zones. The full details of the street hierarchy is provided within the TA associated with the planning application.
- 3.11 It is proposed that the two-form entry primary school would be located towards the south of the site. The masterplan shows a two-space school bus/coach lay-by and drop off/pick up parking both located on loop roads (i.e. not on cul-de-sac) enabling all access to be performed in forward movements. Staff parking is also shown on the masterplan.

#### Parking

3.12 Parking will be provided in line with the parking standards set out in Appendix F of the Torbay New Local Plan 2012-2030. Parking is considered in greater detail in Section 7.

#### **Bus Stop Infrastructure**

3.13 It is proposed that a new bus lay-by will be provided within the vicinity of the site frontage onto A3022 Brixham Road serving both northbound and southbound services. The proposed bus stop locations are illustrated on the site access drawing, 0734-057, enclosed as **Appendix D**.

#### **Off-Site Highway Works**

- 3.14 In order to mitigate the impact of the additional traffic generated by the development, it is proposed to widen the stretch of A3022 Brixham Road along the site frontage and to the north to 7.3m. This would meet TC's Local Plan policy to improve the existing A3022 Brixham Road.
- 3.15 It is proposed to reduce the speed restriction in the vicinity of the site from 40mph to 30mph. This new 30mph restriction would continue from the existing 30mph limit located approximately 130m south of the junction of A3022 Brixham Road with Hunters Tor Drive through to the point north of the site where the carriageway widens from one to two lanes in each direction on the approach to the junction of Brixham Road with Kingsway Avenue and White Rock Way.
- 3.16 It is also proposed to improve the visibility both vertically and horizontally on the bend to the north of the site on A3022 Brixham Road. Drawings 0734-018A and 0734-020A, both included in the TA, show how it is proposed to widen the carriageway on the inside of the bend, without encroaching into the adjacent existing footway/cycleway, while also reducing the levels of the carriageway on the crest of the hill.
- 3.17 To mitigate the impact of the development, works are proposed to improve the capacity at two further locations on A3022 Brixham Road, the first to the north at the junction with Goodrington Road and Long Road, the second to the south at Windy Corner, the junction with A379 Dartmouth Road. The layout of the improvements are shown respectively on drawings 0734-040A and 0734-053, both being included at within the TA.

## 4. POLICY CONTEXT

### **National Policy**

#### National Planning Policy Framework

4.1 The National Planning Policy Framework (NPPF) was published by the Department for Communities and Local Government in March 2012. Section 4 of NPPF, Promoting Sustainable Transport, states the following:

All developments that generate significant amounts of movement should be supported by a Transport Statement or Transport Assessment. Plans and decisions should take account of whether:

4.2 The National Planning Policy Framework (NPPF) was published by the Department for Communities and Local Government in March 2012. Section 4 of NPPF, Promoting Sustainable Transport, states the following:

> All developments that generate significant amounts of movement should be supported by a Transport Statement or Transport Assessment. Plans and decisions should take account of whether:

- The opportunities for sustainable transport modes have been taken up depending on the nature and location of the site, to reduce the need for major transport infrastructure;
- Safe and suitable access to the site can be achieved for all people; and
- Improvements can be undertaken within the transport network that cost effectively limit the significant impacts of the development. Development should only be prevented or refused on transport grounds where the residual cumulative impacts of development are severe.

Plans should protect and exploit opportunities for the use of sustainable transport modes for the movement of goods or people. Therefore, developments should be located and designed where practical to:

- Accommodate the efficient delivery of goods and supplies;
- Give priority to pedestrian and cycle movements, and have access to high quality public transport facilities;
- Create safe and secure layouts which minimise conflicts between traffic and cyclists or pedestrians, avoiding street clutter and where appropriate establishing home zones;
- Incorporate facilities for charging plug-in and other ultra-low emission vehicles; and
- Consider the needs of people with disabilities by all modes of transport.

A key tool to facilitate this will be a Travel Plan. All developments which generate significant amounts of movement should be required to provide a Travel Plan. Planning policies should aim for a balance of land uses within their area so that

people can be encouraged to minimise journey lengths for employment, shopping, leisure, education and other activities.

### Planning Practice Guidance

4.3 The Planning Practice Guidance has been updated and released online. The online resource makes reference to Travel Plans.

Travel Plans are long-term management strategies for integrating proposals for sustainable travel into the planning process. They are based on evidence of the anticipated transport impacts of development and set measures to promote and encourage sustainable travel (such as promoting walking and cycling). They should not, however, be used as an excuse for unfairly penalising drivers and cutting provision for cars in a way that is unsustainable and could have negative impacts on the surrounding streets.

Travel Plans should where possible, be considered in parallel to development proposals and readily integrated into the design and occupation of the new site rather than retrofitted after occupation.

Where there may be more effective or sustainable outcomes, and in order to mitigate the impact of the proposed development, consideration may be given to travel planning over a wider area.

#### Local Policy

#### Local Transport Plan – Devon and Torbay Strategy 2011 – 2026

4.4 Within The Torbay Strategy section of the LTP it is noted that:

Travel planning enables people to make more sustainable travel choices such as walking and car sharing. Travel plans are required for all new major developments and these developments will continue to be assessed to determine their contribution towards sustainable transport infrastructure.

- 4.5 Travel Planning and Smarter Choices are listed as key elements of Torbay's Transport Strategy and as such should form the basis of any development scheme.
- 4.6 Regarding funding streams it is stated that:

'Contributions for sustainable transport improvements will be sought from all new developments. This will include funding for travel planning measures as well as necessary infrastructure.'

#### Torbay New Local Plan 2012 - 2030

4.7 The New Local Plan was adopted in December 2015. This covers the spatial strategy and strategic delivery objectives for each of the three towns Torquay, Paignton and Brixham, alongside policies for managing change and development in the Bay. New Local Plan Policy TA1 Transport and Accessibility states:

> "The council is seeking to develop a sustainable and high quality transportation system which makes sustainable travel the first choice when travelling, thereby meeting the accessibility needs of everyone and promoting Torbay's economic competitiveness, whilst reducing the need to travel and its environmental impact. This will be achieved through:

