

Ambassadors Report

August 2024

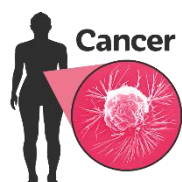

Since the last Board meeting, we have officially opened our office. Councillor Hayley Tranter and Gary the dog opened it and we have over 20 guests including Sue McDermott. It was lovely to see her. Thank you to everyone who visited.

During Learning Disability week, we enjoyed the music festival at Hollacombe. It was also Jude's last day, so we shared a cream tea with her.

We also took part in the Local Government Peer Review and had a good morning with Dr Clenton Farquharson talking about the work we have done.

We have been working with Abi and Jess about making information easy when people are talking about the signs and symptoms of cancer.

In June we met with Shirley Beauchamp to talk about domestic abuse and sexual violence. We will carry on talking about how services can help people with learning disabilities. We have also made contact with Kevin who runs groups just for men and we will work with Kevin to set up a group in the autumn.

Carol Gray has been to speak to us about the new hospital at Langdon and she has promised to keep us updated about progress.

Alison Kingdon and her colleague visited to tell us about her role at Torbay Hospital.

On 15th July we went to the Treat Me Well feedback meeting and our report has been sent to Sharon. We have also spent a morning at Torbay Hospital reception area to tell people about the work of the Partnership Board.

We are very proud of Tracie because she has presented her art work to Anne -Marie Bond which will go in her office.

Tracie was really pleased that Anne -Marie came to meet her and gave her a card, gift and flowers to say thank you.

Lorraine and Mike would like to say a huge thank you to Torbay Hospital for caring for Mike when he was ill. We are all so pleased to have him back with us healthy and well. All the staff at the hospital were amazing.
