

# TORBAY COUNCIL

## Cross sections of consentable activities

	<b>Pipe Culvert (including extension and removal of) - Consent Required</b> under Section 23 1(b).
	<b>Oversized Box Culvert (including extension and removal of) - Consent Required</b> under Section 23 1(b).
	<b>Trash Screens - Consent Required</b> as it is an alteration to a culvert and has the potential to obstruct flow.
	<b>Bank Protection Works - Not Consentable</b> under LDA 91, (Temporary works may require consent).
	<b>Pipe Crossing (in channel) - Consent Required</b> under Section 23 1(a).
	<b>Pipe Crossing (above bank) - Not Consentable</b> under LDA 91 as it does not interfere with flow.
	<b>Pipe Crossing (below bed) - Not Consentable</b> under LDA 91 as it does not interfere with flow - Potential temporary works consent.
	<b>Protruding Pipe Outfall - Not Consentable</b> under LDA 91 as it will not act like a dam/weir or an obstruction.
	<b>Outfall within Bank profile - Not Consentable</b> under LDA 91 as it does not interfere with flow - Potential temporary works consent.
	<b>Weir/Dam or impoundment or temporary works that obstruct flow - Consent Required</b> under Section 23 1(a).
	<b>Bridge (where soffit level is below bank top level) - Consent Required</b> under Section 23 1(a) if it has the potential to affect flow.
	<b>Bridge (abutments protruding but not reducing flow area/width) - Not Consentable</b> under LDA 91 as it does not interfere with flow.
	<b>Bridge (abutments restricting flow) or Flume - Consent Required</b> under Section 23 1(b)
	<b>Clear span bridge - Not Consentable</b> as it does not interfere with flow.
	<b>Bridge with support in channel - Not Consentable</b> under LDA 91 as it will not act like a dam/weir or like obstruction. Need to consider size of pier against size of watercourse, but would want to discourage the use of a pier in the watercourse.

Note: "flow" should be determined as bank full flow conditions