- 1. This will be achieved through: Promoting development in locations that are easily accessible and safely reached by foot, cycle, public transport, other sustainable transport or car;
- Ensuring that the most sustainable and environmentally acceptable modes of transport are promoted as an integral part of developments, having regard to the following hierarchy of sustainability;
  - (I) walking;
  - (II) cycling;
  - (III) public transport;
  - (IV) car sharing;
  - (V) Iow/ultra low emission vehicles; and
  - (VI) private (high emission) transport.
- 3. Improving road safety, quality of life and equality of access for all, minimising conflict between road users and prioritising the transport hierarchy.
- 4. Ensuring that development is designed so that the use of cars is reduced wherever possible and residents have adequate access to employment, retail and community facilities within safe walking and cycling distance and via close proximity to bus stops, served by frequent bus services. Layouts should contribute to a connected network of footpaths, cycle routes and green infrastructure identified in the Torbay Green Infrastructure Delivery Plan. Employment proposals should seek to maximise the opportunities for sustainable transport of freight.
- 5. Incorporating, in new development, appropriate levels of car and cycle parking (see Policy TA3) that is well-designed, integrates with other public space uses and does not dominate the built environment;
- 6. Reducing the impact of signage and transport infrastructure within the street scene, to avoid proliferation of unnecessary clutter or harm to the historic features; and
- 7. Minimising the effect of development upon Air Quality Management Areas (AQMAs)."
- 4.8 Policies outlining access and parking requirements are discussed in the TA. Specifically under

Policy TA Development Access[?] it is noted that:

'A Travel Plan is required for all major developments likely to have significant transport implications, setting out how at least 30% of the potential users can gain access by foot, cycle or public transport, and how this will be monitored.[Is this covered in this document?] '

[FF - Did you pick up the policy Adam mentioned last week? Was it TA3?]

4.9 Furthermore, it is noted that:

'the Travel Plan requires SMART targets for the use of various travel options, with deadlines by when these will be achieved.'

## Planning Contributions and Affordable Housing SPD February 2017

- 4.10 It is noted under Section 4.4 Assessing the Cost of Additional Trips that:*'Planning Obligations will be sought from development based on the above net trip generation.'*
- 4.11 Table 4.3 sets out the S106 Sustainable Transport Obligations sought and furthermore notes: 'These figures will be used as a starting point and will be adjusted for the level of highways and sustainable transport works provided by the developer (as a development Site Deliverability matter or through negotiated direct provision). Regard will also be had to the cost of providing other mitigations to transport such as measures incorporated in Travel Plans etc. '

## 5. TRAVEL PLAN OBJECTIVES AND STRATEGY

### Background

- 5.1 It is recognised that active travel (e.g. cycling or walking) can reduce air pollution and, by increasing fitness and activity levels, help people to reduce their risks of health problems such as diabetes and obesity.
- 5.2 The DfT Good Practice Guidelines 2009 advise in paragraph 5.1 that it is essential that objectives of a Travel Plan relate directly to the development and the locality.
- 5.3 The initial objectives and strategy set out in this FTP aim to develop robust targets and measures that are reflective of the specific location of the development including the levels of access to pedestrian and cycle links, and to bus services.

#### Objectives

- 5.4 In view of the above, the initial FTP sets the following broad objectives:
  - to decrease single car occupancy journey to work trips when compared with existing work journeys (based upon Census 2011);
  - (ii) reduce the need to travel to and from the site by car;
  - (iii) to increase the use of sustainable transport;
  - (iv) to promote a healthier lifestyle for residents and visitors by increasing walking and cycling.
- 5.5 The initial TP targets and TP measures are described in Sections 6 and 7 below respectively.

### Strategy

5.6 The TP includes the appointment of a Travel Plan Coordinator (TPC) for the development. The TPC will be responsible for:

- development of the TP and its day to day operation;
- preparation of resident's travel packs;
- coordinating and implementing measures and incentives for all phases of the development;
- liaison with TC travel plan officers, residents, developers and TPCs of adjacent

developments, for example the White Rock development and at South Devon College;

- advising residents of travel options and assisting residents to plan sustainable journeys.
- organising the TP surveys;
- monitoring and reviewing the interim and agreed targets; and
- preparation and distribution of the TP newsletter.
- 5.7 The TPC role can be undertaken by the developer, a management company or an independent consultant. The role will be created prior to occupation of the development and will be continued for a period of at least 5 years following 80% occupation of the first phase of development.
- 5.8 The appointed TPC will undertake this role for each phase of the development, thus providing a coordinated approach for the separate phases, potentially under different developers. An agreement for the appointment and funding of the TPC role is to be approved by all developers.
- 5.9 Once appointed the contact details of the TPC will be made available to TC, and all residents through the information provided within the travel information packs.
- 5.10 Progress reports setting out the results of the travel surveys and comparison with targets will be provided by the TPC to TC. The FTP will be reviewed and any revisions agreed with TC.
- 5.11 Monitoring surveys and reports will be produced annually while the TPC role exists. The monitoring reports will compare the current modal splits and traffic generation with those outlined in the original FTP. If the targets are not met, additional measures may be implemented over the lifetime of the FTP.

## 6. TRAVEL PLAN TARGETS

#### Background

6.1 The National Planning Policy Framework (NPPF) was published on 27<sup>th</sup> March 2012 and sets out the government's planning policies for England and how these are expected to be applied. Guidance of Travel Plans, Transport Assessments and Statements was published on 6<sup>th</sup> March 2014. Paragraph 36 of the NPPF sets out that all developments which generate significant amounts of transport movement should be require to provide a Travel Plan. The guidance states:

"In determining whether a Travel Plan will be needed for a proposed development the local planning authorities should take into account the following considerations:

- the Travel Plan policies (if any) of the Local Plan;
- the scale of the proposed development and its potential for additional trip generation (smaller applications with limited impacts may not need a Travel Plan);
- existing intensity of transport use and the availability of public transport;
- proximity to nearby environmental designations or sensitive areas;
- impact on other priorities/ strategies (such as promoting walking and cycling);
- the cumulative impacts of multiple developments within a particular area;
- whether there are particular types of impacts around which to focus the Travel Plan (e.g. minimising traffic generated at peak times); and relevant national policies, including the decision to abolish maximum parking standards for both residential and non-residential development".
- 6.2 The guidance document sets out what information should be included in a Travel Plan. It states that Travel Plans should identify the specific required outcomes, targets and measures, and set out clear future monitoring and management arrangements, all of which should be proportionate. They should also consider what additional measures may be required to offset unacceptable impacts if the targets should not be met. It continues to state: "*Travel Plans should set explicit outcomes rather than just identify processes to be followed (such as encouraging active travel or supporting the use of low emission vehicles). They should address all journeys resulting from a proposed development by anyone who may need to visit or stay and they should seek to fit in with wider strategies for transport in the area. They should consider:* 
  - benchmark travel data including trip generation databases;
  - information concerning the nature of the proposed development and the forecast level of trips by all modes of transport likely to be associated with the development;
  - relevant information about existing travel habits in the surrounding areas;

- proposals to reduce the need for travel to and from the site via all modes of transport; and
- provision of improved public transport services"

They may also include:

- parking strategy options (if appropriate and having regard to national policy on parking standards and the need to avoid unfairly penalising motorists); and
- proposals to enhance the use of existing, new and improved public transport services and facilities for cycling and walking both by users of the development and by the wider community (including possible financial incentives)".

