Dear Sir/madam,

I wrote to your section several months ago in connection with the designation of this property as a 'wildlife zone' (cirl buntings)

I asked you then where you had got your information from. I have had no reply. This information was needed for a public inquiry. You will appreciate the consequences of failure to co-operate with an appellant in such an inquiry.

I have been in contact with the RSPB who have confirmed in writing that this is not a Cirl bunting site.

In view of this I expect you to change your plans accordingly - especially as the owner of 86 Nut Bush lane has obliterated any wildlife interest by dumping a large quantity of spoil on that site.

It is the duty of planners to monitor.
I expect you to change your plans in the
light of this information.

Yours faithfully

MR. A. GARLICK.
