How long will my plaque be on the bench?

Sponsorship of benches will be available for 5, or 25, year periods.

What will happen to my plaque after the period?

SWISCo will reach out to plaque holders when their sponsorship is nearing its end. For those with existing plaques whose agreements have lapsed, a renewal package will be available.

Plaques can be returned after the agreement period.

What are the bench styles?

The Council will select a suitable bench style for the designated location.

This decision will consider:

- Consistency with existing benches at the site
- The location and its surroundings
- Bench availability

The Council does not allow the public to add their own plaque or buy and install their own benches on Council-owned land.

When will my bench be installed?

Installation can take **up to four months** from the time payment is made.

This timeframe accounts for the lead time required to order and receive the bench, as well as scheduling the installation.

Vandalism and damages

If a bench is damaged beyond repair, the Council will remove it and notify you. If possible, the plaque will be returned to the donor. We will offer a replacement, but this will be at the current full cost.

There is no entitlement to a free replacement if your bench is damaged beyond repair. The Council does not have insurance coverage for the loss, damage or destruction of benches.