These active measures may assist in creating new capacity within the local network that can be utilised to accommodate the residual trip demand of the site(s) under consideration.

6.3 Travel Plans need to set out clearly what data is to be collected, and when, establishing the baseline conditions in relation to any targets. The length of time over which monitoring will occur and the frequency will depend on the nature and scale of the development and should be agreed as part of the Travel Plan with the developer or qualifying body for neighbourhood planning. Who has responsibility for monitoring compliance should be clear. Monitoring requirements should only cease when there is sufficient evidence for all parties to be sure that the travel patterns of the development are in line with the objectives of the Travel Plan. This includes meeting the agreed targets over a consistent period of time. At this point the Travel Plan would become a voluntary initiative.

# Using Census Data to Identify Indicative Baseline Mode Share

6.4 The 2011 Census provides the following 'travel to work' mode share data for the Mid-layer Super Output Area: E02003169: Torbay 016. The data presented has been adjusted to remove those not in employment by removing unemployed people from the total and recalculating the percentages.

Table 6.1 – 2011 Census Data – Journey to Work Population						
Mode of travel	Torb	oay 016				
	Number	Percentage				
Bus	92	3.57%				
Train/tube	20	0.78%				
Taxi	11	0.43%				
Car Driver	1,811	70.28%				
Car Passenger	140	5.43%				
Motorcycle	34	1.32%				
Cycling	54	2.1%				
Walking	203	7.88%				
Working from home	193	7.49%				
Other	19	0.74%				
Total	2,577	100%				

- 6.5 The adjusted Census data in **Table 6.1** is then converted to display single occupancy vehicles (SOV) and car sharers' mode share percentages as shown overleaf in **Table 6.2** with corresponding vehicle trips. For the purposes of this assessment, it is assumed that each car passenger in **Table 6.1** travels alone with a 'car driver'. To generate the total proportion of car sharers, the Car Passengers percentage in **Table 6.1** is doubled to reflect the assumed number of people in a car share vehicle, including the driver. To ensure that the total number of trips remains unchanged, the number of Car Passengers (14) is subtracted from the Car Drivers category.
- 6.6 **Table 6.2,** overleaf, also includes the multi-modal residential development for the AM and PM peak hours. These are based on the residential development trips, as generated from TRICS in the TA, which indicates the number of Single Occupancy Car trips. These percentage mode shares for other modes are then calculated based on these Single Occupancy Car trips and the percentage mode share from the Census data.

Table 6.2 – 2011 Census Data – Journey to Work Population (Adjusted) with Person Trips by Peak Hour						
Mode of travel	Torbay 016	Mode Share	Developm	nent Flows		
wode of travel	Number	Percentage	AM Peak	PM Peak		
Bus	92	3.57%	9	9		
Train/tube	20	0.78%	2	2		
Taxi	11	0.43%	1	1		
Single Occupancy Car	1,671	64.8%	164	165		
Car Sharers	280	10.9%	28	28		
Motorcycle	34	1.32%	3	3		
Cycling	54	2.1%	5	5		
Walking	203	7.88%	20	20		
Working from home	193	7.49%	19	19		
Other	19	0.74%	2	2		
Total	2,577	100%	253	254		

- 6.7 For this FTP a provisional target reduction in Single Occupancy Vehicle (SOV) trips of 10% is proposed.
- 6.8 Given the similarities in overall two-way development traffic flows in each peak hour, a single target has been set, as shown in **Table 6.3**.

Table 6.3 – Mode Share Target Change and Corresponding Trips							
Mode of travel	Trips	Initial Mode Share %	Target Change %	Target Trips	5-Year Mode Share	Actual Change (Vehicles)	
Bus	9	3.6%	+8%	22	8.8%	+13	
Train/tube	20	0.8%		2	0.8%	0	
Taxi	11	0.4%		1	0.4%	0	
Single Occupancy Car	1,671	64.8%	-10%	147	58.3%	-16	
Car Sharers	280	10.9%	+1%	29	11.5%	+2	
Motorcycle	34	1.3%		3	1.3%	0	
Cycling	54	2.1%		5	2.1%	0	
Walking	203	7.9%		20	7.9%	0	
Working from home	193	7.5%	+1%	21	8.1%	+2	
Other	19	0.7%		2	0.7%	0	
Total	2,577	100%	0%	254	100%	0	

- 6.9 As can be seen in **Table 6.3**, a 10% reduction in SOV traffic equates to a 6.5% modal shift away from SOVs to a target SOV proportion of 58.3%.
- 6.10 The initial indicative target for percentage reductions in SOVs, over the course of the full five years of the TP, requires drivers to change to an alternative travel mode. It is proposed that this is achieved by an 80% transfer to bus, with a further 10% to each of car share and working from home.
- 6.11 The provisional TP targets in this residential FTP have been set based on the 2011 'method of travel to work' census data for the local area as set out above. In view of this, the targets set are considered SMART (specific, measurable, attainable, realistic and time bound).
- 6.12 The corresponding indicative annual TP mode share targets are provided in Table 6.4 below. These are based on an approximate linear reduction/increase in mode share across the 5-year Travel Plan period.

Table 6.4 – Travel Plan 5-Year Annual Targets for Mode Share							
Mode of Travel	Initial	Year 1	Year 2	Year 3	Year 4	Year 5	Total Change %
Bus	3.6%	4.6%	5.6%	6.7%	7.7%	8.8%	+5.2%
Train/tube	0.8%	0.8%	0.8%	0.8%	0.8%	0.8%	
Taxi	0.4%	0.4%	0.4%	0.4%	0.4%	0.4%	
Single Occupancy Car	64.8%	63.5%	62.2%	60.9%	59.6%	58.3%	-6.5%
Car Sharers	10.9%	11.0%	11.2%	11.3%	11.4%	11.5%	+0.6%
Motorcycle	1.3%	1.3%	1.3%	1.3%	1.3%	1.3%	
Cycling	2.1%	2.1%	2.1%	2.1%	2.1%	2.1%	
Walking	7.9%	7.9%	7.9%	7.9%	7.9%	7.9%	
Working from home	7.5%	7.6%	7.7%	7.9%	8.0%	8.1%	+0.6%
Other	0.7%	0.7%	0.7%	0.7%	0.7%	0.7%	
Total	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	+0.0%

## Conclusions

6.13 As outlined previously, these targets will be reviewed following the initial monitoring of the development and after completion of the first round of resident's Travel Plan questionnaires. These will help to identify site specific and accurate baseline mode share percentages which may differ from the 2011 Census data information. This will help to set targets that are both robust and achievable.

## 7. TRAVEL PLAN MEASURES

- 7.1 The proposed development incorporates features that will reduce the need for residents of the development to travel by car and encourage walking, cycling, public transport use, car sharing and working from home.
- 7.2 The measures set out below are based on the key travel plan objectives of reducing single car occupancy journey to work trips, along with increasing the use of sustainable transport and promoting a healthier lifestyle for residents and visitors. The measures aim to achieve the targets set out in Section 6 above.
- 7.3 The measures include those to be implemented during construction of the development and those following occupation.

## Measures/Tasks during Construction

### Car Parking

7.4 Car parking provision will be in accordance with the TC parking standards of two spaces per house and one space per flat.

## Electric Vehicle Charging Points

7.5 Electric vehicle charging points will be provided in accordance with the TC parking standards of one point per two houses and included within at least 20% of spaces for flats.

### Cycle Parking

7.6 Cycle parking within the development will be provided for all dwellings in accordance with the TC parking standards of two parking spaces per house and one per flat. Suitable secure and covered cycle storage will be provided for all dwellings.

### Bus Stops

7.7 Bus stops provided to serve the development will have raised boarder kerbs, shelters with seating, timetable information and real time displays.

On site pedestrian and cycle facilities.

7.8 A number of pedestrian and cycle links are provided within the site. These links can be seen on the illustrative site layout enclosed in **Appendix A**.

## Offsite pedestrian facilities

- 7.9 A new Toucan crossing is proposed to the north of the proposed site access roundabout junction, south of the frontages of the existing residential properties on the eastern side of A3022 Brixham Road.
- 7.10 A new uncontrolled pedestrian crossing point is proposed across A3022 Brixham Road at the southern end of the site. Details of the crossings are set out in the drawings included in the TA.

### Broadband

7.11 All dwellings will be provided with suitable connections to facilitate installation of broadband. The provision of suitable facilities will assist in encouraging residents to work from home thus reducing the need to travel. Whether it's working from home on a full time basis or a compressed working week, this will lead to a reduction in trips to/from the development.

#### Notice Boards/Signage

7.12 Notice boards and signage will be located at suitable locations within the development providing information on active travel and public transport for example.

### Measures/Tasks prior to Occupation

### Appointment of Travel Plan Co-coordinator

7.13 The TPC will be appointed 3 months prior to occupation of any dwellings. Details of the TPC are to be provided to TC. Details of the role are set out in Section 5.

### Sales Literature and Induction of Sales Staff

- 7.14 The sales literature for the proposed development will be produced and will include sustainable travel information to make potential residents aware that the development is accessible on foot, by bicycle and by public transport.
- 7.15 Sales staff will be advised of the TP measures.

#### Online Resource

7.16 The TPC will produce an online resource which can be used by all residents of the development to provide quick and easy access to travel information, and to find out the latest information about the travel plan. The health benefits of increased walking and cycling will also be promoted. Resources such as Facebook and Twitter could be used.

Car Club

7.17 Details of car club membership will be provided by the TPC in the travel information welcome pack.

### **Bus Services**

- 7.18 It is acknowledged that existing bus provision in the vicinity of the site is rather limited. Stagecoach have been contacted for their views on the bus stop provision included within the site masterplan and they have confirmed that it would be suitable for use by their buses.
- 7.19 Stagecoach has suggested that it may serve the bus stops within the site by extending the route of the existing 23 service between Paignton town centre and South Devon College, with the Inglewood bus stops becoming the terminal stops. At the time of writing, confirmation of this proposal was awaited. However, TC has confirmed that they too consider that an extension of the 23 service would be a good option to provide a bus service to the site.
- 7.20 The developer is willing to subsidise a bus service during the initial stages of the operation of the site to encourage residents to use the bus as a viable alternative to private car travel. [Need to review when Nick Small sends proposal].

### Measures/Tasks on Occupation

### Residents Welcome Pack

- 7.21 Each initial occupier will be given a travel information pack provided by the residential developer including:
  - (i) an introductory newsletter introducing the TPC and explaining the purpose of the TP Initiative.
  - (ii) a Site Specific Smarter Travel Leaflet will be prepared incorporating a map and will be produced. The Leaflet will aid new residents in identifying local facilities, services and routes. The leaflet can also be provided to visitors.
  - (iii) information of walking routes and cycle maps and websites to plan journeys such as Walkit;

- (iv) bus route and timetable information;
- (v) train route and timetable information;
- (vi) information, links and contact to local travel resources such as Travel Torbay and journey planning websites such as traveline.
- (vii) website and contact details for local public transport companies such as Stagecoach.
- (viii) applications for a 13 week free bus ticket.
- (ix) details of the health benefits of increased exercise, particularly walking and cycling.
- (x) information setting out benefits or working from home and flexible working;
- (xi) details of the local car sharing website which can be found at carsharedevon.com. The welcome pack would outline the benefits of car sharing;
- (xii) information regarding the on-site car club car and details of membership;

#### Sustainable Travel Events

- 7.22 The TPC will arrange one sustainable travel event for each year that the TP is in place. Events could include but are not limited to:
  - non-car travel days with incentives;
  - car share days with incentives; and,
  - cycle days with free cycle maintenance facilities/servicing and cycle training days.

#### Newsletter

7.23 The TPC will organise the production of a 6-monthly newsletter for circulation to all dwellings. This will be aimed at reminding existing residents of the TP and advising new residents of the plan. The newsletter will provide up to date information on public transport, cycling, walking and the health benefits that can be achieved through increased exercise. The other TP measures and incentives available will also be promoted.

### Steering Group

7.24 The TPC will coordinate a Steering Group for the development to discuss transport matters. It is suggested that this group forms part of a community group that can take on transport initiatives when the TPC role concludes.

#### Bus Ticket

7.25 An application for a free 13-week bus voucher will be available to all households (1 per household). The TPC will administer the applications and provide processed applications to Stagecoach who will then provide the Torbay 13 Week Megarider ticket directly to the resident. The TPC will hold records of all applications.

#### Car Club Membership

- 7.26 Details of the car club and membership will be provided within the travel Information pack. Residents will be offered free membership for one year to encourage the use of the car club car and potentially encouraging residents to either reduce car ownership within the household or discourage future car purchases.
- 7.27 The provision of a car club car within the development and the provision of one year's membership for each household is also likely to reduce car ownership amongst residents and this is turn will reduce the number of car trips undertaken from the development.

#### Improved Bus Services

7.28 It is envisaged that the introduction of additional bus services and bus stops to serve the development and will encourage residents to use the bus for travel and thus there be a significant increase in the number of residents using the bus rather than driving. This will also be supported by the provision of free bus tickets for residents upon application.

### **Broadband Connections**

7.29 Due to the provision of suitable connection potential to broadband, it is expected that there will be an increase in the number of residents that work from home. Dependant on working arrangements, suitable facilities would enable working from home full/part time or under a flexible working arrangement of non-standardised working hours or a compressed working week for example thus reducing the need to travel to/from the development. Information regarding working from home will also be included in the residents travel packs.

Other Options

7.30 Through promotion of car sharing and encouraging awareness of the wastefulness of single occupancy car use, and the promotion of car sharing websites by the TPC in particular within the residents travel pack we consider it reasonable to assume that car sharing will increase. Travel events run by the TPC could also focus on car sharing. The TPC will liaise with the TPCs of adjacent sites regarding car sharing and establish if developing a wider area car sharing group would be beneficial.

# Funding

7.31 The developer has set aside a Travel Management Fund sum to cover the cost of supporting the TP.

## 8. MONITORING AND REVIEW

- 8.1 The TPC will be responsible for preparing monitoring reports for a period from occupancy of 80% of the first phase until 5 years after occupation of the 80% of the first phase, setting out the results of the travel surveys and comparison with targets which will be provided to TC.
- 8.2 The monitoring of the TP will be undertaken via two types of survey as follows:
  - annual traffic counts including ATC data and multi modal counts.
  - residential travel surveys.
- 8.3 The initial travel survey will be conducted within three months of the occupation of 80% of the first phase. Monitoring will continue for a period of 5 years from 80% occupation of the first phase.
- 8.4 The traffic counts and residential questionnaire travel survey will then be carried out annually while the TPC role exists. This will allow the review of how the TP targets are being met and will extend beyond final completion of the development.
- 8.5 Data collected from all the surveys will comply with the Data Protection Act and data shall not be used or disclosed except for the purpose it was collected.
- 8.6 The residential travel surveys will provide details on travel habits and what measures may be more effective in changing travel mode. The uptake in incentives will also be monitored. This will be relevant should the travel plan targets not be met and, in liaison with TC, further measures need to be considered, agreed and implemented.
- 8.7 Following each annual monitoring period a review of the travel characteristics of the development in comparison with the TP targets will be undertaken following the analysis of the travel surveys. Progress reports setting out the results of the travel surveys and comparison with targets will be provided by the TPC to TC.
- 8.8 Should the targets not be met then the TPC will review them in liaison with TC. If considered necessary targets may be amended or further measures introduced to encourage a reduction in single occupancy journey to work trips with the agreement of TC.

## **ACTION PLAN**

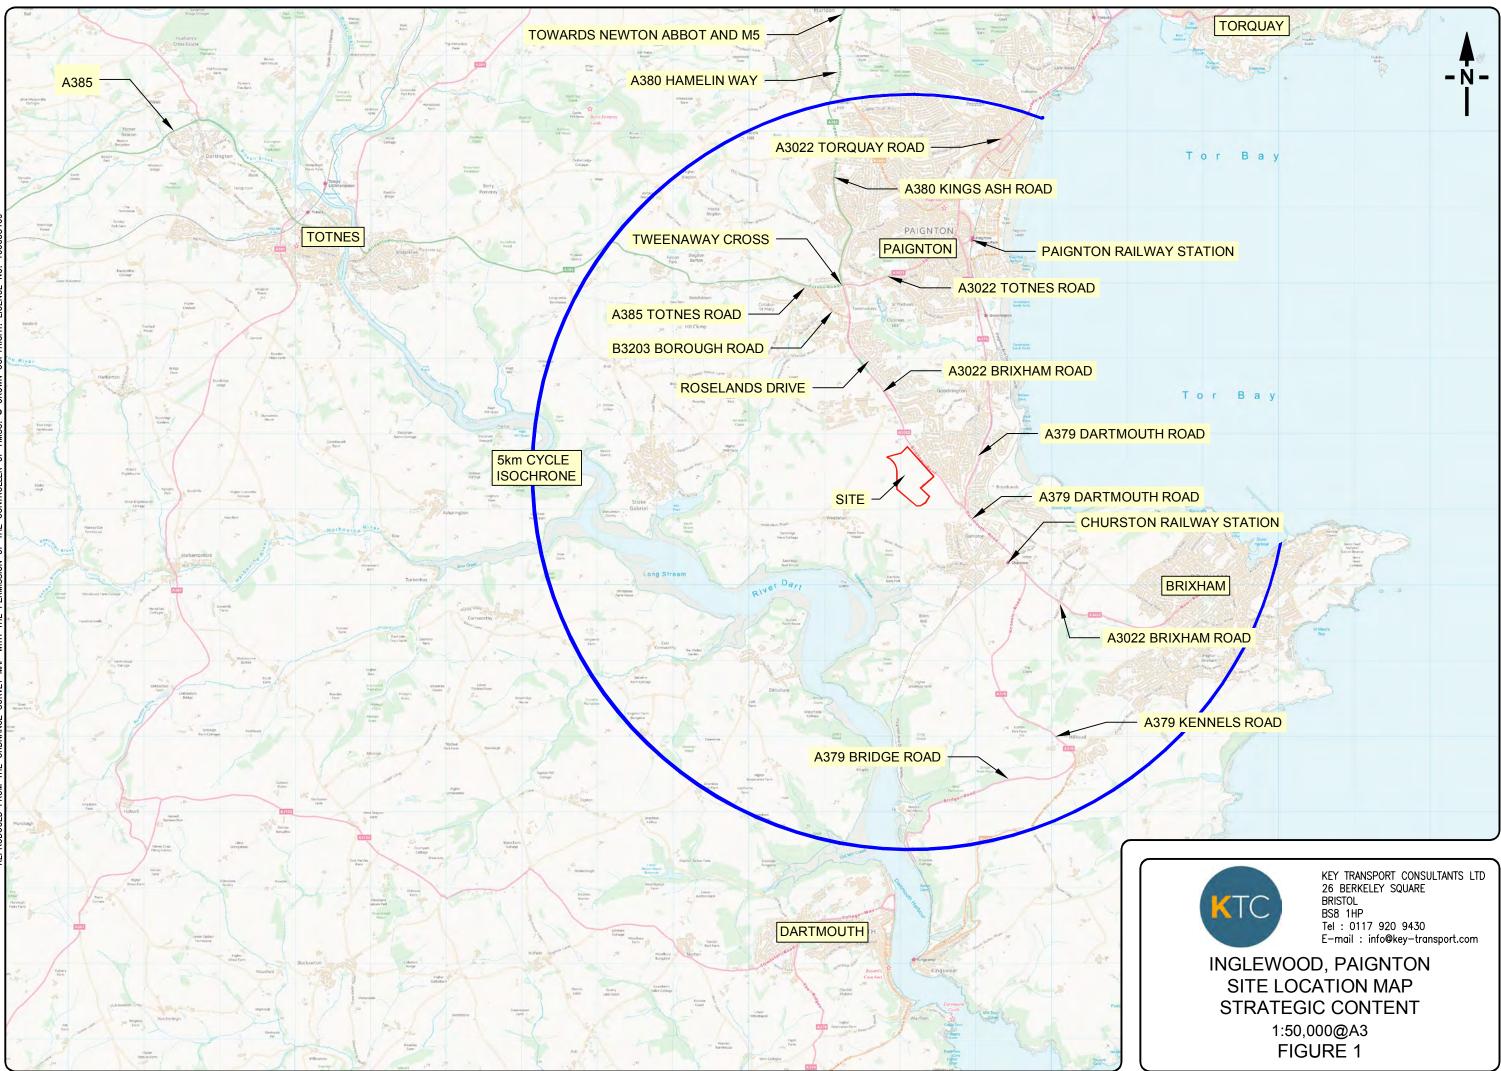

- 8.9 Following appointment of the TPC, they are is responsible for preparing sustainable travel information and the Residents Travel Pack.
- 8.10 The TPC will also be responsible for preparation and production of the newsletter which will be first issued annually while the Travel Plan Coordinator role exists.
- 8.11 The TPC will organise traffic and travel surveys to be undertaken within 3 months of occupation of 80% of the first phase.
- 8.12 The TPC will be responsible for preparing monitoring reports for a period from occupancy of 80% of the first phase until 5 years after occupation of the 80% of the first phase, setting out the results of the travel surveys and comparison with targets which will be provided to TC.
- 8.13 The TPC will be responsible for amending the Action Plan to incorporate any necessary further measures identified following completion of the travel surveys.
- 8.14 The table below sets out an Action Plan for the initial period of the Travel Plan, the Action Plan should be revised following the initial baseline travel surveys and then annually following the results of travel surveys.

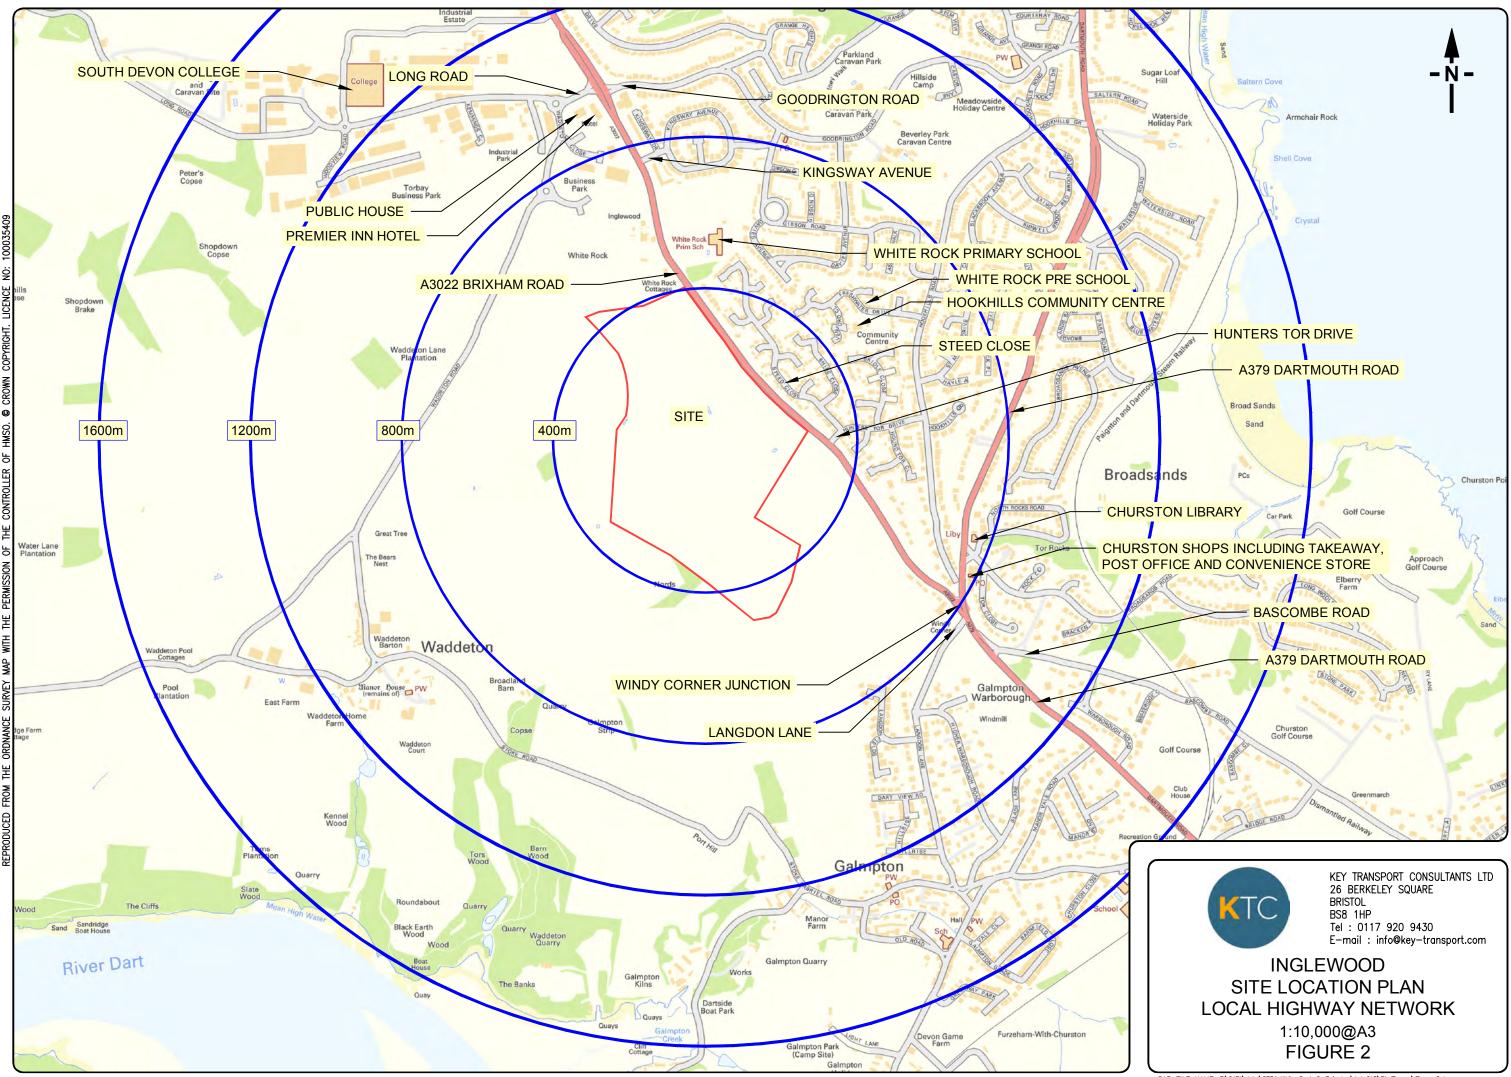

ITEM NO.	ACTION	RESPONSIBILITY	TARGET DATE	RESOURCES
	Construction Phase			1
1.1	Car, vehicle charging points, motorcycle and cycle parking will be provided as part of the construction.	Developer	During construction	Cost to developer as part of construction
1.2	On-site pedestrian and cycle facilities and routes.	Developer		
1.3	Bus stops constructed and located to serve the development.	Developer	-	
1.4	Travel notice board and on-site signing will be installed as part of construction.	Developer	-	
1.5	Broadband connection	Developer		
1.6	<ul> <li>Off-site highway improvements will be delivered.</li> <li>Toucan crossing and uncontrolled pedestrian crossings on Brixham Road</li> </ul>	Developer / Highway Authority (TBC)		Cost to developer as part of construction
	Windy Corner improvements			
	<ul> <li>Widening of A3022 to the north of the site access</li> </ul>			
	Long Road junction improvements			
2.0 - F	Pre-Occupation Travel Plan Initiatives			•
2.1	Appoint a TPC. The TPC will be appointed during the construction phase of the development and will be responsible for ensuring the Sales Literature includes sustainable travel information, induction of sales staff, developing the online resource and preparing the Residents Welcome Pack. The TPC will also be responsible for administering the TP for all phases of the development, implementing the various initiatives set out in this document, managing the TP budget and updating the TP document. TC will be provided with contact details of the TPC within 1 month of the appointment.	Developer	3 months prior to occupation	Staff time/cost of advertising the post
2.2	Online Resources e.g. Facebook page and twitter	TPC	Prior to first occupation	Under the TPC Role
2.3	Sales Literature and Induction of Sales Staff	TPC/ marketing	Prior to first	Staff time
	Include sustainable travel info in sales literature and advise sales staff of TP measures.	team.	occupation	Printing costs

ITEM NO.	ACTION	RESPONSIBILITY	TARGET DATE	RESOURCES
2.4	Bus service – Explore options to reroute buses into the site and to the two new bus stops	Developer	Prior to first occupation	Cost of bus service improvements
3.0 – F	Post Occupation Travel Plan Initiatives	1		1
3.1	Preparation and production of residents welcome packs, including details of the bus ticket and bike voucher applications, bus services, cycle maps, health benefits of increased exercise and link to the online resource.	TPC	Upon occupation	Under the TPC Role, printing costs
3.2	Organisation of one Sustainable Travel Event per year	TPC	Annually	Under the TPC Role, Incentives
3.3	Production and circulation of an annual newsletter to each dwelling.	TPC	Annually	Under the TPC Role, printing costs
3.4	TPC to coordinate a steering group for the site to cover transport matters – could be part of a community group. TPC to arrange meetings as required.	TPC	On-going	Under the TPC Role
3.5	Free Bus ticket to be administered by the TPC through an application process.	TPC	On-going	Under the TPC Role. Cost of bus tickets - Developer
3.6	Car Club membership provided for all households for a year. Information to be provided by the TPC.	TPC	On-going	Under the TPC Role. Cost of membership - Developer
4.0 – 1	Fravel Plan Targets			
2.1	The main TP target is to reduce single occupancy car travel to and from the site.	TPC/ Developer		
2.2	The TP sets out provisional targets to be achieved within each year of the TP. The targets relate to single occupancy car journeys to work from the site. After 1 Year 63.5% After 2 Years 62.2%	TPC/ Developer	Annually	
	After 3 Years60.9%After 4 Years59.6%After 5 Years58.3%			
4.U - IV	Ionitoring and Review			

ITEM NO.	ACTION	RESPONSIBILITY	TARGET DATE	RESOURCES
4.1	Monitoring surveys to be undertaken every year from occupation of the 80% of the first phase for 5 years. Targets to be assessed and revised appropriately when results are produced.	TPC	Annually	Cost of travel surveys and traffic surveys.
4.2	Provide TC travel plan officer with details of monitoring surveys and discuss targets. The TPC will be responsible for preparing progress reports annually for a period of 5 years after occupation of the 80% of the first phase, setting out the results of the travel surveys and comparison with targets.	TPC / TC	Annually	
4.3	A TP is a living document, as time passes the document should evolve and continue to encourage reductions in single occupancy car use and other sustainable travel initiatives. The TPC will be responsible for amending the Action Plan if required to incorporate any necessary further measures identified following completion of the travel surveys. Amendments to the Action Plan will be agreed with TC	TPC/TC	Annually (if required)

Torbay Cycle Map

## Torbay Cycle Guide & Map

Cycling is a great way to get around and makes the most of what Torbay has to offer.

This map and guide is designed to be useful to all types of cyclist, whether experienced or inexperienced. The roads and cycle tracks are colour coded to show what type of route to expect when you cycle around the Bay.

Torbay Council aims to provide routes that are safe, useful and memorable.

- Safe for children and less experienced cyclists
- Useful for local journeys
- Memorable for everyone

Cycling is a good way to get fit, stay healthy and save money. Some of the things that stop people getting on a bike, include confidence, riding on the road, deciding what to wear and planning a route. It can seem daunting as a beginner, but by following the basic rules of the road - riding safely, responsibly and respectfully - can greatly reduce any chance of having a problem.

This map can help you to plan your route. Try and choose those roads that are traffic-free, those with an on-road cycle lane or one of our advisory routes. Traffic-free routes that can be good in daylight can often be unlit at night and are best avoided. When riding in the dark you need to be more aware of hazards such as potholes as these will be harder to spot.

Finally and most importantly, make yourself as visible as possible at all times. When riding in the dark, the law states you must have lights and reflectors fitted to your bike but it is also advisable to wear reflective or bright coloured clothing to help improve your visibility at any time.

# **Parkfield BMX Track**

BMX is an exciting sport that everyone can get involved in, be it as a racer, recreationally or as a spectator. The international standard BMX track is rur by Torbay BMX Racing Club as part of the Parkfield facility. The club is currently inviting membership and to ensure a safe standard and maintenance of the track. This is an all year round track, but can be closed unsure about access by calling 01803 698900.

# Let's get Cycling

#### Cycling in Torbay is on the up!

There are more people cycling, young and old, d getting about without hassle, fuel costs, and arriving on time just when you want to, avoiding all he queues and congestion.

Cycling is a key part of Torbay Councils Local Transport Plan, contributing to improved access for all, as well as reducing carbon emissions, which is helping the environment, personal fitness and

Cycling is one of the best forms of transport when travelling short distances, and that includes getting across the Bay between Torquay and Brixham. The new coastal cycle route will be as flat as it future, there will be less and less excuses to say

Bikeability is Cycling Proficiency for the 21st century, designed to give the next generation the skills and confidence to ride their bikes on today's roads. Torbay Council currently delivers subsidised Bikeability cycle training if you live, work or study in Torbay!

Level 1 - Teaches basic bike handling skills in an off-road environment and is ideally suited to children aged 7-9 years old.

Level 2 - Is covered on quiet roads with real traffic conditions and is available to children aged 9 and older.

Level 3 - Is carried out on busier roads with more complex road junctions and is suited to secondary school-aged children and adults.

Torbay Council works in all primary schools in Torbay to give as many young people as possible the opportunity to gain this important life skill. If your child has missed the training at school why not book them onto one of our holiday courses.

Level 3 training is offered to secondary school students in Torbay by Torbay Sports Partnership, giving them the opportunity to plan and cycle more complicated routes.

Torbay Council is also able to provide adult and child 'Learn to Ride' sessions and cycle training for adults who would like more confidence to undertake journeys.

## The National Cycle Network

The National Cycle Network is a countrywide network of cycle paths that pass through the Bay. Start by looking out for the blue signs near you – the network is well signed and easy to follow. You can use this map to find those on-road and traffic-free routes near you that are part of the National Cycle Network.

When planning a route, aim to stick to these as much as you can and get to know your journey:

- Quiet roads or cycle paths
- Roads with low speed limits
- Bus lanes
- Parks and open spaces which allow cycling

Public bridleways can be used by walkers, cyclists and horse riders. By law, those on two wheels should give way to other users. Remember the surfaces can be variable and not always suitable for all bikes. Shared-use paths are free of motor traffic and designated for use by walkers, cyclists and sometimes horse riders. These paths generally have good surfaces.

For more information visit www.sustrans.org.uk

# **Days Out**

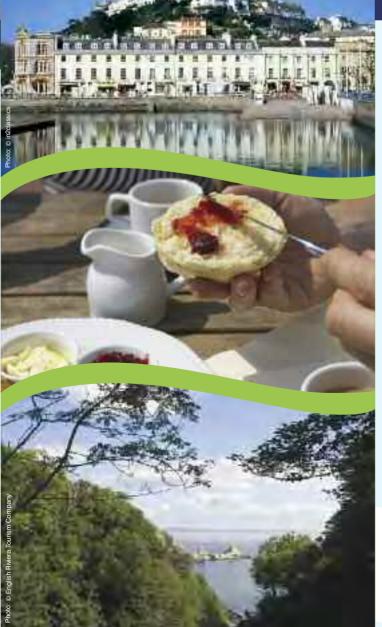

transport when travelling around the Bay. Get out and ride and become part of the change! Bikes in

Use the map to plan great days out.

A coastal route around the Bay stopping at beaches and harbours ending with a cream tea in Brixham and the ferry back to Torquay

correct side.

If you see this sign it means you're in a contra-flow cycle lane. This allows you to safely ride against the direction of flow of the one-way street and usually offers a more convenient and direct route.

# Cycling on-road and off-road

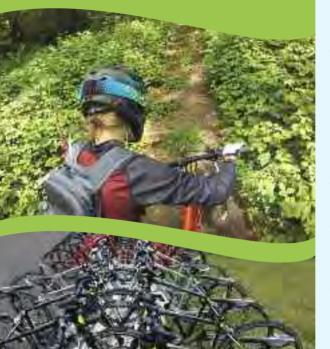

Many people say they are put off cycling because they don't like the idea of cycling in traffic, but many

make sure drivers know they are there. Once you

Never cycle along the inside of large vehicles, such a lorries and buses, especially at junctions, where mos accidents happen. When turning left, a lorry will ofter pull out to the right first, creating a wide gap between to ride into this space, but this is a dangerous place to be as the gap quickly disappears when the lorry swings around to the left.

developed many off-road routes in Torbay. It manages miles of cycleways and permitted cycle routes through country parks, woodland, farmland and coastline in Torbay, including Cockington Country Park, the Occombe Farm area and throughout much

Scassdon Woods Bike Park has single track trails member please visit www.tq3riders.co.uk

You'll see these signs when you're out on the National Cycle Network or cycling around the Bay. The number relates to the route you are following with red for the National route and blue for

This sign, with no white lines, tells you that it's a shared cycle and pedestrian route.

A white line in the sign indicates that it's a segregated shared-use route for cyclists and pedestrians, so make sure you ride on the

# Velopark

The circuit is the only outdoor closed road circuit in Devon and Cornwall, and can accommodate amateur and professional cycling and a range of other sporting activities. There are three different distance options that the Velopark offers:

- Whole Track: 1.5km
- 1.0km
- 0.5km

Anyone wishing to buy a membership for the Velopark can do so at the reception desk of Torbay Leisure Centre. 'Pay as you Go' users can also pay here.

Alternative activities include athletics, jogging, nordic walking, in-line skating and a range of fitness activities for people with disabilities. The Park offers a dog-free activity area that includes changing and toilet facilities, bike and helmet hire, bike storage, an office and a rest. Anyone wishing to use the Velopark for an alternative sport other than cycling and for changing facilities, please contact the Torbay Council Sports Team.

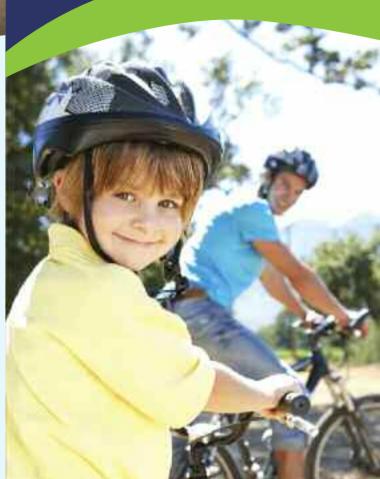

#### The Velopark Programme will be updated on a regular basis. Please keep an eye on the timetable for availability: www.torbay.gov.uk/index/yourbay/ sports/sportsfacilities/velopark.htm

You can also access professional coaching sessions, delivered by a British Cycling Qualified Instructor for a small cost per hourly session. Again, these can be booked through the Torbay Council's Booking Office on 01803 208873. Dates and times of coaching courses will be published online and at Torbay Leisure Centre. Places will be allocated on a strictly first come, first served basis.

#### 13 Newton Abbot - Paignton \_ Brixham 13C Torquay - Goodrington 13D Kingsteignton - Paignton

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

#### NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

#### NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

Service Restrictions: Sch - Torbay School Days

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

s: CH - South Devon College Holidays

Col - South Devon College SH - Devon School Holidays

Sch - Devon School Days

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

### MS4 Brixham - The Willows Torquay MS5 Brixham - The Willows Torquay

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

### NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

Service Restrictions: MWF - Valid only Monday, Wednesday, Friday

### Sainsbury - Broadsands - cherry Brook - Sainsbury Monday, Wednesday & Friday Only

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.
